The “Sting” and the Trojan horse!

The “Sting”

You’ve landed in our “Deep-throat” forensic file, which contains many of the tips and leads reported to us from across the country. It also included emails received from and exchanged between our voter-fraud audit team following leads analyzing tips, and records of suspect’ interviews and the flow-charts we used to better understand how the Biden/Harris’ campaign coordinated between their operatives at the county, district, state, national and international levels. It also contains a record of how they channeled campaign funds through their Political Action Committees (PAC) into the pockets of .

in the Biden link players at the county, district and state level to funding and support the “Raw forensic data” discovered, during our investigations.

At some point, we assign each case to a team of local/regional investigators, closest to and thereby more familiar with those perpetrating the crime.

Warning: Just because an individual, group or organization is named in this file, does not mean they’re guilty of any crime. At worst, it just means they’re “guilty by means of association.”

Red font/borders indicates major Risk concerns

Green indicates recommended risk controls:

We used this file to "Benchmark" the first year of the Biden' administration. Starting at the bottom and reading forward, you'll be able to identify the "Pure" risks created starting the first day he was in the Oval Office:

1. The article below is exactly what we have found, what True The Vote has found, and documents give strong evidence of what happened in Wisconsin. In addition, the related Rumble video link below is 24 minutes long and very informative.

Whistleblowers Expose Arizona's Ballot Trafficking 'Mafia,' Implicate GOP

- Two men in Yuma County, Arizona, David Lara and Gary Snyder, took down a San Luis ballot trafficking operation using undercover cameras during the 2020 primary election. Their evidence, which was presented to Arizona AG Mark Brnovich, resulted in felony forgery and conspiracy charges filed against Guillermina Fuentes, a member of the San Luis School District Board. Lara and Snyder appear in the upcoming Dinesh D'Souza "2,000 Mules" [True the Vote](#) documentary. In a recent [interview](#) with The Gateway Pundit, Lara reveals details about Arizona's vote harvesting "mafia" and the mechanics of ballot trafficking.

In Yuma County, Lara says election rigging through ballot harvesting has been going on for 22 years. "It is a professional criminal organization. These are not amateurs, these are people that have been doing it for many, many years, it is well structured... Giuliani would have been perfect for this investigation because it mirrors the mafia, the Italian mafia in New York. It has ranks, has different levels of infrastructure, they have different levels of authority, and it trickles all the way up to the top. And when I say all the way to the top, I'm talking about state and federal levels. The grassroots... will pick up the ballots, and then they'll pass it on to the next person... and so forth. And the reason they do this is in case somebody gets caught, then they're caught with a small amount of ballots, which makes it an amount that would not sway an election either way. So they're very precise... and that's why I've always said this is a cartel. This is run exactly the way cartels and drug dealers distribute drugs in a community."

Lara also shed light on why ballot traffickers prefer drop boxes to mailboxes. The cartel relies on a last minute drop box deluge to bypass signature checks on forged ballots. This is the exact "playbook" that was used "in the swing states in 2020, when when the election was stolen from Trump," Lara explained. "The avalanche of mail-in ballots kicked in at midnight, or somewhere around 1AM. The reason they do that is, the harvesters, after they gather hundreds or thousands of ballots, they hold on to them. On Election Day, in the morning, they start to slowly trickle them in... Then they wait to the last hour or two. And then that's when they unload the rest of them. The reason they do that is so that the county recorder will get flooded with an avalanche of ballots, when they're under the clock to verify thousands of votes. It is impossible to verify that many signatures that fast in that short of a time."

"How can you harvest that many ballots?," Lara asks rhetorically. "That's through nonprofits that are in low income communities... The vast majority in low income communities are controlled by what I called warlords. And I say warlords, because it's to benefit them to remain in control of their community." Not all the ballots have fake signatures, Lara noted. In some cases, these low income, minority voters actually hand over *signed* blank ballots, which are then voted straight ticket Democrat.

One of the most disturbing revelations in the interview was confirmation that the GOP is involved. In 2020, Arizona audit liaison Ken Bennett brought the DOJ to San Luis to investigate one of Lara's ballot harvesting complaints. Within hours of their arrival, a flyer, written in Spanish, had circulated throughout the community notifying residents that they did not have to cooperate with the DOJ, answer any questions, or even open their door. The PAC distributing the flyer was funded by the Republican Party. "The real problem in the ballot harvesting is big money Republicans," Lara said. "These are the RINO establishment that in some ways, somehow they benefit from the ballot harvesting. Could be contracts, it could be favors... So the biggest problem that we have to fight the voter fraud in all of the states are the RINO Republicans who are just entrenched."

2. Announcement: Attorney Dan Eastman, investigator Gary Wait and myself have formed a new non-profit corporation to aggressively go after election frauds. Including the organizations, individuals and sadly, some election clerks who committed such acts. It is called the Wisconsin Center For Election Justice. We will be obtaining office space in the Mequon, WI area and hiring staff. Of course we will still need your help, the volumes of data, tips and projects we are tackling is growing by the week. We'll be better organized and numerous lawsuits are planned to stop the frauds and to correct the wrongs of November 3rd, 2020.

3. Mike Lindell did file the injunctive lawsuit in Arizona last week Thursday in case you missed it. It will be filed in Wisconsin as promised soon enough (we were no. 1 on the list, but they changed it to Arizona due to their State AG's no-action-behavior). Claire Woodall-Vogg's deposition went very well yesterday. Got a lot of good information, many exhibits into the court record. She lied several times, Gary Wait thought so also.

As we've been suspecting for upwards to 8 months now it is the applications. The applications were the gateway to committing the election fraud. They used fake, phony, unauthorized, illegal applications. To get people onto WisVote, to get voter ID's, to get absentee ballots, to get in-person ballots on election day.

1. Voter registration applications
2. Absentee ballot applications
3. Indefinitely confined applications
4. Along with absentee envelopes

185,000 of them, likely upwards to 250,000, in MKE and Dane Counties alone. In other counties across the state also. Nonprofits printed the applications (several different styles) and mailed directly to targeted households. Pre-printing in names and addresses to boot. Mailings to those targeted households as many as 10 times. \$\$\$\$ was spent. Trump won bigly.

If there is any way to preserve and obtain all the applications used/accepted in the Nov.3rd 2020 election that is what we need to do. Particularly in liberal enclaves. The applications are where your election fraud is my friends. Of course along with zuckerbucks, CTCL, some crooked clerks, Meagan Wolfe playing cover, human mules, whatever the voting machines' role was, drop boxes, padding WisVote (or using real people off of WisVote without their knowledge). Given the limited time and resources pretty much forget about the ballots, focus on the applications.

Claire twisted and turned several times during the deposition, for once being under sworn oath and not in front of a friendly liberal media person who lobs softball questions.

Above, in a nutshell, is how Biden cheated in Wisconsin. Most of this "system" is still in place heading into the midterms.

Claire Woodall-Vogg's deposition I took went well yesterday. Got a lot of good information on the record, many documents in the record also.

She lied several times, Gary Wait thought the same. As suspected it is the applications. The applications were the gateway to committing the election fraud. The fake, phony,

unauthorized, illegal applications were how they got people into the WisVote voter statewide database. And eventually how they got their hands on paper ballots.

1. Voter registration applications
2. Absentee ballot applications
3. Indefinitely confined applications
4. Along with absentee envelopes

250,000 of them in MKE and Dane counties alone. Also in other counties across the state. These applications/forms were illegal in one way or another. Thus the ballots cast from them are illegal.

Trump won bigly. If there is any way to preserve and obtain all the applications used/accepted in the Nov.3rd 2020 election....they are the true election fraud. Of course along with Zuckerbucks, CTCL, crooked clerks, Meagan Wolfe playing cover, human mules, whatever the voting machines' role was, drop boxes, padding WisVote (or using real people off of WisVote without their knowledge).

In a nutshell, the above is how Biden cheated in Wisconsin.

Please do not publish the above, as we have more evidence to collect. Feel free to tell people however verbally.

WEC denied my four civil complaints filed to, and also against, them. This was expected. The complaints were asking for all the errors and shenanigans occurring in our statewide voter list/database WisVote to be corrected. WEC is now attempting to intimidate me by fining me \$2,400, claiming the filings were frivolous. Frivolous such as people actually voting using the 9999 zip code, or missing an APT number, or registered to the year 1918 which is impossible, or the 2,033 voters who sent their ballots back in via email. Email is not legal for voters classified as "Regular", it can be for overseas and military if they go through a pre-process. The fine is a nice loud signal they want me (us) to go away. No worries, gave me a good chuckle. I'll be filing more complaints with them soon.

The law requires a complaint be filed first to WEC, even if it is WEC's doing the violations, even if it is one or more of the 6 Board of Commissioners who violated. Sidenote: one can file with the municipal clerk for a specific violation or illegal act pertaining to an election. It is right here:

Wis. Stat. 7.15(1) (g) In the manner prescribed by the commission [definition here is the local election commission, not WEC], report suspected election frauds, irregularities, or violations of which the clerk has knowledge to the district attorney for the county where the suspected activity occurs and to the commission. The commission shall annually report the information obtained under this paragraph to the legislature under s. [13.172\(2\)](#).

Whitehat attorneys are here, working with them, will be filing a suit against WEC pertaining to the above. But also other suits will be filed to "fix" other glaring problems. Such as the unconstitutional limitation of Wis. Stat. 6.48(a) where you can only challenge a voter in your own municipality. 5 miles over you can't do it, no matter if you have solid proof. Yet 7.15(1) is available to use.

Lots happening behind the scenes. We disclose information as soon as possible, however we have to take into account strategic timing. We will disclose there is a John Doe proceeding (on our side, targeting the bad guys), to bring criminal charges. This is permitted per Wis. Stats. 968.26. There are numerous criminal complaints filed. And God Bless him Attorney Kaardal has served all of the 5 mayors and 5 clerks of the zuckerberg cabal election bribery complaints. Lindell's lawsuit seeking an injunction against the ES&S and Dominion voting machines is going to be filed very soon. Much of it is based on the findings of the three Tina Peters' reports. The reports are stunning. Found here:

[Election Reports - Tina Peters for Colorado — Tina Peters for Colorado](#)

Also encourage you to read the 108 page report of True The Vote - much more information in it than what they said at the hearing.

Sure looks like several election frauds took place yesterday: Sheboygan county yesterday with much more coming out on what happened - but votes were taken away from a candidate who was wining; Claire in Milwaukee doing this over and over - accepting 3-4 ballots from one person and that person did not have to show a photo ID; funny business up in Green Bay (need more details); and....observer of ours sitting watching voting taking place. Normal/expected Wifi signals on the person's phone. Then when walking within 10 feet of the machines, a new signal popped up.

Telegram is good also but has a lot of sketchy ads that freelance investigative journalists use to pay for there air time. However, DJT uses it to publish his communiques. Also has lots of good channels to tune in on but you have to be picky.

Tune in on radio! WISN Milwaukee is absolutely excellent. Also Buck Trent & Clay Sexton (replaced Rush) and doing a great job!

Facebook is one form of the enemy. Use them carefully when you can. There \$\$ were used to steal 2020 right here in Wisconsin. DO NOT let them have your credit card or use them to buy advertising or send money!

Twitter still censor and throttle. Musk buying up Twitter stock may help but that might take a while.

One more thing!

It was not at all a difficult case to solve, the phantom voters of Door County that is. After all, the lunacy and lack of original thought or creative ... left much to be desired. It all started, early in the morning at Bettsey Ross, the coffee was hot, my porage just right, when a young blond, no more than 49 tapped me on the shoulder and asked me for a moment of her time. Asled of O jad a moment it a most sudective way.

-Update: the two flyers were changed to the jpg format as some could not open them-

At the election Central Count in Milwaukee this week photos were taken of vans from out of state. See attached photos, taken around noon time. This is while the April 5th voting was taking place (absentee). The vans were probably rental vans...by people from out of our state. When the drivers of the vans saw the photos being taken they fled. We made serious attempts to show the State GOP the election frauds (before these photos were taken), but they sloughed it off. Pass onto your GOP county chairperson and candidates running for office. Can't think of a single reason as to why they would need to rent large vans, and not just passenger cars.

Bonus round: two days ago a restaurant in Green Bay was rented out. FREE food and drinks for people to come in and register to vote. See the two attached flyers. The focus was on registering Democrats. \$30,000 spent! This was completely illegal. The young women heading it up: from Brooklyn New York. Yep, we-have-our-head-in-the-sand-GOP-leaders there is nothing to see here. The young woman said (paraphrasing) "I'll be here all of September and October".

Here is where the money came from:

Please get to your Representative, to your State Senator and to your GOP county chairperson. It is 2020 all over again.

This time the target for election fraud is Ron Johnson. The above shows how wrong Robin Vos has been, just dumb not to fix 2020 first.

Outlook dump after Aspen:

Door County Registered Phantom Voters October 2021

- 10 registrants have the zip code 99999
- 4 registrants have the famous Racine County phone number, the phone number which has 23,263 registered with it
- 13 registrants registered in the year 1906, as the voter age was 21 back then these people would be at least 136 years old
- 3 registrants are registered in the year 1916 making them 126 years old
- 595 duplicates in the Door County voter registration list, meaning 595 are entered twice
- 14,036 are shown being registered in the year 1918. WEC states this is a default but they are not being truthful. Just last year 20 new registrations used the year 1918
- 6,648 are shown as 4-year maintenance, meaning by law they were to be removed, yet are still on the list
- 4,159 are deceased, yet still on the rolls
- 3,807 are merged meaning Door County is admitting they know these voters moved, yet they are still on the list with the old address
- 740 undeliverable mailing: these were sent an official government mailing about being registered to the address and failed to respond. Yet they are still on the voter list

- 464 Administrative Action – Door County knows the registration information is wrong, yet still has these voters on the list
- 608 moved – Door County knows these people moved, yet still have them on the list
- 42 Incomplete EDR – once again Door County knows these people have an incomplete application, yet keeps them on the rolls

October 2021 there were 11 registrants at this physical address in Door County.

October 2021 there were 10 registrants at this physical address in Door County.

October 2021 there were 10 registered voters at this physical address in Door County.

- There are 17 registrants at a tent campground in Door County. There are thousands of Ghost Registrations in Door County
- Source for all numbers: Door County voter registration list, from this year

Risk Management questions that had to be asked and answered:

Did Door County's Clerk Jill Lau and/or any of Door County's municipal clerks know of any unauthorized person that private individuals had access to the WisVote voter registration database? WisVote is where all our voter registrations are stored used to verify people for upcoming elections. It is government only access where one needs a FIDO security key, a user name and password. Does Lau know these same private individuals had access to it on November 3, 2020?

We have found many Phantom Voters in Door County. Phantom Voters means people casting ballots using other people's information, i.e. illegal ballots.

We need more volunteers to help in Door County, if you can help please contact me.

Catherine Engelbrecht of True The Vote will be testifying in front of Assemblywoman Janel Brandtjen's Wisconsin election committee soon (not aware of a date/time yet, but this month I'm told). She will be detailing the information her organization has on the human mules which conducted illegal ballot harvesting in the Nov. 3rd, 2020 election here in Wisconsin. Gableman has the information but for some unknown reason he sat on it; failed to put it in his report.

If you missed it - St Croix County straw poll results:

Ramthum 45

Kleefisch 17

Nicholson 6

As soon as Nicholson stated on video he didn't believe there was any election fraud he was toast. His numbers plummeted to nothing.

New postings up on HOT Govt. Telegram channel tonight also, one is up now, a 2nd one soon.

Peter

For those who have been with us as a citizens' volunteer group taking real actions to find and prosecute past election frauds, and to stop future election frauds, we have never asked you for money for us ourselves. We have asked a few times for you to help out

team leaders looking for phantom voters, as the public records we need cost some money.

Other: there is a second witness informing us about Claire and the City of Milwaukee election fraud. It is bad, extreme corruption.

We're on it.

Ozaukee County Chair on why SB 946 has to be voted down next week. Great details in the attachment, once again please contact your State Senators to have them vote NO. Better, get your family and friends to contact them also.

Caught Claire Woodall-Vogg in perjury in her affidavit back to me in the lawsuit I have against her/City of Milwaukee to obtain public records. More on this later...

New Milwaukee team: list is coming very soon, IT person was out for a few days. Sry for the delay.

Big problem with Kitchens is he tells you what you want to hear...then goes votes like a RHINO and/or even a democrat.

Other: Jill Lau has now spent \$45,000 of tax payers monies to fight against giving us our own public records. Including stating we do not have a right to look at paper ballots of a public election. Unbelievable. She has drunk the kool aid, lost her way. They have this false "sisterhood" where they protect each other (I mean the clerks) no matter if they break the law. If they discard the rules.

Both of these people need to be replaced.

Peter

More new volunteers joining us, welcome. Periodic updates are sent by us (meaning the Original Five who began back the 2nd week of November) on finding election frauds of Nov. 3rd, 2020 and working to secure our future elections.

The Milwaukee Team is in place and will be on the project shortly. They will be looking for phantom voters, i.e. illegally cast ballots.

Something very significant with the voting machines has been found, stunning in fact. It will be coming out.

SB 946 still must be defeated. Long story as some of you know, but SB 946 permits central counts to open absentee ballots on Mondays before election days. And, permits the clerks to scan those into the tabulators. We know the following:

- Robin Vos was/is desperate to pass it.
- Vos let the Democrats write the language
- Vos kept the language in SB 214 hidden from ALL Republicans
- He got caught, language was stripped out
- Vos then snuck it into SB 946 at around 10:30pm last Thurs.
- that language never had the required hearing, but it passed the Assembly
- Most Republicans don't understand what the bill really means, what it will allow (opens door wide to election fraud)
- Tony Evers said he will sign it
- The State Senate is now going to vote on it either March, 7, 8 or 9th
- We learned Vos knows who won elections at about 8:20pm (polls close at municipalities at 8:00pm)
- We know at least one truck (a van) pulled up in Milwaukee in the wee hours of November 4th with ballots in it
- We know ever since the dropboxes were declared illegal by the Waukesha judge Vos has been frantic to get this bill passed
question is why?
- Call, email, send a letter today to your Senator: SB 946 never had a hearing in the Assembly, it is a horrible bill, opens the door wide to election fraud

Last: vote in person, tell all your friends, relatives, neighbors. Do not vote using absentee ballots. We know Trump absentee ballots were thrown in the garbage. We also know the bad guys are using vote counts (even just the total coming in up till election day) to see where and how many they need to "fill in" to win. Vote in person!

Appreciate you don't reply to this email, thank you.
Peter

SB 946 - last bill of the day, Vos inserted the SB 214 language. It passed the Assembly late last night around 10pm+. It will have a hearing in the Senate now either March 7, 8 or 9th. Sorry to say we are fighting Vos again right now. There was never a hearing on the language in the Assembly. He tried three times, he got it the third time. He amended it himself then took a vote. He screamed at his own caucus "it must pass, it must pass". 55 votes out of 99 Assembly voted for it, getting that list now.

Please: all focus on your State Senators, defeat SB 946. It contains the bad language taken from SB 214. It allows central counts to open absentee ballots the day before the election; and allows clerks to scan them!

New volunteers joined us and are on this group notice. To them: welcome, we send out occasional group emails on updates of what we are accomplishing, this is one. We ask you don't respond to it as too many emails come in each day already to handle. Thanks for your support!

📧📧📧 Press Release 📧📧📧

Hundreds of affidavits have been flowing into the New Hampshire Voter integrity Group. An app called "CHECK THE VOTE" created to confirm votes counted in the 2020 election in New Hampshire is lighting the internet on fire. Anyone can simply input a last name and town or a street and town, see who cast ballots at any address. Feedback has been incredible. One man wrote "a German-American that lived with us for a year - 10 years ago - voted in 2020..." while another wrote "A Swiss person who lived next door for a year - 17 years ago - voted in 2020." One voter found a couple who moved to Chicago a decade prior had absentee ballots cast from their home in New Hampshire in 2020 while an elderly couple who did not vote found 2 absentee ballots cast in their name. These are just a few of examples of what the people of New Hampshire are finding. Hundreds of affidavits have been flowing in and we've only just begun!

Anyone can "Check the Vote" for NH with the app. It is recommended to search by your address first to see if there are others listed from your home. The app is posted on: https://nhvoterintegrity.org/voter_search.html

We are getting this for our State, for you, for all citizens. Not sure how long it will take but the wheels are in progress. Putting the power in the peoples' hands.

We will prevail, The Original Five (yes, Peter is one of them for the new volunteers).

What a ride, after the language of SB 214 (bill letting central counts open and scan absentee ballots on Mondays before elections) was inserted into another bill, and that bill passed - because Robin Vos lied through his teeth to his own Republican members not to mention violated numerous parliamentary rules - the Republicans finally found their backbone. They took Vos into Caucus and they tore Vos a new one, they were furious at him for lying by omission, working with the Democrats in secret. The "amendment", which was really the SB 214 language, was defeated! They stripped that amendment. SB 214 did not pass. Late night stuff.

Grassroots - you guys and ladies are fabulous. The Assembly Reps. heard you loud and clear. It appears Vos just wants to close the legislative body down for the year, so he and others can campaign. He is up for re-election in the August primary. We can beat him. We say shut it down, RHINO Vos is hurting us not helping us. If not in session for the rest of the year he can't hurt us more than he already has.

The Wisconsin Election Commission Has a Faulty Database

The Wisconsin Election Commissions voter registration list is a complete mess.

Take a look at the home in the attached image, it is located in Dane County, Wisconsin. According to WEC 10 adults are registered to vote at this home.

This is not just one cherry picked example. It is not one hundred, or even a thousand. It is in the hundreds of thousands!

WEC's voter registration list has 7 million adults on it but Wisconsin only has about 4.7 million Adults living in the state. Their list has more than 615,000 dead people on it. This alone we believe is disrespectful to the deceased.

WEC's voter registration list has 543,000 people statewide registered in the year 1918. They admitted this is a default.

If WEC does not know what year a person registered, those people must be required to re-register. A voter registration list is a futuristic list with the purpose of having active, Live, real people who still live in the state on it. If WEC needs or wants to have a historical record the sound thing to do is keep a completely different list, on a completely different Computer server. Any computer database person with an ounce of knowledge would know.

it would be the way to properly handle people who don't belong on the Active list.

Better still, let the Wisconsin Historical Society keep the historical records. We demand WEC and the municipal clerks clean up the voter registration lists, and keep them accurate.

If any of our numbers are incorrect?

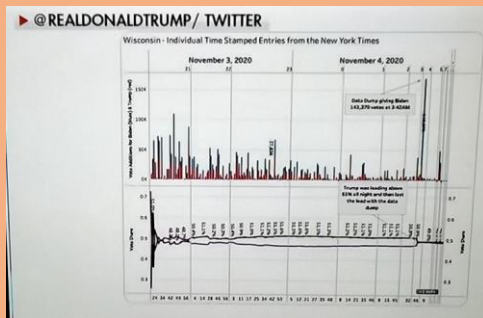

WEC: prove us wrong.

Signed, Volunteer No. 1776

How did they pull it off in "Real-time"?

The Biden/Harris campaign hacked into the Dominion voting machines nationwide, in order to monitor voting trends throughout the day systematically, using a preprogrammed algorithm to transfer Trump votes over to Biden and then after the polls were closed, in the early a.m. do a "Vote-dump" to pull Biden/Harris ahead before the final count.

Note: In Wisconsin, at 3:42 a.m., they dumped over 143,000 votes all for Biden/Harris, which turned a landslide race for Trump, into a win for Biden/Harris.

They did the same thing in Michigan at 6:31 a.m., dumping 96% or 134,886 votes in for Biden out of 149,772 that had been cast. Therefore, at 6:31 a.m. Michigan time, the race went from a landslide win for Trump into a socialist styled victory for Biden/Harris.

I'm hereby deploying my fellow CFI (Certified Fraud Investigators), along with our US Credit Union' Supervisory/Audit Committee members and all Federal and State Financial Institution

Examiners on a mission to conduct a "Fraud Audit" at all voting locations that used the Dominion voting machines.

This update may interest you. If so contact Peter.

- 1. Mike Lindell is filing a lawsuit in the state of Wisconsin seeking to bar the use of voting machines. Based on equal protection, due process and other claims. Our findings/work played a part in this. He is looking for a person, people, to be the named Plaintiff(s). You would not have to do anything. Would not cost you anything. Looking for people right now. At a later date, I'll arrange a meeting with you and Mr. Lindell the next time he is here. Pls call me soon if you would agree to be a Plaintiff.**
- 2. Strongly suggest you read all about Tina Peters out in Mesa County, Colorado. What a lady! The corrupt Sec. of State had the voting machines "updated", in what was termed a "Trusted Build" - but it was a nefarious act where it wiped everything out of the Nov. 3rd, 2020 election. Not just deleting the data, but going so far as to removing the database completely and installing a new one in its place. But Ms. Peters - God Bless her - made backup copies before the wipe was carried out by Dominion and the corrupt Sec. of State.**
- 3. The following city mayors and city clerks have been served criminal complaints for committing election bribery under Wis. Stats. 12.11: Madison, Racine, Green Bay, Kenosha. Then Milwaukee will be served this week. This is by Attorney Ericck Kardaal of the Thomas Moore Society - who has used our information many times.**
- 4. Many filings going back and forth in my lawsuit against Claire Woodall-Vogg of the City of Milwaukee for public records.**
- 5. Reminder: this Thursday at 10am on Wisconsin Live Eye True The Vote will be presenting their evidence of election fraud. Specifically, their cell phone ping data findings of human mules carrying illegal ballots to dropboxes in the state of Wisconsin during the Nov. 3rd, 2020 election.**
- 6. Truthfinder - a great site to use in our searches of voters, people, addresses. You go to Truthfinder, then get to their People Search page. It is a free site.**

The amount you're asking for is completely unacceptable. The records are in alphabetical order for one, some can be easily searched via online. Then I'll have a person pickup the records in person to eliminate the mailing fee. The hourly fee is much too high also, there are lower paid people there who could do the search. Other places have been 1/2 or even less the price you're asking.

Risk Management – Writing Reports - #101

Principle #1: Keep all Risk Management reports simple, written in laymen language, short as possible and to the point. It's called the "KISS" principle:

1. In a short paragraph, state the problem or Risk Management concern.
2. In a few short paragraphs, state "why" it's a problem or why, if not properly controlled there's a high probability there'll be a loss. .
3. Finally, in a few short paragraphs, make specific Risk Management recommendations to control i.e. reduce any losses that may occur.

Raw Risk Management input:

This is very upsetting.

Door County has 14,036 people registered to vote in the year 1918 right now on their poll books.

See attached image. Worse, the Wis. Election Commission's excuse is that it is a "default". Well, first off they just admitted they don't know when 14,036 people registered in Door County.

They also say they are "keeping a historical record". Let the Wisconsin Historical Society keep it.

- A voter registration list should ONLY contain Active voters who may vote in future elections.
 - There are thousands of dead people on it.
 - There are almost as many Inactive voters as there are Active voters.
 - More than 38,000 adults are on it. No one maintains a voter registration database like this, it is abhorrent, just plain wrong.
 - Action: it is WEC but especially the municipal clerks who maintain this list. Given the huge numbers however County Clerk Jill Lau should be clearly informed also.
 - Wis. Stats. 6.48(1) provides an easy and quick way for us citizens to fix this: it is to challenge every single one above. In brief a person living in the same municipality sends in an email, fax or letter challenging all these voters.
 - The voters have one week to come and state they should not be removed (and what really happens is they are just moved to "Inactive" status, a whole other issue).
 - The Clerks then are required by law to remove the voters from the lists (unless one has a very good reason not to).
 - Any of these people can easily re-register, with the correct information, online or in person for free. Help clean up our rolls!
-
- ✓ The questions mount: why don't they know when 14,036 registered?
 - ✓ If it was back when, then why didn't they get these people re-registered?
 - ✓ Why keep the deceased on the live voter registration list used in each of our elections?
 - ✓ Put them on another list, on a completely different server separate from the "live" one used for elections.
 - ✓ Why are "moved", "merged" and "inactive" kept on the list?
-
- We are doing all 72 counties. Will show any of you on Zoom the Election Data Analyzer we used to run these numbers. All data input was from WEC.

Peter

Phantom Voter Tool Kit:

You want to do the Melissa error code step and also the whitepages.com step by municipality. Reason: once a particular municipality is finished a public records request can go out to that Clerk. Then do the next municipality and on and on.

Hopefully you can get 5-8 volunteers to pitch in and it goes quick.

1. Melissa run (John is doing); then error code search step
2. Whitepages.com searches
3. Send that final list with public records request to the municipal clerk(s)
4. compare the records received to the original excel list

Door County - the absentee envelopes are at the County level. But some absentee applications (walkins) and the voter registration applications are at the municipal level.

Peter

Town of Egg Harbor

Door County Voter Registration List Disaster

- 10 registrants have the zip code 99999
- 4 registrants have the famous Racine County phone number, the phone number which has 23,263 registered with it
- 13 registrants registered in the year 1906, as the voter age was 21 back then these people would be at least 136 years old
- 3 registrants are registered in the year 1916 making them 126 years old
- 595 duplicates in the Door County voter registration list, meaning 595 are entered twice
- 14,036 are shown being registered in the year 1918. WEC states this is a default but they are not being truthful. Just last year 20 new registrations used the year 1918
- 6,648 are shown as 4-year maintenance, meaning by law they were to be removed, yet are still on the list
- 4,159 are deceased, yet still on the rolls
- 3,807 are merged meaning Door County is admitting they know these voters moved, yet they are still on the list with the old address
- 740 undeliverable mailing: these were sent an official government mailing about being registered to the address and failed to respond. Yet they are still on the voter list

- 464 Administrative Action – Door County knows the registration information is wrong, yet still has these voters on the list
- 608 moved – Door County knows these people moved, yet still have them on the list
- 42 Incomplete EDR – once again Door County knows these people have an incomplete application, yet keeps them on the rolls

Right now!

There are 11 registered to vote at this address in Door County.

Right now!

There are 10 registered at this vacant lot in Door County.

Right now:

There are 10 registered voters at this single family residence in Door County.

In addition:

- There are 17 registered to vote at a tent campground in Door County along with thousands of “Ghost Voters” registered to vote in Door County.
- **FYI:** All numbers and registration data was taken from the current voter registration this year.

Questions that must be answered include:

1. Did Door County Clerk, Jill Lau and/or any or all of the municipal clerks know “**private individuals**” had access to the WisVote voter registration database? “Private individuals” include those not dually elected or authorized to act.
2. Did Jill Lau know if any “private individuals” had access the WisVote voter registration data base before, during or after the November 3, 2020 election?

FYI: WisVote is where all voter registrations are stored and used to verify voters in an upcoming election. WisVote is meant for authorized government access only and needs a FIDO security key, a user name and password to gain access. Therefore the questions that must be asked and answered are as follows:

We now know, and have proven that “Phantom” and “Ghost” voters voted in-person and by absentee ballots in Door County during the November 3rd presidential campaign and election.

We also know and have proven, not requested, absentee ballots having questionable return addresses were returned to unsecured, unprotected, not monitored deposit boxes, featuring little or no access controls nor established “dual access/custody” controls.

Consequently, without a face-to-face opportunity to question county clerks, there is no affective or reliable way to assure the voters in Door County that the “Chain of Custody”

over their ballots was properly controlled, from the time their votes were cast until all their votes were counted.

Therefore, beyond any reasonable doubt, It is in the best interest, not only for the voting residents of Door County, but for all past, current and future elected officials that all questions are asked and all questions are answered, before we proceed to the next election. Anything short of an in depth and thorough forensic audit, will forever cast a shadow of doubt over future elections and sadly over all our honest and law abiding elected officials. It's in that spirit, we ask the opportunity to go forward with the forensic audit.

Respectfully submitted:

We the people – We the voting residence of Door County.

Update: March 22, 2022 Town of Egg Harbor Board of Directors lawyered up, refusing to address our open-records request without having their attorney present, or reconsider the charge, we'd have to pre-pay, for them to honor our request.

March 25, 2022

I would like to thank all of you for taking the time to read through my newsletter. Each week, I'll include information to keep you up to date with what is happening in Madison and the 1st Assembly District.

Elections Press Conference

I recently joined Jill Lau, the Door County clerk, and several other municipal clerks from the county to hold a press conference on local election integrity.

The purpose of the event was to explain the election process for municipal clerks and to reassure the residents of the 1st Assembly District that they can be confident in their local election results.

While it is apparent that several election laws were broken in other parts of the state during the 2020 presidential election, there is no evidence that any of that happened in our district. I have complete faith that our local clerks will administer the April election in a safe and secure manner, as they always have.

Be that as it may, the nonpartisan Legislative Audit Bureau believes the state Legislature should [make several changes](#) to our current laws to ensure that our elections are being conducted properly and without controversy.

To me, most of the bureau's recommendations should receive bipartisan support, and the clerks at the press conference concurred with that notion. I was particularly pleased that none of our local clerks accepted outside money to help run their

elections because of the conditions attached. I think we should all agree that we need to keep partisanship out of the operation of our elections.

According to a recent CBS News poll, nearly 61 percent of Americans believe that political leaders should be looking at reforming our electoral process. Unfortunately, in our current political climate, it is difficult to have these conversations without partisan accusations being thrown in both directions.

However, please know that we will not waver in our efforts to protect the integrity of our elections. I promise you that I will continue to do whatever I can to make it easy to vote but difficult to cheat.

If you would like to read some media coverage of the press conference, please click [here](#) and [here](#).

Farm Short Course

During this week's joint hearing in front of the Assembly Agriculture Committee and Senate Agriculture and Tourism Committee, we learned more about the Farm and Industry Short Course at the University of Wisconsin-Madison.

Created in 1886, the Farm and Industry Short Course is a 16-week educational program that is designed to prepare students for employment in the agriculture industry.

Many friends and neighbors in our area have completed the program and have moved on to have productive careers. It has been a wonderful alternative to pursuing a traditional four-year college degree. During my time as a large animal veterinarian,

many of the most progressive and successful farmers with whom I worked had attended the short course.

However, the program will [undergo numerous changes](#) beginning in 2023. Chief among them is the switch from a for-credit, on-campus residential experience to a more flexible, non-credit format.

Starting next year, course offerings will include both in-person and virtual options, as well as synchronous and asynchronous delivery of content. Some programs will be available at night, on weekends and during the growing season.

Because the course has had such a positive impact in our area, I encourage you to contact the university to voice your thoughts on the changes. You can reach the College of Agricultural and Life Sciences by [clicking here](#) or by calling (608) 262-1251.

WDOR Interview

Due to a change in schedules, my monthly appearance on WDOR will now take place on Tuesday.

Starting at 10:20 a.m., please tune in to 93.9 FM or 910 AM to hear me discuss the 2021-22 legislative session, which concluded earlier this month. I also plan to talk about some of my bills that were recently passed by the Legislature.

If you do not have access to a radio at that time, you can still listen to the show on WDOR's website by [clicking here](#).

As is the case with all my WDOR segments, I will also be taking calls from listeners who would like to ask questions or share their thoughts with me. This is a great opportunity for constituents to give me direct feedback on the actions of state government.

I always appreciate hearing from you.

In Closing...

Thank you for taking the time to read my e-update. If you have any questions, do not hesitate to [contact my office](#). My staff member, Adam, looks forward to working with you. Also, if you would like a 2021-22 Wisconsin Blue Book or 2019-20 state highway map free of charge, just send us an email!

Have a great weekend

Re: Public Records Request to Town of Egg Harbor

Dear Mr. Bernegger:

Our law firm represents the Town of Egg Harbor. I have reviewed your public record request dated December 17, 2021 together with your follow-up communications with Town Clerk Pam Kramel.

The most recent request made to the Town of Egg Harbor will require the Town Clerk to engage in some searching for records. The cost of locating the records responsive to your record request is estimated at \$660.00. That search fee is based upon an estimated 15 minutes per record for 82 records at the hourly rate of the Town Clerk of \$33.00 per hour. Copying costs are estimated to be \$30.75 and mailing costs are estimated at \$6.50.

The entire sum of \$697.25 will need to be prepaid prior to the record request being assembled. Note that you are not being charged for any reduction time in compliance with Wisconsin Law.

Please make your payment to the Town of Egg Harbor at the Town Office, 5242 County L, Saugeen Bay, WI 54235. Upon receipt of payment the records will be searched out and assembled for delivery.

Very truly yours,

LAW FIRM OF CONWAY, OLEJNICZAK & JERRY, S.C.

Posted March 2, 2022 to put a close on Operational Period #1:
 Risk Management Learning Center (RMLC) - A shift in mission' focus.

Make no mistake, the voter-fraud uncovered during the 2020 presidential campaign is only "the tip of the iceberg." It's been going on long before Obama drifted up on shore in Hawaii and fell in with Chicago's community organizer, Saul David Alinsky.

While we're putting a wrap on "Operational Period #1," that launched a "Sting" operation, to identify and measure the depth and scope voter'/voting fraud in Wisconsin the audits will continue, until bi-partisan controls are in place to stop the "laundering" and "harvesting" of votes during the campaign, as well as the stealing of ballots before they can be counted.

As part of wrapping-up our involvement in the "forensic-voter-fraud" audits, we will be publishing a series of Risk Management recommendations that will help both detect and deter future voter fraud in Wisconsin and across the country, as well as around the world.

As always, our Risk Management Analyses (RMA's) and recommended Risk Management Control's (RMC's) will compliment those we've been making throughout the world credit union movement, now over the past 50 plus years.

Please remember! Whether in the US, Ukraine, Poland, England, Australia, the Caribbean, South Korea or anywhere else around the world, we are all one people with the desire to be free.

Through these audits we were not and never have been dealing with the democrats who lead us through WWII and out of the Great Depression, nor the republicans, who fought to end slavery.

Admit it or not, we are solely at odds with that part of "our" human nature that drives us all to want to belong. Those of us, myself included, who find themselves voting only out of hate or only along party lines just to belong, owe it to our country and ourselves to go back to the basics we've been teaching for the past five decades in "Risk Management #101".

Another Risk Management lesson to remember: Remember when Vice President Biden bragged about withholding aid to Ukraine, until they fired the prosecutor ready to convict his son Hunter, for being on the board of directors of a company connected to a Russian arms dealer? The National Pulse has revealed a Chinese 'Spy Recruitment' Scholar is now running Joe Biden's NSA Personnel Department. Special Assistant to Joe Biden on National Security Agency personnel – formerly served as a visiting scholar at a Chinese Communist Party think-tank labeled as a "front group for Chinese intelligence collection and overseas spy recruitment" by the FBI. The National Pulse has also revealed that Joe Biden's intelligence apparatus relies on the recruitment from a recent collaborator with the Chinese Communist Party – comes just weeks after the G7 summit where Western nations pledged tougher measures against an increasingly aggressive Beijing. <https://thenationalpulse.com/news/a-chinese-spy-recruitment-scholar-is-now-running-joe-bidens-nsa-personnel-department/> God forgive those who voted for Biden, the rest of the free world will never. Get out and vote them out of office!

During operational period #1, we'll listen to the wisdom of our founding fathers, send a message to congress and lay the foundation for a public-to-private partnership, using the US credit union movement as our grassroots, people helping people, Not-for-profit, Not-for-charity, But-for service business role-model.

Risk Management Learning Center (RMLC) - A shift in mission' focus.

Make no mistake, the voter-fraud uncovered during the 2020 presidential campaign is only "the tip of the iceberg." It's been going on long before Obama drifted up on shore in Hawaii and fell in with Chicago's community organizer, Saul David Alinsky.

While we're putting a wrap on "Operational Period #1," that launched a "Sting" operation, to identify and measure the depth and scope of the voter'/voting fraud in Wisconsin, rest assured, the audits will continue, until bi-partisan controls are in place to stop the "laundering" and "harvesting" of votes during future campaigns, as well as the stealing of ballots before they can be properly counted and the election can be confidently certified.

As part of wrapping-up our involvement in the "forensic-voter-fraud" audits, we will be publishing a series of Risk Management recommendations that will help both detect and deter future voter fraud in Wisconsin and across the country, as well as around the world.

As always, our Risk Management Analyses (RMA's) and recommended Risk Management Control's (RMC's) will compliment those we've been making throughout the world credit union movement, now for over the past 50 plus years.

Please remember! Whether in the US, Ukraine, Poland, England, Australia, the Caribbean, South Korea, etc., or anywhere else around the world, we are all one people with a committed desire to hold free, honest and trustworthy elections.

Throughout these audits we were not and never have been dealing with the democrats who lead us through WWII and out of the Great Depression, nor the republicans, who fought to end slavery.

Throughout these audits we've been struggling with those who voted more out hate than love of country, more out wanting to belong than choosing to be free and independent.

Admit it or not, we are solely at odds with that part of "our" human nature that drives us all to want to belong. Those of us, myself included, who find themselves voting only out of hate for the opposition or only along party lines just to belong, owe it to our country and ourselves to go back to the basics we've been teaching for the past five decades in "Risk Management #101".

We'll soon be launching the second "Operational Period" in which we'll drive down the voter-fraud audit reports to the local level. But for now, click on the following link to access the first of what'll be a series of audit reports from around the country.

A Message from our Founding Fathers

"They're experience has been our greatest teacher."

Ronald Reagan said, *"Government exists to protect us from each other. Where government has gone beyond its limits is in deciding to protect us from ourselves."* He also warned, *"Freedom is never more than one generation away from extinctions."*

If our founding fathers could talk, there's little doubt they'd consider Obamacare a government overreach and a symptom of a more serious national crises than a simple gas pain or hick-up, punctuating a moment in our history. They'd consider Obamacare more than a wrong turn toward Socialism, or just another government run disaster. They'd consider it a setback for our democracy, a flaw in our nation's character, and a threat to our freedom and independence for generations to come.

If they could talk, they'd alert us to a fork in the road we're going to have to take, recommending we either bend right and repeal the law, take control over our healthcare, reengineer our health insurance, and free ourselves from the clutches of government rule. Or, be forced deeper and deeper in debt and increasing more subservient to a larger and more intrusive federal government.

They'd remind us that we came to America in search of religious freedom, the right to chart our own destiny, not to mention freedom from taxation without trustworthy representation.

They'd be more than disappointed to learn we're now forcing Christians to fund abortions, we're no longer allowed to buy or sell the health insurance we prefer, and we're sending elected officials to Washington, who are willing to pass legislation they haven't read. Then, once passed and reelected, impose the largest tax increase in US history.

They'd remind us our search for quality healthcare and "cost effective/affordable" health insurance started long before the first pilgrim shot himself in the foot, first blacksmith burned his hand on a forge, or first cook poisoned settlers at Plymouth Rock. They'd remind us our search started well before the American Revolution, during the time when the British government controlled our healthcare, doled out what care they chose to provide, imposed taxes we couldn't afford to pay, and to add insult to injury (pun intended), invaded our privacy, dominated our lives, violated our trust, and inflicted fines, penalties, and punishment on anyone who dared to resist, or refused to be lured by the false promises of socialism. Lured back to a life of mediocrity, government handouts, and service to the King.

Our founding fathers would caution us that socialism sneaks up on all societies willing to live off government welfare, subsidies, bailouts, and bribes. They'd warn us that history does repeat itself. They'd tell us, if we have any doubts, we need only consider the dire state of our union, our weakening national economy, and the pain, let alone the shame, Obamacare has brought to the shores of America.

They'd tell us to look back, learn from our mistakes, and remember the price we've paid for our freedom and independence. While they'd encourage us to get along, they'd caution us not to bury our heads in the sand just to keep the peace. We'd be asked to pray harder, forgive more often, and always trust in our God!

General Washington would once again remind us, "It's impossible to rightly govern a nation without God and the Bible close at hand." He'd call us to arms and caution us not to shoot-to-kill those with whom we disagree, for once the reality of Obamacare hits home, we'll be once again fighting for our freedom and independence. He'd remind us to adhere to the values on which our country has been built, to always seek and hold the highest moral and ethical ground, keep our eyes wide open, ears to the ground, and never again allow ourselves to be deceived by political rhetoric or the false promises of socialism.

Veterans from our past would tell us to always be brave in battle, for battles are not won by those who abandon their comrades, lie to save face, lay down our arms to keep the peace, or retreat from battles before they're won.

If our founding fathers could talk, they'd boast, not apologize for being fearfully independent, brave in battle and willing to fight and die to preserve our constitution while defending our right to life, liberty, and the pursuit of happiness.

Obamacare is, without a doubt, a symptom of a more serious national crisis. We fought the American revolution to free ourselves from the British monarchy, and two world wars to free ourselves from Nazis aggression, Communists domination, the overreach of Fascists, and the advocates of Socialism, Stalinism, Leninism, and Marxism.

While it takes only the common sense passed down through generations to recognize the false promises of socialized medicine, it takes American' knowhow, ingenuity, and independence to deliver cost effective healthcare and affordable health insurance for every US citizen from the moment they're conceived until their natural death.

It's time we step up to the plate, reclaim our freedom, and return our country to quality home-rule healthcare and affordable health insurance.

A message for Congress

“We’re facing a challenge you can’t ignore”

Don’t be discouraged. The search for affordable healthcare has always been and will always be the goal of every congress and a pipe dream of every elected official. Unfortunately, the farther we venture from home and the more we relinquish our right to rule over our lives, the more expensive healthcare and insurance becomes until, as Margaret Thatcher said, we run out of other people’s money.

While skyrocketing premiums, increasing co-pays and escalating deductibles are stressing family budgets, ill-conceived executive orders, taxpayer subsidies, and corporate bailouts are only prolonging our agony, slowing our recovery, and driving us deeper and deeper in debt. As long as congress, both sides of the isle, refuse to get along, we’re never going to find a cure for Obamacare. While it took only democrats to pass the Obamacare law, it’ll take both sides of the isle to fix their mistake.

Government run healthcare has always been a huge mistake, Obamacare has proven to be a huge academic mistake. If you’re looking for an omen of where Obamacare has taken our country, you need only consider where our failed veteran’s administration has taken the care given veterans over the past thirty years. While my personal experience with Wisconsin’s VA hospitals has been acceptable, I’ve also learned how difficult it is to get the quality care you might need in a timely fashion. Unfortunately, those who’ve turned a blind eye to the ills of Obamacare are the same elected officials who’ve turned a deaf ear to our veterans across the country.

From a risk management standpoint, our VA system has a distinct advantage. Veterans are a homogenous group, all exposed to common perils, representing predictable loss experience both in frequency and severity. With Obamacare, we’re pooling all health risks into a limited number of pools, thereby blurring the concentration of risks to a point that makes it impossible to cost effectively identify, measure or control any of the risks pooled with any degree of actuarial certainty. Consequently, we’re destined to be pouring good money after bad for generations to come.

I titled my cure for Obamacare “Home-Rule Healthcare and Insurance (HRHC-I),” because it preserves the “Home-rule” principle on which our country has been built, returns our US healthcare system and health insurance industry to the private sector, and adopts the same “Unified” Incident Command System (ICS) we’ve used in both public and private sectors to recover from pandemics, terrorist attacks, and both man-made and natural disasters.

The Home-rule Healthcare and Insurance (HRHC-I) I propose honors Maslow’s Hierarchy of Needs, while promoting the same grassroots, “people helping people,” philosophy the US credit union movement used to pull our country out of the Great Depression and through two world wars.

Home-rule healthcare and insurance drives down the cost of care because underwriters focus on the more frequent and most severe health risks occurring within one quadrant of the country at a time. That focus leads to a quicker and more cost effective respond to life threatening events, further reducing claims, eliminating scope creep, and lowering losses. Thanks the internet, claim, marketing, and administration expenses will be more manageable as they’re shared through a network of doctors, hospitals, and licensed insurance agents across the country and around the world.

Marketing through the credit union network, as well as through other financial institutions makes identifying, measuring and controlling health risks more accurate and easy, while mass marketing through state regulated financials drives down the cost of marketing, while providing insureds with pay role deduction options, as well as creative ways to finance premiums when needed.

A word of caution! The problems inherent to socialized medicine can only be solved if we get the federal government out of the way, and turn our health insurance industry back to the private sector. If you think we have problems now, just wait until it's time to renew contracts, adjust claims, audit for fraud, or enforce co-pays and deductibles.

HRHC-I provides cost effective healthcare and affordable health insurance for every US citizen from conception until after death. From conception, because premiums are retro-billed to the off-spring's father, going back to the moment of conception. And, after death, because by using endorsements similar to loan protection/life savings insurance, equity lost through reverse mortgages can be returned to the insured's estate.

Our country was built on our faith in God and the trust we place in our elected officials.

Unfortunately, there's a growing denial of God in our government, and a significant loss of trust in those who've been willing to vote for bills they haven't read nor taken the time to understand.

Consequently, unintended risks have been created that if not properly managed will eventually bankrupt our economy and corrupt our already vulnerable culture.

None of us have all the right answers, nor are we immune from making mistakes or being misguided by false hope and promises. We're all human and we all make mistakes. Maybe that's why we've all been traumatized to some degree. Maybe that's why we all feel guilty for allowing Obamacare to go as far as it has. Maybe that's why we all fear we'll never again get the quality care we've had in the past from trusted family doctors. We're all reeling from the reality that our government is fast growing out of control. It's time we stop the train wreck, rescue our healthcare system, and rebuild our private sector health insurance industry.

In closing, I leave you with a few reminders. It was Ronald Reagan who said our *freedom is never more than one generation away from extinction.* He also said, "The difference between democrats and republicans is, when we're buried in a tunnel of debt, republicans dig toward daylight, while democrats dig longer tunnels. Obamacare has dug us far too deep in debt. It's can't be sustained without endless government bailouts, and adding trillions to our national debt. If we're going to avoid an on-going fiscal crisis, healthcare in our republic must be returned to the private sector.

Take no offence, but most moves toward government run healthcare i.e. "socialized medicine" usually turns out to be a move toward socialism. Most of us are old enough to remember, we were moving toward socialism leading up to WWII. We just haven't learned.

To jog your memory, Norman Mattoon Thomas (1884-1968) was a leading American socialist, pacifist, and six-time presidential candidate for the Socialist Party of America. In 1944 he said, *"The American people will never knowingly adopt Socialism. But, under the name of "Liberalism," they will adopt every fragment of the socialist program; Until one day America will be a Socialist nation, without knowing how it happened."* He went on to say: *"I no longer need to run as a Presidential Candidate for the Socialist Party. The Democrat Party has adopted our platform."*

Unfortunately, there's an affinity between President Barack Obama and Chicago's community organizer Saul David Alinsky. Google, "the Obama Alinsky affinity" and judge for yourselves.

It's because of the Obama/Alinsky affinity that I urge both sides of the isle to periodically benchmark their efforts to lock down cost effective and affordable healthcare and insurance. If you haven't already read Alinsky's book, I suggest you do, then benchmark where we've been taken during Barrack's tenure in the White House.

Rules for Radicals: By Saul David Alinsky

- 1) Healthcare – Control healthcare and you control the people.
- 2) Poverty – Increase the Poverty level as high as possible, poor people are easier to control and will not fight back if you are providing everything for them to live.

- 3) Debt – Increase the debt to an unsustainable level. That way you are able to increase taxes, and this will produce more poverty.
 - 4) Gun Control – Remove the ability to defend themselves from the Government. That way you are able to create a police state.
 - 5) Welfare – Take control of every aspect of their lives (Food, Housing, and Income)
 - 6) Education – Take control of what people read and listen to – take control of what children learn in school.
 - 7) Religion – Remove the belief in the God from the Government and schools
 - 8) Class Warfare – Divide the people into the wealthy and the poor. This will cause more discontent and it will be easier to take (Tax) the wealthy with the support of the poor.
- Thomas Jefferson said, “My reading of history convinces me that most bad government results from too much government.”** It’s time to downsize our federal government and return our healthcare system and health insurance industry to the free market private sector.

A message for the world credit union movement

“We’re all in this together!”

“Obamacare,” for Risk Managers reading this outside the U.S., is the latest attempt in the U.S. to impose government run healthcare on U.S. citizens. Once again, it’s degrading our healthcare system, violating our constitution, and demoralizing many of our man, women, and children born in the USA. The WWII quip claiming Socialism emasculated the men, intimidated the women, and turned the young and naïve into apathetic goose-stepping androids has come to roost in some of our poorer segments of our society.

Every US President since the Great Depression has tried and failed to merge our free market healthcare and health insurance industries into government run healthcare. This time it took our Supreme Court to rule Obamacare the largest tax in U.S. history, for it to become a law. Obamacare is destined to fail, because it ignores virtually every Risk Management (RM) principle and practice. It fails to identify, let alone manage the enormous fraud and dishonesty risks it created. Thousands of underwriters, actuaries, and marketing professionals have been laid off while thousands of IRS agents have been hired to enforce the law. Obamacare, in no small way is leading to the destruction of our U.S. healthcare system and the implosion of our U.S. health insurance industry.

FYI, Obamacare was quickly passed without being read, turning 1/6th of the U.S. economy over to the whims of the Obama administration. It was dubbed a “train wreck” from the beginning, and it’s now touted on bumper sticker in the U.S. as, *“One Big Ass Mistake for America!”* Sooner than later, God willing, it will be repealed.

There’s little doubt terrorists from around the world are phishing and pharming on unprotected government’ websites and the unprotected servers used by far too many in a position of trust. We now know, hacker have been busy redirecting web traffic to sites they can control, and phishing social media sites in an effort to obtain unprotected user names, passwords, social security numbers, and a host of other personal and confidential information. There is no doubt, international terrorists are now well positioned to extort, bribe, and coheres disgruntled Americans holding sensitive positions within our government, or trusted jobs deep within our private sector.

Please keep praying for the men, women and children in Ukraine, who are fighting and are willing to die rather than give up their freedom and independence. We're working to mobilize the Ukraine and Poland's credit union movements, both have a strong and well organized credit union movement linked to credit union movements around the world through the World Council of Credit Unions.

Credit unions across the US and around the world have proven time and again, they're positioned better than any other grass roots organization, anywhere in the world, any time in history to rebuild lives destroyed by the socialists embedded in our government and the communists now invading Ukraine.

The Sting!

Theater of Operation: Door County Wisconsin

1. So you all know we don't just file civil/criminal complaints willy nilly, as they say. We always contact the people ahead of time before we (meaning I in this context because my name is on them) file a lawsuit, or a civil complaint, or a criminal complaint. Communicate is made either directly or through a third party, and more than once. We attempt to work things out, ask for changes or whatever the issue calls for to make sure we have honest elections. So the "targets" always have a chance to talk to us, to make a change. Yet most of the time they don't and thus the action is commenced. The point is we're not filing actions on a whim.

2. A new project which has been in the planning stages is to get rid of ERIC. They are a voter registration scam and nothing more. As Robin Vos embed them in our statutes back in 2015, here it is right here:

Wis Stats 6.36(1)(ae)1. The chief election officer shall enter into a membership agreement with Electronic Registration Information Center, Inc., for the purpose of maintaining the official registration list under this subdivision, the chief election officer shall ensure that the agreement satisfies all of the following conditions:

The only way is to file a lawsuit. Thus, as we're planning the strategy, we are also contacting funding sources to pay the legal fees, while looking for a litigator. If you didn't know, Meagan Wolfe is also the national chair or president of ERIC. Given this position shortly after Biden "won" Wisconsin.

3. Please finish up on the Doublevoters list, for those of you who accepted one to work on.

4. NEED: volunteers for establishing a new team to computer canvass Milwaukee. Announcing our new team leader for that county: a great fellow named Bart. We'll be

implementing the phantom voter toolkit method in the City of Milwaukee. Please contact me if you can join Bart's team. We'll do a zoom training then kickoff things in that jurisdiction. You don't have to live there, no door knocking.

Peter

Got it! Thanks. I'm setting up a file which will include all your/our "phantom voter" work done in Door County with a focus on the Village and Town of Egg Harbor as well as municipalities north of the 45th parallel and those south. The 45th parallel runs across the county just south of Egg Harbor.

FYI: There are three "nests" of phantom voters, one operates Sister Bay and north, including Liberty Grove and Washington Island, the second operates between Ephraim and just north of Sturgeon Bay taking in Gibraltar and Sevastopol school districts and the third operates South of County "T" taking in the Sturgeon Bay and Southern Door school districts.

We named them back in 2008, based on their well organized efforts to cut-up, tear-down and steal our yard signs and 4X8's. They were and still are the "Stage Road Bandits," The "Coral Road box cutters" and the "Sturgeon Bay Ladies of Lost Hope".

We'll be launching the second phase of our "Sting" Operation on my 77th birthday April 21s.

This is all just FYI. Read this email and delete it. If you print a hard copy, keep it between the box spring and your mattress.

We begged and pleaded with the Trump hating democrats not to vote Biden into the Oval Office, where he's now destroyed our economy, taken us from being energy independent, an exporter of oil, to being at the mercy of our enemies flooding across our open borders into their sanctuary cities where homegrown terrorists are armed and ready to attack.

Those who voted for Biden have succeeded in laying our country wide open to the next terrorist attack, while Russia, China, North Korea and Iran arm themselves with the \$85 billion in our weapons Biden turned over to them in Afghanistan.

God forgive those who voted Biden into office. The rest of the free world will never. The blood going forward is on your hands.

and at the brink of WWII.

We now risk having Russia take down our energy grid as we predicted will happen as well as disrupt our food chain, as predicted, as well as launch a cyber attack against our communication systems.

All while China is getting ready to move into Tiwan

God forgive those who voted for Biden. The rest of the free world will never.

Voter fraud Michigan Video: <https://www.youtube.com/watch?v=zG2RkkBHX0M>

Posted February 21, 2022

A heart felt "Thank God!

We've turned the corner on auditing the voter-fraud in Wisconsin during the 2020 Presidential election.

You'll be able now to monitor daily updates released at www.hotgovernment.com, as well as take part in the discussions with the thousands now hanging out on Telegram and a host of other media channels immune from the Facebook and main street media blocks.

As I said, the real fraud had little or nothing to do with the vast majority of our hardworking county and municipal clerks. Very few had any idea, millions of "phantom" voters, many over 115 years old, had been first uploaded into the "active voter" data base, before being moved around the state, making sure Biden won in municipalities in which he was trailing during early voting.

On the bright side, we've learned new ways to make future audits more cost effective and affordable, so municipalities will be able to conduct their own spot-check forensic voter-fraud audits.

That in and of itself will rebuild the lost confidence in our elections, while creating new ways to detect voter fraud and discourage corrupt politicians from even trying to launder and harvest votes in the future. New access controls, built into the "chain of ballot custody" will also help discourage "stuffing" the ballot box.

There is no way, Biden won the 2020 election and we proved it. Now we have to vote those who helped steal the election out of office. God forgive them and God help us take back our freedom and independence, as well as our freedom of speech and freedom of the press.

Please remember, what we now have proven. The voter-fraud in Wisconsin and across the country has had nothing to do with our time honored democrats who lead us through WWII and out of the Great Depression. The fault and blame lands square on the minority of far-left wing democrat/socialist, who for the moment occupy the Oval Office and control the left side of the aisle.

A Risk Management message to the county and municipal clerks in Wisconsin and across the country.

Let's make it perfectly clear, for those who think county and municipal clerks are responsible for the voter fraud now well documented across the country.

The forensic "Voter-fraud" audits being done will prove not only the 2020 Presidential election was stolen, by a minority of Biden' democrats, but even more important!

We the People, democrats, republicans and independents alike, are going to find out the vast majority of the county and municipal clerks caught up in the audit had no idea they were being duped into trusting less than honest politicians imbedded in the Clinton/Gore and Obama/Biden and Biden/Harris campaigns.

Doubt it? Just wait! I for one will be voting for clerks who've suffered being dragged through the local political swamps only trying to do their job.

At the end of the day, I promise, we will recommend a system that will virtually guarantee, when we cast our votes, whether in person or via an absentee ballot, our votes will be counted and our voices will be heard.

Explaining Blockchain technology!

In Door County voters (Sevastopol) , who voted in a line, noticed the numbers generated had gaps. For example the first two voting got #28 and #29, while the fourth and fifth received #38 and #39. Why was there a gap in numbers? We suspect the missing numbers were subsequently used by “Phantom” voters.

The most common place “Blockchain” technology is being used is in the cryptocurrency industry. Following is a brief explanation as to how “Blockchain” technology is used in a positive way.

How does a blockchain work?

Picture a chain you might use for a ship’s anchor. But in this case, every link on the chain is a chunk of information that contains transaction data. At the top of the chain you see what happened today, and as you move down the chain you see older and older transactions. And if you follow it all the way down to the anchor sitting at the bottom of the harbor? You’ll have seen every single transaction in the history of that cryptocurrency. Which gives the blockchain powerful security advantages: it’s an open, transparent record of a cryptocurrency’s entire history. If anyone tries to manipulate a transaction it will cause the link to break, and the entire network will see what happened. That, in a nutshell, is blockchain explained.

- Another way people often describe the blockchain is that it’s a ledger (sometimes you’ll hear the terms ‘distributed ledger’ or ‘immutable ledger’), that is similar to the balance sheet of a bank. Like a bank’s ledger, the blockchain tracks all the money flowing into, out of, and through the network.
- But unlike a bank’s books, a crypto blockchain isn’t maintained by any individual or organization, including banks and governments. In fact it isn’t centralized at all. Instead, it is secured by a large peer-to-peer network of computers running open-source software. The network is constantly checking and securing the accuracy of the blockchain.
- Where does new cryptocurrency come from? Every so often – around every ten minutes in the case of Bitcoin – a new chunk of transaction information (or a new block) is added to the chain of existing information. In exchange for contributing their computing power to maintaining the blockchain, the network rewards participants with a small amount of digital currency.
- A crypto blockchain is distributed across the digital currency’s entire network. No company, country, or third party is in control of it; and anyone can participate.

The network is constantly checking and securing the accuracy of the blockchain.

Bernegger Catches The Wisconsin Election Commission Not Telling The Truth

The testimony today of WEC's IT Director Robert Kehoe and Administrator Megan Wolfe at the Wisconsin Assembly Elections Commission was full of holes. Each will be addressed over the coming days. Here is just one quick example: both Kehoe and Wolfe testified the numbering system is sequential for all new voter registrations. Further claiming the old numbering system was long gone and not used any longer. Bernegger stated today however, "We just looked up the last 100 registrants for the November 3rd, 2020 election. The voter ID numbers are NOT sequential" he said. The full list is provided here. Once again the incompetence of the Wisconsin Election Commission shines through. Source of the data: WEC.

Peter

Tons of misinformation by WEC today, hard to keep up with there were so many. They are just trying to cover themselves. Here is one - Kehoe testified all 99999 zip code registrants

are Inactive. Not true. There are 99999 registrants who are Active...and voted. List attached of some, for examples. Active - Voted - 99999 zip code.

Another: Kehoe said he ran Ambrose AAdventure through the DMV in 30 seconds and found the guy. Noting first: the guy changed his name. Second, we don't have access to the DMV (there is a long form to fill out, pay money, wait a couple of weeks, I think sign an affidavit also). But Kehoe/WEC can access DMV records in 30 seconds, we can't do that.

Peter

99999activeANDvote
d.xlsx

At the Elections Commission hearing today, we'll be filing tons of verified civil complaints challenging each thing we found. WEC should have kept quiet. :)

They will get the proof, in dribbles over time.

Peter

If you have been watching the Election Commissions hearing today, on the 357 registrants at 4019 Outer Loop Rd, Kenosha (town of Somer) the list is attached. Source of data: WEC. The address hasn't existed for 10 years. That road in fact was eliminated, replaced with a new one. Our point was these should not be on WisVote - I said that in the hearing last week, an example of not having accurate, efficient, clean WisVote state list.

I will call later today please.

What's going on is we are missing records from three municipalities because they want an arm and a leg for the records. We refuse to pay those inflated quotations. So faced with either filling a lawsuit against them, or skipping them. Good news is the City of Sturgeon Bay delivered the records, Nannie picked them up this week. Waiting for those to be processed (Nan could use some help), then we total up our findings for Door County.

If you need to get a money order you can get them of course at Kwik Trip (up to \$500), or the US Postal Office (up to \$1,000).

**This marks the end of our first year benchmarking of Biden.
God forgive anyone who voted him into office.**

Benchmarking our "Forensic Voter Fraud-Audit" project thirteen months into the Biden/Harris administration:

POSTED February 12, 2022

I'm really enjoying being on R&R, but I have to thank and answer the Risk Management questions asked below by two very good friends. Remember, we are all in this fight for our freedom and independence together. It should not, and does not matter, on what side of the aisle we sit.

First: I'll be uploading our "deep-throat" files on election fraud in Wisconsin on www.myrmlc.com, along with links to the updated election fraud audits we'll be posting both on www.hotgovernment.com under "News you can use" as well as on "Telegram."

You quickly understand, why the voting laws the republicans propose and the democrats condemn are precisely the laws we need to prevent the stealing of another election.

And, to answer the other questions: Those posters are being put up and those scripted "letters to the editor" are being written by the far-far-left wing of Biden's democrat party. You can read the same letters to the editor in far-left papers in LA and Chicago. Most are written and sent to local liberals to be published on a scheduled basis.

- **The posters are NOT, I repeat NOT, being put up by our much loved, traditional democrats who lead us through WWII and out of the Great Depression. FYI: Those**

putting up the posters have been called the "**Yellow-jackets**" in Arizona and Canada, because much of their funding comes through Zuckerberg and hedge fund managers supporting the push toward socialism and those sympathetic to the Chinese Communist Party (CCP)

- They are the same hedge fund managers, bye-the-way, who are paying for those ads against Ron Johnson.
- Also, bye the way, the same hedge fund managers who paid so when, in Wisconsin, your search for the local republican headquarter, diverted you to the local democrat headquarters.
- They are the same hedge fund managers who paid so when you searched for Antifa you landed at Biden's website.
- So, what can we do about them?
- We can learn as much as we can about who they are, why their only goal is to make sure Trump can't run in 2024 and call them out asking:
- Why, if you consider yourself a Christian, do you support the "tax-payer" funding of abortions?

Facts: Check out Trump's first 100 days in office:

- Trump got rid of the taxpayer funding of abortions in his first 10 days in office. Some Christians will admit, there may be a reason to abort a pregnancy, but no Christian, other than the "**Yellow-jackets**" support the forced taxpayer funding of abortion.
- In an ideal election, we'd get everyone to support "Personhood" and the taxpayer funding of adoptions.
- My best Risk Management advice is learn as much as you can about who these democrats support and vote them out of office. Doing that, will also defend against their push for teaching "Critical Race Theory" in our schools.
- God bless those willing to stand up, question and fight against the commie sympathizers putting up the yellow posters. And,
- God bless those who stand for our National Anthem. God willing we'll be back to winning and winning and winning after the midterm elections.
- PS: Stay tuned. Starting in spring, we're going to be calling out any and everyone who's fallen into the "**Yellow-jacket**" trap. Again! These are NOT members of our longtime loved and highly respected Democrat Party, the Party to which I once belonged.

Note: They know, if they can delay giving us access to records long enough to get past the statute limit they can destroy the evidence: That's why we have to get records from Sturgeon Bay, Liberty Grove and Town of Egg Harbor ASAP. All three are delaying even though we're paying their requested price to pull, copy and send us the records we requested: Following is a text from Peter.

Peter on Wisconsin Live Eye at 1 p.m.

Next week Wednesday at 1pm I'll be giving a presentation on our findings of election fraud before State Assemblywoman Janel Brandtjen's hearing. It will be on Wisconsin Live Eye, where you can

watch it at a later date also. The main focus will be on WisVote, MyVote, ERIC, ebooks, WEC and the DMV. WEC will be there.

Those volunteers who are working on the "Doublevoter" project appreciate you get your lists back in if you haven't already.

Support is building, surprisingly, for getting rid of ERIC by the legislature. The State of Louisiana dumped ERIC about 10 days ago. Arizona is crafting a bill to do the same; I can announce so is Wisconsin (hurray!). Even if Evers won't sign it now, the mid-terms are coming soon and we can get Rebecca or Nicholson to sign.

We have a large group of volunteers who wish to join us and we'll be picking them up over time. By large: upwards to 4,000. Probably in reality it will be 2,000. Will use them to pack existing county teams, to cover bare counties, to focus on Dane and Milwaukee along with Racine. We will vet them, bring them on county by county.

The 7 locales doing the phantom voter toolkit please keep going, if you need something let me know. I'll be disclosing many of those numbers at the hearing next week, and they are good!

I filed a verified civil complaint with WEC, against them really, to their office challenging the 1900-1918 registrants. They received it 4 days ago. I'm aware of the 6.48(1) limitation of the statute, and will challenge it in court when the time comes.

Appreciate you don't respond to this email, getting caught up with work especially after being ill for much too long. God Bless you all.

Peter

A short Risk Management lesson while I'm on R&R.

FYI: I'm having a great R&R, keeping my head down, powder dry, and sighting in my new Smith/Wesson 38 revolver, and kahr22 semi-automatic, both with green lasers.

FYI: I have "invisible" red lasers on the rest of my revolvers and semi-automatics and open sites on my rifles and the double barrel shot-gun behind the door.

Just kidding. I keep the shotgun under our bed.

Why green? If you're a civilian, unless you're really up against it, you don't want to be the one to take the "kill-shot." That'll live with you for the rest of your life.

Rather, taking-off just one testicle and you'll teach the active shooter a lesson, he'll remember for the rest of his life, no matter how short that might be.

God Bless! And remember!

Thanks to Biden's wide-open borders and the thousands of terrorists now embedded in his sanctuary cities and with Russia ready to invade Ukraine, China ready to take back Taiwan, the little Rocket Man testing more rockets in the last 12 days, than ever before in their history and the democrats still focused on making sure Trump can't run in 2024.

We have one hell-of-a-problem!

Thanks to those who voted Biden back into the swamp, my best Risk Management advice is: Equip your weapons with the "invisible" red lasers, you're not going to have time to avoid taking the kill-shot.

You all better lock and load and get ready to defend your own home, the democrats have disarmed our police and left us all hanging out to dry.

Posted with OSHA fines and penalties:

The Risk Management Learning Center (RMLC)

We warned you, we begged you not to allow Biden' democrats to pass laws requiring companies to "mask" their employees. Now they're shipping N95 and KN95 masks out to the general public.

N95 masks are governed as "ventilators" which means whether issued by the employer or worn voluntarily, OSHA can and will hold employers responsible first that the employee is given an appropriate physical to make sure the N95 can safely be worn. Second, the employer must provide specific training as to how, when and where the N95 mask must be worn. And third, each N95 mask must be personally fitted to each and every employee.

Failure to not only do all three, let alone keep OSHA specific records automatically exposes the company to fines and penalties and liable for any civil action launched by the employee.

Like it or not, those who voted Biden back into the swamp, not only rode socialism into the White House, they laid corporate America wide open to be crippled by government regulations and the inevitable fines and penalties that follow.

FYI: In Trump's first 100 days, he eliminated 90% of the government regulations that were crippling our ability to compete with China.

God forgive anyone who votes for any Biden democrat in the upcoming midterm elections.

League of Women Voter Bull Shit: <https://my.lvw.org/wisconsin/article/press-release-lvwwi-statement-racine-voter-fraud-investigations>

Please remember: "It was the League of Women Voters in Door County, who partnered with the United Way of Door County to remove President Trump's letter from the food packages replacing them with the Leagues reminder to vote. FYI: When Trump's tariffs on China caused a backup of agriculture products, causing farmers to dump produce, Trump bought the excess product and had it packaged and distributed via the United Way. We had Representative Joel Kitchen contact those from the United Way of Door County opening packages to try to get them to stop. Any follow questions should be directed to Representative Kitchen.

The Risk Management Learning Center (RMLC): Dateline January 16, 2022: The Biden' jockeys, who rode Biden back into the Washington swamp, have refused to heed our warning, so "We the People" democrats, republicans and independents alike, are going to give it to them one more time! "Never-ever piss-off a Wisconsin Badger!" The pain you felt during the 2020 Presidential campaign will be dwarfed by the pain you're going to feel bent-over in a federal penitentiary. Starting this week, we'll be issuing press releases nationwide, that'll highlight the corruption in the 2020 Biden' campaign that stole the November 3, 2020 Presidential election away from President Trump. Each press release will also highlight the corruption in the 2018 Wisconsin' Gubernatorial election that stole the election away from Scott Walker and rode Toney Evers into office. No doubt, the main-street media (CNN, NBC, MSNBC, CBS, etc.) will refuse to publish any or all of our press-releases, so tune into FOX News and NEWSMAX, as well as, go through www.hotgovernment.com, click on "News you can use" and join us on "Telegram." Again! I repeat: We are not dealing with the democrats that lead us through WWII and out of the Great Depression. We are now united as one America, in a fight against those, who for no other reason

than they hated President Trump, have brought us to the brink of World War Three. God may forgive them for riding Biden back into the swamp, but the rest of the free-world can never and will never ignore what they've done to our country, let alone our freedom and God-given independence. God bless those willing to stand-up and fight back. Together, we will win back our freedom and independence.

Thanks Rich, we're finding phantom voters by the thousands in the 7 counties. I'm laser focused on the project, now busy getting Dane County, Sauk County and Ozaukee County up and running.

Attached is a list of people who voted Nov.3rd, 2020 but their ballots were received back in before the ballots were sent out. You can see this on the dates in the far right columns. Suggest you compare these to the respective municipalities you have already done, see if you come up with anything suspicious. The Risk Management Learning Center (RMLC) - There aren't that many ignorant Trump haters left in our United States of America.

It's safe to predict: The Biden democrats and their bought-off main street media (NBC, MSNBC, ABC, CBS, CNN, etc.) will be going nuts tomorrow trying to convince their Trump hating, socialist, flag burning, willing to kneel in submission followers that "We the People" posed a greater threat to the future of our democracy, freedom and independence, than the Communist Chinese, who are now conducting war games in the South China Sea, the terrorist-drug smugglers-gangs-catch and release prisoners, rapists and human traffickers, who've been flooding across Biden's open borders, into Biden's sanctuary cities and the Little Rocket Man, who's now confidently launching micelles that can easily reach the heartland of America.

Go ahead and watch if you must, but if you do, compare what you're going to hear from the main street media to what you'll "learn" listening to Tucker Carlson's documentary streaming on FOX Nation.

Remember this from Sting:

The attorneys or Jill Lau had to have set this all up, in charging sky high fees for the public records.

Town of Egg Harbor - 15 minutes per record to search
Fish creek - 15 mins each
Liberty Grove - 15mins each
Nasewaupsee - 15mins each
Sevastopol - 15mins each

How convenient, each came up with "15 minutes" per record. When other clerks in Door County it comes out to 2-3 minutes per record.

To Peter Bernegger,

Please see attached letter from our Town lawyer with the cost of \$74.50 for your records request. I have all the voter registration applications in alphabetical order and also the absentee ballot requests in order. After talking with our lawyer, I thought I could complete the work in about 3 hours for the 34 voters requested. Please send the payment directly to me. Thank you, Ruth Kerscher, Forestville Town Clerk

Peter's lawsuit filed against City of Milwaukee Election Commission, Sections A-C:

PETITION FOR WRIT OF MANDAMUS

A. This is an action seeking to enforce the right to obtain, inspect, public records pursuant to Wisconsin's Open Records Law, Wisconsin Statutes § 19.31 et seq. Petitioner is a citizen of Wisconsin, a Wisconsin elector, who has requested public records from Respondent(s). They are the record

custodians with the authority and an obligation to produce governmental records.

B. Complainant's public records requests have not been answered, fully answered or have been denied without cause or just cause. These records are subject to timely production under the

Wisconsin Open Records Law, and the Respondents continue to stall in their production or outright withhold the requested public records without lawful justification. This Court's intervention and the sanction of an award of costs, fees, penalties and statutory awards are therefore required.

C. There is no requirement to provide a reason why public records are requested. However, in this situation it will be helpful to the Court to give some of the reasons Bernegger sought the requested records. Claire Woodall-Vogg ("Vogg"), Michael Lawrence ("Lawrence"), Neil Albrecht ("Albrecht") and John Doe (collectively termed "the sect" here) planned, conspired and implemented a massive election fraud upon Bernegger, the public, the City of Milwaukee Canvassing Board, the Milwaukee County Canvassing Board, the State of Wisconsin and our great country during the November 3, 2020 election.

i) This included using fake names and/or addresses on the voter registrations, on the applications. Utilizing fake names and/or addresses on the absentee envelopes, on the applications. Utilizing real names in getting ballots cast but without those people being aware of it. With Vogg declaring to the sect, to her employees, (paraphrasing) "no way in hell are we going to give them the applications" at the President Trump recount in the late fall of 2020. The sect rolled out the applications at the recount, but hoodwinked the Trump attorneys claiming they could/would not unseal the bags.

ii) Vogg switched the real memory stick(s) with the fake one(s) loaded with numerous illegally cast ballots. She did this at approximately 3am in the morning of November 4, 2020. Where there were witnesses to this nefarious act including one of the police officer escorts. Vogg lied to the press, to the public, as to which tabulator the "lost or misplaced" memory stick had ballots from.

iii) Where the sect allowed a CTCL operative in the "the pit" where the 11 tabulators were located of the central count. Where the operative was not a city employee. Where the operative inserted and

removed memory sticks in said computerized machines; had access to the tabulators.

iv) Where the sect printed ballots for Biden in a back conference room. See Exhibit 1 map of Room 501. They used Ballot On Demand computerized machines by ES&S. See Exhibit 2 five pages of those computerized machines, or very similar to them. Where the sect had persons operating those computerized machines who were not city employees.

v) Where the sect had, allowed, permitted, granted a tall black man with shorter hair from Illinois access to one or more computers in their office Room 501. Where this man was seen uploading, downloading, making changes to, one or more computers in Room 501. In particular as one example:

Michael Lawrence's computer. Where this man, and believed to be one other, would sleep in the hidden room during day hours. Exhibit 1. They were moving election data around, including but not limited to voter information. They accessed the computer(s) illegally as they had not authority to use taxpayer equipment, information.

vi) Where the sect provided City of Milwaukee letterhead to various citizens to use to vote without having a photo ID. An illegal act. This was in the manual printed for the November 3, 2020 election.

vii) Where the sect approved, implemented, used or permitted an interactive website, or app, to harvest ballots from the various city of Milwaukee wards. The sect did this by race. They watched, counted, harvested, collected ballots by race: White, Black, Hispanic. Their election partners who came in and participated in running the election with the sect – CTCL, National Vote At Home, Mark Spitzer Rubenstein, Hillary Hall, Quickbase, Wisconsin Voices, Inc., and others – participated in running the election in part based on race. Even designing and implementing an interactive map based on race, to watch the ballots collected by race.

viii) The sect gave approval, or at least knew, private people were using the VoteWisconsin app by

Wisconsin Voices, Inc. to register people. The sect gave or knew Wisconsin Voices, Inc. was given direct access, an API as they are known to be called, to access MyVote. Where by statute, by Justice Hagerdorn's January 2021 opinion, the municipal clerks are in charge of registering people to vote. The sect also illegally "partnered" with CTCL, National Vote At Home Institute, permitting those organizations, their employees and agents, to run, or at least directly participate, the November 3, 2020 election. They entered into an agreement with conditions set by CTCL, National Vote At Home, Mark Zuckerberg, for money. That is illegal. With Respondents telling city employees to do what CTCL, National Vote At Home Institute and their employees/agents directed, told or showed them what to do.

ix) Where Respondents allowed, permitted, gave WisVote data freely to these said groups and/or their employees, agents. WisVote data is to be purchased by such groups, where the sect gave it to them for free, many times over weeks before the November 3, 2020 election. Where one or more of these groups (or their employees/agents/partners) gained access to the WisVote, to the MyVote, databases. Databases which are supposed to be secure authorized government only access.

Forensic Fraud Audit:
Hello all, updating again with the pleasure of welcoming several new volunteers who have joined our no name grassroots group. Welcome.

PARTIES

1. Petitioner Peter Bernegger is a Wisconsin citizen, a Wisconsin elector. He is the "requester" as defined in Wisconsin Statutes § 19.32(3) and used in Wisconsin Statutes § 19.31 et seq..

2. Respondent Claire Woodall-Vogg is the Executive Director of the City of Milwaukee Election Commission. She is an "authority" under Wisconsin Statutes § 19.32. She is also an employee under 19.31(1)(bg). And, she is the legal custodian of the records requested. 19.33(1),(4),(5) respectively. Referenced here as "The Clerk".

3. Michael Lawrence is an employee of the City of Milwaukee, of the City's Election Commission. City Hall, 200 E. Wells Street, Room 501 Milwaukee, WI 53202. He is an "authority" under Wisconsin Statutes § 19.32. He is also an employee under 19.31(1)(bg). And, he is the legal custodian of the records requested. 19.33(1),(4),(5) respectively. Referenced here as "Lawrence".

Gary Wait, former lead investigator for Justice Gableman, spoke last night at the Dane County GOP executive committee. It went very, very well. Time allotted was 30 minutes, and we understood it went on for 2+ hours. He also had a one on one last week with a State Senator. The Senator was blown away. He firmly promised to go inform other Senators of what he was told and shown.

An excellent candidate has been selected to primary Speaker Robin Vos. Noting Vos doesn't run until 2023, but have to plan/organize in advance.

Confirmed today there is a county DA who will be bringing criminal charges against about 21 people for election frauds. Sheriff is investigating yet, but on track to get results.

Now, you want to know just one thing all your hard volunteer work has accomplished? It is attached here. We got that done, written, signed, sent. And signed by all of State Assembly Janel Brandtjen's caucus, 100% of them. They turned back towards supporting her after the hearing held just 2 weeks ago. Which by the way was much of YOUR information going all the back to the EDA project. Valentine report: some of it from us. Jeff O'Donnell IT expert: some of it from us. Dr. Frank: some of it from us. We have been using the information you've been working hard collecting and leveraging it to bring people to our side, to get them to take action. Thank you!

The Original Five: Peter, Gary and three others who remain in the background. Have a great night! (as always appreciate no reply emails, have too many already, thanks).

[The lawsuit for public records was served yesterday to Claire Woodall-Vogg/City of Milwaukee Elections Commission. Here is Section C from the suit:](#)

C. There is no requirement to provide a reason why public records are requested. However, in this situation it will be helpful to the Court to give some of the reasons Bernegger sought the requested records. Claire Woodall-Vogg ("Vogg"), Michael Lawrence ("Lawrence"), Neil Albrecht ("Albrecht")

and John Doe (collectively termed "the sect" here) planned, conspired and implemented a massive election fraud upon Bernegger, the public, the City of Milwaukee Canvassing Board, the Milwaukee County Canvassing Board, the State of Wisconsin and our great country during the November 3, 2020 election.

i) This included using fake names and/or addresses on the voter registrations, on the applications. Utilizing fake names and/or addresses on the absentee envelopes, on the applications. Utilizing real names in getting ballots cast but without those people being aware of it. With Vogg declaring to the sect, to her employees, (paraphrasing) "no way in hell are we going to give them the applications" at the President Trump recount in the late fall of 2020. The sect rolled out the applications at the recount, but hoodwinked the Trump attorneys claiming they could/would not unseal the bags.

ii) Vogg switched the real memory stick(s) with the fake one(s) loaded with numerous illegally cast ballots. She did this at approximately 3am in the morning of November 4, 2020. Where there were witnesses to this nefarious act including one of the police officer escorts. Vogg lied to the press, to the public, as to which tabulator the "lost or misplaced" memory stick had ballots from.

iii) Where the sect allowed a CTCL operative in the "the pit" where the 11 tabulators were located of the central count. Where the operative was not a city employee. Where the operative inserted and removed memory sticks in said computerized machines; had access to the tabulators.

iv) Where the sect printed ballots for Biden in a back conference room. See Exhibit 1 map of Room 501. They used Ballot On Demand computerized machines by ES&S. See Exhibit 2 five pages of those computerized machines, or very similar to them. Where the sect had persons operating those

computerized machines who were not city employees.

v) Where the sect had, allowed, permitted, granted a tall black man with shorter hair from Illinois access to one or more computers in their office Room 501. Where this man was seen uploading, downloading, making changes to, one or more computers in Room 501. In particular as one example:

Michael Lawrence's computer. Where this man, and believed to be one other, would sleep in the hidden room during day hours. Exhibit 1. They were moving election data around, including but not limited to voter information. They accessed the computer(s) illegally as they had not authority to use taxpayer equipment, information.

vi) Where the sect provided City of Milwaukee letterhead to various citizens to use to vote without having a photo ID. An illegal act. This was in the manual printed for the November 3, 2020 election.

vii) Where the sect approved, implemented, used or permitted an interactive website, or app, to harvest ballots from the various city of Milwaukee wards. The sect did this by race. They watched, counted, harvested, collected ballots by race: White, Black, Hispanic. Their election partners who came in and participated in running the election with the sect – CTCL, National Vote At Home, Mark Spitzer Rubenstein, Hillary Hall, Quickbase, Wisconsin Voices, Inc., and others – participated in running the election in part based on race. Even designing and implementing an interactive map based on race, to watch the ballots collected by race.

viii) The sect gave approval, or at least knew, private people were using the VoteWisconsin app by Wisconsin Voices, Inc. to register people. The sect gave or knew Wisconsin Voices, Inc. was given direct access, an API as they are known to be called, to access MyVote. Where by statute, by Justice

Hagerdorn's January 2021 opinion, the municipal clerks are in charge of registering people to vote.

The sect also illegally "partnered" with CTCL, National Vote At Home Institute, permitting those organizations, their employees and agents, to run, or at least directly participate, the November 3, 2020 election. They entered into an agreement with conditions set by CTCL, National Vote At Home, Mark Zuckerberg, for money. That is illegal. With Respondents telling city employees to do what CTCL, National Vote At Home Institute and their employees/agents directed, told or showed them what to do.

ix) Where Respondents allowed, permitted, gave WisVote data freely to these said groups and/or their employees, agents. WisVote data is to be purchased by such groups, where the sect gave it to them for free, many times over weeks before the November 3, 2020 election. Where one or more of these groups (or their employees/agents/partners) gained access to the WisVote, to the MyVote, databases. Databases which are supposed to be secure authorized government only access.

x) Where the sect entered into a secret agreement with the Milwaukee Journal Sentinel or its agent to have exclusive information from the sect, its CTCL/National Vote at Home partners in the election, to publish in their news outlets. Where the Milwaukee Journal Sentinel hid this secret agreement from its subscribers, hid it from the public.

Forensic Fraud Audit Update:

1. Have an explosive new list on excel sheet - Wisconsinites who possibly voted twice. Generally showing these criteria:

- same name
- same address
- different voter ID numbers
- two ballots cast

We ask for 20 volunteers to help in searching to confirm.

Each volunteer will be sent about 325 as there are 6,480 on the list. Theoretically could be >12,000 votes that would be struck down. But realistically it will be maybe 2,000 to 3,000 is best guesstimate after checking some randomly. There are some for example who are father (Sr) and son (Jr). Still will be a huge win for us and our country.

You'd use the old whitepages.com or truepeoplesearch.com or fastpeoplesearch.com. In the few random searches the results worked best using 2 or even 3 different search engines like these to confirm the results.

20 volunteers who can help - please email me and you'll be sent a list with instructions. Money will be sent if you need it to pay for whitepages.com (just provide an email linked to a Paypal account).

2. Phantom Voter Toolkit project progressing in St Croix, Sheboygan, Door, Oneida counties and City of Racine. Of course the holidays slowed things down but we are in a great position to obtain 50 from each by our time goal of the 3rd week of January.

3. We're pushing hard to have a full blown investigation into WisVote, MyVote and ERIC. 100% confirmed bad people accessed these "secure government only" databases to commit election fraud. A second federal lawsuit has been filed against ERIC, in Colorado. First one was filed in Washington DC.

4. We ask everyone to please send letters, call, email your WI State Senator - right now that is one of the main holdups. We need just one to join State Assemblyman Tim Ranthum on one or more of his pending bills. Urge them to sign the one which removes all the 616,000 dead people on our statewide voter rolls. That is an easy one and a good start. Please keep the letter short, polite, and professional. Contact info: <https://legis.wisconsin.gov/>

5. Gary Wait sat down one on one with a State Senator last week. Documents were shown and told about: the guy was blown away. He seriously had no clue as to how bad it was/is pertaining to the election frauds. Didn't even know WEC kept dead people on the voter rolls, let alone all the other junk on the rolls.

Email Peter if you can volunteer for no.1 above. Thank you,

The Original Five

Re: Public Records Request to Town of Egg Harbor

Dear Mr. Bernegger:

Our law firm represents the Town of Egg Harbor. I have reviewed your public record request dated December 17, 2021 together with your follow-up communications with Town Clerk Pam Krauel.

The most recent request made to the Town of Egg Harbor will require the Town Clerk to engage in some searching for records. The cost of locating the records responsive to your record request is estimated at \$660.00. That search fee is based upon an estimated 15 minutes per record for 82 records at the hourly rate of the Town Clerk of \$33.00 per hour. Copying costs are estimated to be \$30.75 and mailing costs are estimated at \$6.50.

The entire sum of \$697.25 will need to be prepaid prior to the record request being assembled.

Note

that you are not being charged for any redaction time in compliance with Wisconsin Law.

Please make your prepayment to the Town of Egg Harbor at the Town Office, 5242 County I, Sturgeon Bay, WI 54235. Upon receipt of payment the records will be searched out and assembled for delivery.

Very truly yours,

LAW FIRM OF CONWAY, OLEJNICZAK & JERRY, S.C.

The amount you're asking for is completely unacceptable. The records are in alphabetical order for one, some can be easily searched via online. Then I'll have a person pickup the records in person to eliminate the mailing fee. The hourly fee is much too high also, there are lower paid people there who could do the search. Other places have been 1/2 or even less the price you're asking.

**Fraud audit progress report from the Sting:
To group working on Phantom Voter project:**

When we get all done with Oneida County we'll have a list of phantom voters. That list will be about 80-90% accurate (due to all the variables going into this process). But it will prove our claim that fake people are on the WisVote database (with 6 counties total chipping in findings). It will be

enough to get subpoenas to all 1,853 municipal clerks for all the applications - where we won't have to pay for Clerks to search for them, copying costs, mailing costs. It will expose the WisVote database. It will give us enough to file criminal complaints. Enough for the State legislature to act.

Janel presented information the morning of the Wednesday hearing to the Republicans - you could hear a pin drop they were all so quiet. Why? Because they were stunned. Several came up to her afterwards and apologized, including two who just recently called her a crazy conspiracy theorist. Even 50 phantoms from each of the 6 counties is enough to file an interim report.

It's working.

The Risk Management Learning Center (RMLC) Alert! Please read this and pass it on. We are all victims and we need to unite and work together to recover from the recent tornadoes.

Whether you're responding as a church, company or community organization in the private sector, remember to always use the same "Incident Command System (ICS)" used by all law enforcement, fire departments, emergency government and Homeland Security personnel, when you deploy recovery assets into the "Hot-zone" and counties that have been devastated by the tornadoes.

Using the Incident Command System (ICS) automatically will "Stage" you recovery assets at a safe distance from the "Hot-zone" and systematically merge them into the recovery operation as needed. Remember to log into the command center so the "Chief of Operations knows who you are and what and when your recovery assets will be arriving in the staging area.

Also remember to use what you learned in our courses on "Trauma Management" and focus on reducing the guilt-fear and sense of being out of control. Surround all victims with "non judgmental listeners and always "Set the tone from the top" that all victims will recover, by having the person with most authority regularly update all involved.

Equally important! Always remember the "universe of victims" include every man, women and child in America has been traumatized by these tornadoes and we all need to be kept informed. Designate your "Information officer" and schedule regular reports back to your organization, so everyone can be assured progress toward recovery is being made.

Finally: Condemn anyone, on either side of the aisle, who turns this disaster into a political debate over "global warming." Those, who do that are by design deepening the guilt, fear and sense that we as country are out of control and the only way we' will recover is to relinquish our freedom and independence and turn all our needs over to the federal government.

They've done it to us with their response to the Fauci-gain-of-function-COVID 19-China virus. They've did it to us last January 6th, when all Pelosi had to do is activate the state and federal mutual aid agreements with the Capitol police to secure the capitol. Don't allow them to once again use the tornados to divide us as a nation.

God bless our frontline first responders and God forgive anyone who voted Biden back into the Washington swamp.

2. Important numbers from hearing reports:

<https://www.independentsentinel.com/deeply-troubling-findings-in-wi-2020-election/>

3. Valentine's report will be posted on HOT Government Telegram channel sometime day.

4. Yesterday's hearing won back the Republican caucus to keep fighting for the truth of November 3, 2020 (they had abandoned Mrs. Brandtjen). Next: open an investigation into WisVote, MyVote, to get copies of the hard drives, the bulk of the fraud is in those databases.

Keep the information flowing volunteers - can't thank you all enough.

Pls don't respond to this email.

The Risk Management Learning Center (RMLC) - A promise we're making and a promise we will keep:

Today marks 80 years since the attack on Pearl Harbor, December 7, 1941. An attack that left 2,403 died and over 1,178 to carry the wounds of war for the rest of their lives.

We were caught off guard in 1941, because the democrat socialists of the day lulled Americans into believing an avowed enemy of the free world could and should be trusted.

https://twitter.com/DeptVetAffairs/status/1468181033837203457?ref_src=twsrc%5Egoogle%7Ctwcamp%5Eserp%7Ctwgr%5Etweet

Today, December 7, 2021, will go down in history as another day the Biden' democrats should not be trusted. It'll be the day they brought America to the brink of WWII.

In less than a year, those who voted Biden back into the Washington swamp have opened our borders and allowed a flood to terrorists deep into the heartland of America.

In less than a year the Biden democrats have abandoned thousands of our citizens and allies in Afghanistan, leaving them there to be slaughtered by the Taliban.

In less than a year, the Biden democrats have turned over eighty billion dollars in guns, ammunition, high tech aircraft and war related intel over to our enemies (Russia included).

In less than a year, the Biden democrats have ended our energy independence, masked up our citizens and made us all sitting ducks for the next planting of "Fauci's gain-of-function virus".

As the Russians amass their troops on the border of Ukraine, as China steps up their war games in the South China Sea, as North Korea resumes the testing of their intercontinental ballistic missiles and as Iran gears up for their long awaited nuclear war, Biden is going to try to convince Russia's seasoned KGB warrior (General Putin) to not attack the People of Ukraine.

May God forgive those who voted Biden back into the Washington' swamp. We the People, along with the rest of the "FREE World" cannot, must not and will not ever forgive those who voted the Chinese communists back into the Oval Office.

Again! Let me make it clear.

It has not been the democrats who lead us through WWII and out of the Great Depression, who are at fault. Where we are today, 80 years since the attack on Pearl Harbor, lays squarely on the shoulders of the Trump-hating Biden democrats and Trump-hating RINOs (Republicans In Name Only) who allowed the democrats to steal the 2020 election.

Doubt it? Wait until we issue the results of our Wisconsin forensic voter-fraud audits."

It's the Biden' jockeys and only those who stole the election, who have brought themselves to their knees and sold themselves out to the Chinese Communist Party.

We the People, democrats and republicans alike are locked and loaded and ready to fight. We the People are fed up with those who rode Biden and their communist party into office and We the People are going to vote them out of office before they destroy our American dreams forever.

80 years ago today, Japan's Admiral Yamamoto, the man who planned the attack on Pearl Harbor said, when he saw what his air force had done, "I fear we've awakened a sleeping giant and filled him with terrible resolve."

We the People, democrats, republicans and independents alike are wide awake and ready to fight on land, in the air and at sea.

We the People are united in a fight to regain our freedom of the press and our right to bear arms. Do yourself a big favor and never underestimate the "United States of America!"

The Sting Report:

1. 26 criminal complaints have been filed now in the state of Wisconsin for election fraud. Noting we learned election frauds (including criminal) are to be reported to the municipal clerk where the alleged act took place. They then investigate and refer to the police, sheriff, County DA or a combination of the three.

2. Lawsuits have been filed against Marathon County and Grant County Clerks, for public records they refuse to provide. Grant County shipped at least some of the Dominion machines to Command Central in St. Cloud, MN. We believe the hard drives were wiped.

3. State Assemblywoman Janel Brandjen is holding an important hearing next week Wednesday, December 8th pertaining to the election frauds. Not sure what time it is on, but the link to watch is here: <https://wiseye.org/live/> You have to open an account, it is free. The hearings are recorded so you can watch it at a later time.

4. We're rolling out the Phantom Voter Toolkit which finds Phantom Voters, i.e. illegally cast ballots. It works. Test county is finishing up; rolled out to the counties of Rock and Sheboygan.

5. Those working on the EDA's please continue, but finish up the work, send us the results you find. Rep. Ranthum is gathering support for a bill to remove the ~616,000 deceased from the WisVote database. It is a great start.

6. Lawsuit for public records coming soon against the City of Milwaukee.

7. Want to learn more about the election fraud which took place in the November 3, 2020 election? Take a look at this article: https://www.americanthinker.com/articles/2021/11/meet_the_technology_thats_uncovering_2020s_voter_fraud.html

8. Prosecutions are going to happen pertaining to the nursing home in the northern part of Wisconsin.

9. Big advancements are being made in our work, keep the information flowing.

10. Need volunteers who would be interested in Oneida County - using the new Toolkit to find phantom voters. Something is really wrong in that county.

11. Citizens can file a criminal complaint:

968.01(2) The complaint is a written statement of the essential facts constituting the offense charged. A person may make a complaint on information and belief. Except as provided in sub. (3) or (4), the complaint shall be made upon oath before a district attorney or judge as provided in this chapter.

968.02(3) If a district attorney refuses or is unavailable to issue a complaint, a circuit judge may permit the filing of a complaint, if the judge finds there is probable cause to believe that the person to be charged has committed an offense after conducting a hearing. If the district attorney has refused to issue a complaint, he or she shall be informed of the hearing and may attend. The hearing shall be ex parte without the right of cross-examination.

We will be doing many of these.

12. Confirmed a Clerk can change an Inactive registrant to an Active registrant. They cannot however delete a registrant, only WEC can. We will be challenging this.

13. Federal lawsuit still in the works for eliminating WEC....it has been more and more info coming in is why it has not been filed yet.

14. Stand strong and have no fear, we are in the right and us citizens are going to fix the mess of November 3rd, 2020. A demand to decertify a Wisconsin county will be coming.

15. What you can do personally: vote in person. Do not use absentee mail-in ballots. Eye witnesses who informed us Trump ballots were intercepted, opened, tossed into the garbage, replaced with Biden ballots. Do not use absentee mail-in ballots. Tell your family, your friends.

16. Verified complaints are being drafted and will be filed to WEC.

17. Appreciate you don't respond to this email, as we have enough plenty coming in each day to tend to.

Thanks to those who voted for Biden Harris, the Chinese now own the main street media (CNN, MSNBC, etc.) and terrorists are now embedded deep within our infrastructure, corporate America and our schools.

We'll continue to upload Risk Management support via Facebook, but that can be easily taken away, if Facebook disagrees with the post.

Remember, they've blocked Trump off Twitter and Facebook and Ron Johnson off U-Tube. FYI: Ron is a man who I'll fight to the finish to get reelected. We've already showed you the hedge-fund managers who are paying for all those negative ads. They're the same crooks who are buying Hunter's paintings and funding the BLM riots as well as the defunding of our police.

They are the ones who pose the real threat to our democracy. Anyone who sides with them against Ron Johnson or President Trump, should be driven out of office and we're going to lead the drive.

But to curb the immediate threat, click here for a direct link to our RMLC library. Roll this out to everyone you know ASAP!

GO DIRECT to the link for "National Risk Management" and join us on "Telegram" via "Hot Government dot Com!"

Former New York City police commissioner Bernie Kerik agreed to testify before the Jan. 6 Congressional Committee, but demanded an apology for false statements made about him. Kerik is among the more than two dozen aides and allies of former President Donald Trump that have been subpoenaed by the committee in their investigation of the rioting at the U.S. Capitol.

While he says that he is willing to testify, he is demanding the panel retract a claim that he attended an alleged meeting on Jan. 5 where Trump and the other participants plotted to decertify the official results of the presidential election.

Here are some findings in Outagamie County. I think MIKE GALLAGER is MIA. Ya think?

352 People registered with the zip code 99999 GOOD GRIEF !

5,844 Unique voter ID numbers listed twice in the voter rolls (Duplicates)

7,959 Registrants who registered in the year 1918 (making them least 124yrs old !

89,343 Inactive registrants. Take them off the list if they are inactive. They can be kept on a separate database, separate computer server for historical records if needed.

14,713 Deceased COME ON MAN !

29,758 Merged

4,444 Moved

5,013 Admin. Action

2,875 Movers

2,252 Movers Lists

836. Felons (not eligable to vote if incarcerated)

3,496 Undeliverable Mailing

The above numbers include both Active and Inactive registrants.

> This County only has about 142,000 adults yet there are currently 207,883 active and inactive voters on the voter registration list! INSANE

> Ask the Wisconsin Election Commission, your election Clerks and your State Representatives: why are you defending all this?

> The voter registration list(s) should be current. To contain only people who are alive, eligible and may wish to vote in upcoming elections. If they don't vote for 4 years then remove them automatically. It is very simple to re-register.

THE ABOVE IS JUST ONE COUNTY! CAN YOU IMAGINE WHAT MILWAUKEE AND DANE COUNTY NUMBERS LOOK LIKE ! Anyone — 😡 feeling angry.

"Why are there over 2,000 registered voters in our state of Wisconsin who have the same mailing address? Just one week ago The Wisconsin Elections Commission ("WEC") touted how thorough and accurate they were with the voter registration list. They even held a public 'educational' session at the State Capital on September 8th. WEC staff member

Meagan Wolfe assured us all was well. Next Rock County Clerk Lisa Tollefson spoke up making the same assurances and promises: all is well, we are tireless in our working making sure all is done correctly, nothing to see here citizens of Wisconsin. An Excel spreadsheet is attached which raises very serious questions as to why the Wisconsin Voter Registration list - maintained by the municipal clerks and WEC - has numerous voters on the statewide list who have the exact same addresses. The house number was added by us, which matched

up with the box numbers and cities. Last names were removed. The list is from WEC, it is their data. 🗨️

🗨️ *Ms. Wolfe please explain why there are 793 registered voters sharing the same addresses in Ashland County Wisconsin.*

Ms. Tollefson, please explain why there are over 1,800 voters with the same addresses in Rock County. How many of these were "purged" in your removal just a few weeks ago? Ms. Wolfe: did you completely remove the 205,000 registered voters a few weeks ago...or did you just switch them from "Active" to "Inactive". Why do you keep volumes of different people registered to the same addresses, no matter if Active or Inactive? Why do you keep dead people on the list? If a person completely moves out of the State why do you keep them on the registration list, many times as "Active"? Why is there about 7 million adults on your registration list when only about 4.7 million adults live in our State? Don't you think this opens the door to voter fraud?"

The Sting report: The Door Disaster:

October 12, 2021

Blocked Open Records Request:

Rich Woldt
 36m
 Heads up! FYI:
 They, and we all know who they are, blocked another open-records request in Door County.
 So, if you voted in Door County, you're welcome to come to the courthouse in Sturgeon Bay, on Friday, October 15th at 2 p.m..
 There, you'll hear some of the evidence of voter-fraud in the county during the November 3, 2020 campaign and night of the election, as its being presented to the judge.
 Actually arrive early, as you'll have to go through a metal detector to gain access to the court room on the second floor.
 I'll post an update, if something changes.

Jill Lau Hearing:

Door County hearing to resolve “Open Records” request:

A motion was filed by Door County Clerk, Jill Lau to block efforts to obtain her “sworn” deposition.

Consequently, a suit was filed to obtain her sworn deposition and the public records needed to complete a thorough, complete and reliable forensic voter-fraud audit.

The hearing will be held, on Friday, October 15, 2021 at 2 P.M at the Door County Justice center, 1205 S Duluth Ave., Sturgeon Bay, Wisconsin, before Branch 1 Judge D. Todd Ehlers (920-746-2470)

While the public is invited, all are encouraged to arrive early, so there'll be time to go through the metal detectors before being allowed in the courtroom.

Following is a brief summary of key finding that'll be presented, in the hope of obtaining sworn testimony and access to relevant public records.

Door County Voter Registration List Disaster

- 10 registrants have the zip code 99999
- 4 registrants have the famous Racine County phone number, the phone number which has 23,263 registered with it

- 13 registrants registered in the year 1906, as the voter age was 21 back then these people would be at least 136 years old
- 3 registrants are registered in the year 1916 making them 126 years old
- 595 duplicates in the Door County voter registration list, meaning 595 are entered twice
- 14,036 are shown being registered in the year 1918. WEC states this is a default but they are not being truthful. Just last year 20 new registrations used the year 1918
- 6,648 are shown as 4-year maintenance, meaning by law they were to be removed, yet are still on the list
- 4,159 are deceased, yet still on the rolls
- 3,807 are merged meaning Door County is admitting they know these voters moved, yet they are still on the list with the old address
- 740 undeliverable mailing: these were sent an official government mailing about being registered to the address and failed to respond. Yet they are still on the voter list
- 464 Administrative Action – Door County knows the registration information is wrong, yet still has these voters on the list
- 608 moved – Door County knows these people moved, yet still have them on the list
- 42 Incomplete EDR – once again Door County knows these people have an incomplete application, yet keeps them on the rolls

Right now!

There are 11 registered to vote at this address in Door County.

Right now!

There are 10 registered at this vacant lot in Door County. Other vacant lots and non-existent addresses in Door County also had registered voters. Many used the same non-existent numbers on existing streets. This was done so bogus registered voters could subsequently be pulled back out of the registered voter pool, after the election.

Right now:

There are 10 registered voters at this single family residence in Door County.

In addition:

- There are 17 registered to vote at a tent campground in Door County along with thousands of "Ghost Voters" registered to vote in Door County.

- **FYI:** All numbers and registration data was taken from the current voter registration this year.

Questions that must be answered include:

3. Did Door County Clerk, Jill Lau and/or any or all of the municipal clerks know “**private individuals**” had access to the WisVote voter registration database? “Private individuals” include those not dually elected or authorized to act.
4. Did Jill Lau know if any “private individuals” had access the WisVote voter registration data base before, during or after the November 3, 2020 election?

FYI: WisVote is where all voter registrations are stored and used to verify voters in an upcoming election. WisVote is meant for authorized government access only and needs a FIDO security key, a user name and password to gain access. Therefore the questions that must be asked and answered are as follows:

We now know, and have proven that “Phantom” and “Ghost” voters voted in-person and by absentee ballots in Door County during the November 3rd presidential campaign and election.

We also know and have proven, not requested, absentee ballots having questionable return addresses were returned to unsecured, unprotected, not monitored deposit boxes, featuring little or no access controls nor established “dual access/custody” controls.

Consequently, without a face-to-face opportunity to question county clerks, there is no affective or reliable way to assure the voters in Door County that the “Chain of Custody” over their ballots was properly controlled, from the time their votes were cast until all their votes were counted.

Therefore, beyond any reasonable doubt, It is in the best interest, not only for the voting residents of Door County, but for all past, current and future elected officials that all questions are asked and all questions are answered, before we proceed to the next election. Anything short of an in depth and thorough forensic audit, will forever cast a shadow of doubt over future elections and sadly over all our honest and law abiding elected officials. Sworn testimony, taken “under oath” is the only way voters will be able to restore lost confidence in our elections and counties/municipal governments across the state will be able to reengineer how votes are cast, collected, counted and verified.

It’s in that spirit, we ask the opportunity to go forward with the forensic audit.

Respectfully submitted:

We the people – We the voting residence of Door County.

Commanders reportedly ordered Marines to clean up anti-Taliban graffiti before leaving Kabul airport: 'F* ISIS + Taliban'**

Before finally leaving the Kabul airport in the wake of the chaos created by President Joe Biden's mishandled withdrawal from Afghanistan, U.S. Marines were given an important task: Destroy things that might be useful to the Taliban, the Washington Post reported this week. A job they were apparently happy to do.

They were also reportedly given a less-than-great task: Clean up graffiti at the Kabul airport that was insulting to the Taliban, as well as pick up trash.

This, according to the Post, was seen as a "slap in the face" to the Marines.

👉 **Ms. Wolfe please explain why there are 793 registered voters sharing the same addresses in Ashland County Wisconsin.**

Ms. Tollefson, please explain why there are over 1,800 voters with the same addresses in Rock County. How many of these were “purged” in your removal just a few weeks ago?

Ms. Wolfe: did you completely remove the 205,000 registered voters a few weeks ago...or did you just switch them from "Active" to "Inactive". Why do you keep volumes of different people registered to the same addresses, no matter if Active or Inactive? Why do you keep dead people on the list? If a person completely moves out of the State why do you keep them on the registration list, many times as "Active"? Why is there about 7 million adults on your registration list when only about 4.7 million adults live in our State? Don't you think this opens the door to voter fraud?"

H.O.T. government posted the above this morning on their site. I obtained the matching Excel sheet from them. See attached. Pass around.

RMLC "Let's Roll!"

The Risk Management Learning Center (RMLC) is ready to roll.

"Let's Roll!"

Twenty years ago today, a terrorist' attack planned in Afghanistan flew planes into the New York World Trade Center.

Over the past twenty years, "We the People," democrats, republicans and independents alike fought back, capturing and killing those who planned and pulled off the attack.

Unfortunately, over the last nine months those who voted Obama/Biden/Harris/Clinton/Gore and Alinsky back into the Oval Office, have succeeded in masking up America, making us all sitting ducks for the next chemical/biological/virus terrorist' attack.

Thanks to those who voted for Biden, all the terrorists have to do is target any faith-based organization (church) company, school, state, village, county or township they want to wipe out and infect their target with the next version of their "Fauci-gain-of-function-virus".

Today, twenty years ago, a few brave Americans, knowing the odds they'd succeed were stacked against them, gave the order "Let's Roll" and, while they all died, prevented the terrorists from flying their plane into the Pentagon.

That command, "Let's Roll" launched a nation wide mission to take back our country.

We launched the RMLC shortly after that attack, with the stated mission to secure our borders and take back our country from those who threatened our freedom and independence.

Nine months ago, we had won the war and made America great again. Unfortunately, the Taliban succeeded in stealing the election and in a short nine months destroyed all we had accomplished.

The only thing I can assure you at this point is, they've awoken a sleeping giant and we're going to fight back!

Have faith! Have courage and believe in yourself. "We the People" are mission ready and "We the People," republicans, democrats and independents alike will fight back. We will take back our country, secure our borders, and take down those, who for the moment may have the upper hand. We give you our word, our pledge and our promise!

Let's Roll!

Posted today: RMLC follow-up on last post: Just to refresh your memory. Khairullah Khairkhwā was held at Guantanamo Bay from 2002 to 2014.

We told you so! We pleaded with you and now those who voted for Biden have opened our borders and brought over 8800 Taliban fighters to Wisconsin.

We've proven, go to our deepthroat files that the Biden democrats stole the election in Wisconsin. Help us decertify the election and get President Trump back in office.

PS: Remember, when one of those released was asked: "Should we expect another 9-11-01 type attack?" He said: "Why take down a tiger, when the shepherd (referring to Obama) is so willing to lead his flock to slaughter."

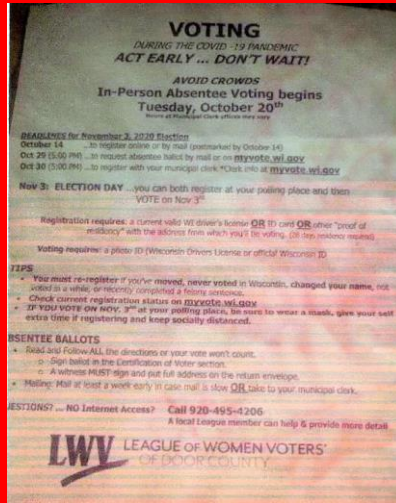

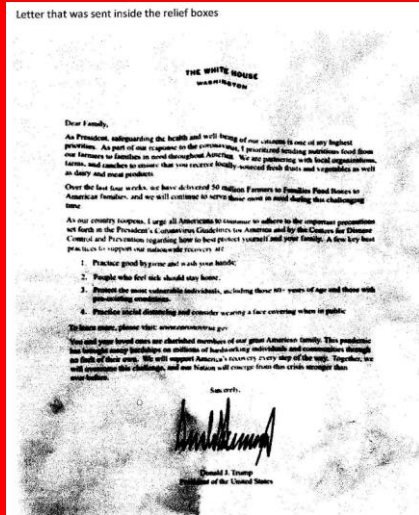

The tariffs President Trump placed on China resulted in a backup of US agriculture, produce, products such as fruits and vegetable, etc. This in turn caused prices to fall resulting in farmers dumping product to stabilize prices. When President Trump learned of the backup, he ordered the government to purchase all excess produce and have it packaged and delivered to those in need through the United Way.

When packages arrive in Door County, volunteers with the United Way opened the packages and removed Trump's letter to the people in Need and replaced the letter with a letter from the Door County League of Women Voters.

A number of Trump supporters realizing what they were doing tried unsuccessfully to get them to stop, so they brought a copy of both letter to the Republican campaign Headquarter in Sturgeon Bay. We immediately contacted Representative Joel Kitchen and requested he do what he could to get them to stop.

Later that evening, Representative Kitchen reported he talked with Amy with the United Way and they agreed to stop asking us to not make it an issue as they were fundraising and didn't want what they were doing to have a negative impact on their campaign.

We had no way, at the time to lock down if this was just a Door County United Way project to rob President Trump of credit, or it was something more. Following are copies of the Trump' and Door County League of Women' letters.

We ran statewide voter registration query looking for 10 or more people registered to vote at the same physical address. Here is the list for Door county. Have been finding tons of good info on the list overall. The first number is the # of people, then the address. Question to ask: is it likely that number of people live at that physical address? Check occupancy rates of location, think would the fire code permit it?

Have to look closely at all - college dorm complexes, apartment buildings. Finding WEC is not removing past occupants. So where did all the absentee ballots go such as in Dane Cty where they sent out one to each person on the list?

Example:

found 39 names at one apartment complex which only had 13 units, 1/2 of those single person apartments. Found 3,500 at a Madison dorm building - but it only allows 1,330 residences. Found 16 people living at a single family home. Most important perhaps, WEC's voter registration list many times doesn't have the apartment #. No dorm room #. No nursing home room or unit #.

We agree with Liz Harris out of AZ - this is by design. Ties into the 173,000 missing votes they found down there. AZ state

results said the 173,000 people did not vote: canvassing

knocking on their doors, these people said 'YES we did vote'.

So they threw out Trump ballots, replaced them with fraudulent

ES&S - and obtained real absentee ballots because AZ has

same issue: it is the voter registration lists. Not accurate; not

kept up to date. Mass absentee ballots sent out. A recipe

for fraud. Add in Phantom voters...and Biden wins.
Pls let me know what you find with this list:

Posted today: RMLC Alert!

Those kids embedded in the 8000 refugees at Fort McCoy have been communication via encrypted messaging with the kids of known "Trump-haters" in the US.

They are owned by the Taliban, cartels and gangs such as MS13. Their mission is to embed themselves in our schools and corporate America where they'll be extorted for the rest of their lives, much like the "Trump-hating" politicians, on both sides of the aisle, at every level of our government are today.

That is why we have to decertify the last election and get Trump back into the White House and make sure the next time all our ballots get counted.

Again! We are not dealing with the democrats who lead us through WWII and out of the Great Depression. We're at war with the Trump-hating far, far, far left, who've sold out our country and their future to Biden and the communist Chinese.

It's now far too dangerous to be fighting this fight on social media. Those who voted for Biden/Harris have brought the war to Wisconsin.

May God forgive them! The rest of the free world will never.

Posted: Papa Bear here with an introduction to RMLC - Risk Management 101:

Thanks to the Biden jockeys, who rode China's Trojan horse into the Oval Office, terrorists, drug smugglers, hackers and human traffickers are now imbedded deep within every community and county across the country.

Going forward, we're going to be posting Risk Management (RM) recommendations that'll help identify, measure and control the "Pure" and "Speculative" risks created by those who voted Clinton/Gore, Obama/Biden and Biden/Harris into office.

Risks are measured by their "frequency" and "severity." If you've been posting your hate for President Trump, it doesn't take more than once, on social media or unknowingly been messaging with drug cartels, human traffickers and terrorists, you best be prepared to recognize the suicide bombers when they come up the drive or infiltrate your workspace.

After 9-11-01, terrorist launched a series of chemical attacks using anthrax. Their problem was, they had to get the anthrax within six feet of their target to affectively kill their target. Now that China is running the White House, terrorists need only mask up their targets and introduce their next "gain-of-function" virus.

Once again, God forgive those who voted for Biden/Harris. The risks they've now created will potentially destroy our county. Remember that, when you "go to the polls" and vote.

In the short term, we've documented enough voter fraud to decertify the last election and put Trump back in command.

In the long term we're going to be mission focused on driving every Trump hating politician out of office. And yes, on both sides of the aisle.

Remember, when Obama/Biden released the Taliban terrorists out of Guantanamo and when they give pallets of laundered currency to our enemies, while they beheaded our solders, raped our women, burned our flag and chanted "Death to America."

Not one democrat can say they were not told, not one Trump hating politician can say they didn't know.

The only way we'll get our Americans out of Afghanistan is by getting Trump back into the Oval Office. The only way that'll happen, before they're all killed, is for the Supreme Court to decertify the past election.

Let me make it perfectly clear. The democrats stole the last election, opened our borders and allowed drug smugglers, human traffickers and terrorists to get a strong hold deep within our borders.

They now have abandoned thousands of Americans deep behind enemy lines and turned over \$billions, if not \$trillions in high tech military assets to our enemies, not unlike Obama/Biden did throughout their both terms in office.

At this point my best advice is secure the perimeter around your home and family, schools and churches, and get ready for the next 9-11-01 suicide attack.

I recommend the Credit Union directors of education dust off our RM materials especially those focusing on how to respond to a biological/chemical attack, how to evacuate buildings during a bomb threat and how to establish "defendable zones" in credit union buildings, schools and public squares.

I also recommend you ramp up training on how to conduct a mass evacuation as well as search and rescue operations.

Beware of who you trust, especially those who put signs on their lawn saying "Trust us, we're the party who will bring peace and justice to our county."

FYI: I keep going back to those signs, because the Door County democrat party flooded their lawns with those signs throughout the campaign.

At a minimum! Every democrat running for office should first have to go through a primary. We need a strong and health two party government and there are many highly qualified democrats to choose from, but they are just not in office at this time.

Am I wrong? Look at what they've done to our country.

We're in the final stages of proving how the Biden jockeys stole the election. Unfortunately, the probability of another terrorist attack has increased a thousand fold since Biden took office.

As outlined in Risk Management #101, the risks the Biden jockeys created by stealing the election are enormous. It's no understatement to say, they have brought us to the beginning of WWIII.

Chinese Nationalist

FOR IMMEDIATE RELEASE

August 17, 2021

Yvonne Cai is a Chinese Nationalist who programmed many of the Dominion Voting Systems in the State of Wisconsin. All the firmware computer programming for Wisconsin’s elections, for those counties using Dominion Voting Machines, was written by Serbian programmers. The Wisconsin Election Commission knew all of this for more than a year yet did nothing. In fact they have been covering it up from us Wisconsin citizens for at least three years.

Yvonne Cai was the key person for Dominion to program the Project Files for the November 3, 2020 election. Project files are the software updates necessary for each new election. They contain such things as the names of the candidates running for office, party

affiliations, school referendums, the ballot design itself - everything you see on a paper ballot when you cast your vote. Miss Cai worked as an employee of Dominion out of their Toronto, Canada office. Thus the vast majority of the election software programming came from outside the United States. When Wisconsin voters fed their paper ballots into the Dominion Voting tabulators their votes cast were read and processed by Chinese Nationalist Yvonne Cai's work.

It was not only for the November 3, 2020 election as Miss Cai performed other work for

Dominion as far back as 2012. Cai is an educated and and trained Software Engineer. She obtained a Masters Degree in Software Engineering at Western University in 2017, and her Bachelor's of Engineering at the University of Electronic Science and Technology of China.

She began working at Dominion Voting Systems in Toronto at least as early as 2012. She performed firmware programming work for Dominion in 2012

and

also in more recent years. Firmware programming is the computer software for the internal hardware components of the voting system machines. Cai left Dominion Voting a few months after the November 3, 2020 election. Her whereabouts are unknown at this time.

1 of 4

Hundreds of emails were reviewed for this press release sent to Yvonne Cai by numerous Wisconsin election Clerks. Cai used the email address of yvonne.cai@dominionvoting.com.

Cai emailed these Clerks using Dominion Voting systems on a regular basis. This is all very troublesome as the President of Dominion Voting Systems, John Poulos (GeorgaKopoulos is his given last name) admitted in a video that their voting systems are connected to the internet. Poulos is from Greece. This video was posted on Youtube, but they blocked it. The address of

the

video is <https://www.youtube.com/watch?v=u9zLI2P3TG8>. These Wisconsin election clerks

knew, or should have known, they were dealing with a Chinese Nationalist and obtained their election programming from outside the United States. We ask how they received delivery of the programming for each new election from Toronto Canada down to Wisconsin? And did each Clerk view the software code delivered? It may surprise many people but Wisconsin State law, per statute, prevents any person including the election Clerks from viewing the software and firmware which counts our votes. The Wisconsin Election Commission knew all this information also, yet never disclosed it to us citizens. Some of Cai's work is shown on page 3 of this manual:

The vast majority of the firmware computer programming for the Dominion Voting machines

used in Wisconsin elections was performed by Serbians in Belgrade, Serbia. Goran Obradovic and Bojan Djordjevic (also Dordevic) are listed as inventors on many of Dominion's patents.

Their names can be viewed by conducting a patent search on the US Patent and Trademark website. Mr. Obradovic in particular holds the Title at Dominion of the Director of Development.

A few of the patent numbers with Mr. Obradovic's name on them include: 9870667,

9870666, 9710988, 8195505 and there are many more. Neither Mr. Obradovic or Dordevic are American Citizens.

Wisconsin voting systems manufactured and serviced by Dominion have a much deeper tie to Belgrade Serbia. As stated the firmware is programmed by Serbians. Their office is located at Osmana Dikica 18, 11060 Beograd-Palilula Serbia. The name of that division or sister company is Predstavništvo Dominion Voting Systems Corporation Beograd, from a review of their corporation filing papers from the Government of Serbia. The software, firmware and support staff at this Dominion location includes upwards to fifty people: Mirjana Elez the Human Resources Manager, Ruzica Matic Product Owner, Slavko Duricin Microsoft SQL expert, Neda Vukman Software Developer, Nenad Nikolic, Bojan Janjic Software Engineer, Ivan Bulut Senior Software Engineer, Srdjan Saric Software Developer, Bojan D. Software Engineer, Branko Kolasinovic Senior Software Engineer, and many more software programmers are stationed there. Some of these people are no longer employed by Dominion.

3 of 4

When we Wisconsin voters feed our paper ballots in a Dominion machine the votes are not counted nor tabulated by our election Clerks. The Clerks have never even viewed the software or firmware code which really counts and totals our votes. Our votes are being counted by the hidden computer code written by a Chinese nationalist and Serbian programmers.

CORTES: Welcome To Joe Biden's American Carnage.

In his Inaugural Address, President Donald J. Trump promised that the misery inflicted on everyday Americans by globalists, via constant war and economic abuse, would end with a new America First agenda. He pledged, "this American carnage stops right here and stops right now." And stop it did, as Trump ended senseless wars and ushered in record-setting wage growth in 2019 before the CCP virus hit America like an epidemiological Pearl Harbor.

But now, under Joe Biden, the carnage begins anew, with astounding swiftness and scale, only months into his administration. Biden's failures exceed even the most dire prognostications of his fiercest critics prior to him assuming the presidency under dubious electoral circumstances.

RMLC Heads up! President Trump made America proud again, strong again, independent and free again and in eight months, Biden has brought us to our knees, opened our borders, destroyed our energy independence, sold us out to China and destroyed the American dream for generations to come. What he hasn't and never will be able to destroy is our will to fight back. Ask any veteran, except those cowards who voted him back into the swamp, what's worse than fighting and dying for our freedom and independence and they'll tell you, it's living without either. So far he's taken over the main street media, blocked Trump off Twitter, Ron Johnson off U-tube and hundreds of my fellow conservative Christians off Facebook. I give you my word, "We the People" are hitting the ground, locked and loaded and determined to drive every Trump hating politician, on both sides of the aisle, out of office. We'll be launching three websites, all focused on getting rid of those responsible for embedding terrorists deep inside corporate America where, with a simple change in their virus they'll be able to keep those unwilling to fight on their knees forever. All three sites will be supported by our www.thumbsupacrosswisconsin.com, www.thumbsupacrossamerica.com, www.thumbsup2trump.com, www.cops007.com, and www.doorcountyveterans.com. Beware! The Biden jockey's have bought up similar domain names and have redirected and farmed them to their advantage, like the Door County democrats did during the campaign, when they rediverted Google searches for the Republican headquarters over to their Democrat

Party headquarters, They were the same democrats, who put "trust us, we're the party of justice and peace." For example don't be surprised if cops007 has been redirected to China. FYI: Sites like www.thumbsupacrossamerica.com should have our key code under my picture. Remember! We're not at war with the democrats who lead us through WWII and out of the Great Depression. We're now dealing with the Trump hating Biden' democrats who've brought us to the brink of WWIII.

Unmitigated Disasters: Biden's First Months Have Been Some Of America's Worst.

<https://thenationalpulse.com/analysis/unmitigated-disasters-bidens-first-months-have-been-some-of-americas-worst/> **The presidency of Joseph Robinette Biden has been an unmitigated disaster from the get go. There's no other way to say it, and the political left knows it as much as the right.**

Afghanistan may be the latest example of how Biden and his team (actually, mostly his team) took a Trumpy idea and butchered it. The same goes for his coronavirus strategy, his U.S. border policy, and even with the "infrastructure" bill.

August 15, 2021: May God forgive them!

Those who took part in the www.frankspeech.com symposium now know how they first padded the voting machines with Ghost voters and then hacked into the machines throughout the election to manipulate the vote count, in Wisconsin.

In affect, they were systematically shifting votes to Biden, throughout the night, right up until and after the polls closed. In Wisconsin, we proved they were moving ghost votes from northern Wisconsin into Milwaukee and Dane County.

We're now going to use the 1,279 ghost voters we ID's in Door County alone (those registered voters, over 106 years old, having current out of state driver' license and voting from the same resident' address) and ID the Biden jockeys who were involved.

Let us Pray:

May God forgive the Biden' democrats for stealing the election and voting Biden back into the Washington swamp.

May God forgive Biden for turning Trump's strategic withdrawal from Afghanistan into another Obama/Biden, lead from behind disaster.

May God forgive the Biden' Christians who turned a blind eye to his taxpayer funding of abortion and the Biden' women who voted for Sharia Law and the Biden' parents who now raise their children like Joe raised Hunter and the Biden' teachers who are corrupting our students with their BLM propaganda and Critical Race theory.

May God forgive the Biden' Trump hating politicians, who abandoned our mission at the Capitol and the Biden' democrats who've sold out our freedom of speech to the main street media along with our independence to the communist Chinese.

Post Today:

RMLC Update August 15, 2021:

May God forgive them!

Those who took part in the www.frankspeech.com symposium now know how they first padded the voting machines with Ghost voters and then hacked into the machines throughout the election to manipulate the vote count, in Wisconsin, thereby shifting Biden votes from rural voting locations in northern Wisconsin to Milwaukee and Dane County.

We're now going to use the 1,279 ghost voters we ID's in Door County alone (those registered voters, over 106 years old, having current out of state driver' license and voting from the same resident' address) and ID the Biden jockeys who were involved in this one type of voter' fraud.

Let us Pray:

May God forgive the Biden' democrats for stealing the election and voting Biden back into the Washington swamp, the Biden' veterans who voted for him, turning Afghanistan into another Vietnam, the Biden' Christians who turned a blind eye to his taxpayer funding of abortion, the Biden' women who voted for Sharia Law, the Biden' parents who now raise their children like Joe raised Hunter, the Biden' teachers who are corrupting our students with their BLM propaganda and Critical Race theory, Biden's marines who abandoned our mission, and the Biden' democrats who've sold out our freedom of speech to the main street media along with our independence to the communist Chinese.

It didn't take long for Biden to take up where Obama left off. On his first day in office he tore down the wall securing our border, making us easy prey for the Mexican cartels. He's now busing thousands of cut-throat criminals and COVID infected immigrants a day, into the heartland of America, while he's closed our borders to our Canadian allies and masked-up our citizens, making us all sitting-ducks for the next mutation of the Fauci' virus.

Over the past three days of the www.frankspeech.com symposium, we've laid out chapter and verse, how they stole the election by systematically manipulating ballots after they were cast, yet we've heard not a word from the main-street media.

It's time to take our fight down to the county level and root out those responsible for stealing the last election. It's time to mobilize our cadre of seasoned Credit Union Risk Managers from around the world and get time involved in our now "field-tested under fire" voter-fraud auditing program.

As you've done over the past four years, keep logging those on Facebook and other social media platforms, who are suffering from Trump Deraignment Syndrome (TDS) and Social-media Trump Disorder (STD) into your offline files. They're posing

and fraud auditors and undercover affiliates to gear up, lock and load, and be ready to deploy on what I promise is going to be a hard fought battle to take back our country from the communist sympathizers embedding in our county and school boards across the country.

We've already completed a number of forensic "voter-fraud" analysis across Wisconsin and are now mission ready to call out by name, the Biden democrats who've slowly but surely torn away the fabric at the local level that holds us together as a family, quickly took over the main street media thereby depriving us our freedom of the press, while they sold out our energy independence and made our healthcare a ward of their socialist' welfare state.

Former Cardinal Theodore McCarrick – who played a critical role in shaping the Vatican's controversial relationship with the Chinese Communist Party – has repeatedly headlined events sponsored by CEFC China Energy, a Chinese government-led influence group that has counted Hunter Biden as its Managing Director, The National Pulse can reveal.

Xxx The former Cardinal, who was *defrocked* due to sexual abuse, spoke at several events hosted by the group, with excerpts of his remarks earning publication in CEFC China Energy's journal, "China Eye." McCarrick has asserted commonalities exist between Communist and Catholic doctrine along with drawing positive parallels between Xi Jinping and the Pope.

Rules for Radicals: By Saul David Alinsky

- 1) Healthcare – Control healthcare and you control the people.
- 2) Poverty – Increase the Poverty level as high as possible, poor people are easier to control and will not fight back if you are providing everything for them to live.
- 3) Debt – Increase the debt to an unsustainable level. That way you are able to increase taxes, and this will produce more poverty.
- 4) Gun Control – Remove the ability to defend themselves from the Government. That way you are able to create a police state.
- 5) Welfare – Take control of every aspect of their lives (Food, Housing, and Income)
- 6) Education – Take control of what people read and listen to – take control of what children learn in school.
- 7) Religion – Remove the belief in the God from the Government and schools
- 8) Class Warfare – Divide the people into the wealthy and the poor. This will cause more discontent and it will be easier to take (Tax) the wealthy with the support of the poor.

BOMBSHELL: Former National Intelligence Director Says 'Every Piece Of Evidence' Proves COVID-19 Leaked From Wuhan Lab.

Former Director of National Intelligence John Ratcliffe asserted that "every piece of evidence" he witnessed – including the "most sensitive intelligence" – demonstrates that COVID-19 originated in the Wuhan Institute of Virology.

While arguing that the Chinese Communist Party shouldn't be allowed to host the 2022 Winter Olympics in a Fox News *op-ed*, Ratcliffe emphasized how he based his theories on COVID-19's origins off of the "most sensitive intelligence" while serving as the Director of National Intelligence (DNI):

Poll Reveals Jan 6 Committee Cry Babies Undermined Support For Their Own ‘Investigation’.
Nancy Pelosi’s January 6 investigation lost even more support among Americans, with Trump being held less responsible for the events in question following the tear-filled testimonies of Capitol Police officers attacked on January 6 during this week’s emotive hearing, according to a poll from Morning Consult.
Support for the House probe has been steadily declining among voters affiliated with all political parties. In June, the poll registered 66 percent support for the Jan. 6 investigation. Last week support fell to 58 percent. After the Capitol Police testimony of this past week, support amongst American voters fell to 53 percent.

A group of far-left activists attacked a press conference outside the Department of Justice today, as Congressional Democrats sat in a secure committee room less than half a mile away, complaining about the political violence on January 6th.

As Capitol Hill police openly wept inside the secure Capitol, Congressional members Louie Gohmert, Marjorie Taylor Greene, Matt Gaetz, and Paul Gosar were attacked at their press conference outside the Department of Justice. Door County BLM/Democrat Vandalism

May – September 6th 2021 Ephraim vandalism:

Quincy Gibson is the 19 year old black guy who vandalized the GOP Door County office last year...he also spray painted Trump signs in Fish Creek. Note: the Sturgeon Bay police did not want to show his photo, I believe because the guy is black. They didn't even want to release his name. So I did a public records request last year for the Citation - the next day it was in the news of who the guy was. :) Citation attached.

Here is the Sheriff's citation against two of the bad people taking Trump signs down and trespassing. The license plate is BR86349 registered in the State of Illinois. The white guy is Ryan W. Morris - driver's license is from Massachusetts. The woman is a hispanic named Monica Cecilia Fabos.

Both at the address of 514 S. Campbell Avenue, Apt. 3 Chicago, IL 60612. He has a MA area code phone number; hers a Northern IL phone number.

Here is 3rd trespass citation. Young girl of sister bay.

Ok here is more information: a young couple were taking down Trump election signs on September 6, 2020. Up in Ephraim. It was called that day by Papa Bear, so she would be the Complainant. She found the car at an apartment complex later that night in Sister Bay. As I understand it a Deputy went over to that complex on the next day (and might have been two days later), and a trespassing citation was issued. Thus, there should be an Incident report for the day of September 6, 2020. Then a trespass citation issued on Sept. 7 or 8th. I request both please. The car of the trespassers with the license plate shown is attached. Thank you,

https://w3.newsmax.com/General/NMM/Offers/Dark-Agenda-Disc-Danger?dkt_nbr=6F1212brs9t6

The far left has a dark dream, both Jews and Christians are in grave danger.

Dear Reader:

We knew it was bad before but it’s getting worse . . .

. . . escalating to dangerous levels.

This is everything [we’ve been warning you about](#) — [and it’s happening right in front of our faces!](#)

The left’s anti-Christian and anti-Semitic agenda is being ramped up dramatically . . .

. . . and it's frightening.
Just recently a San Jose pastor was threatened with jail time if he held church services, and his church slapped with \$1 million in fines.
This is an egregious and sickening violation of religious freedom.
Why?
It's all because of the **massive and growing movement by the left to systematically dismantle religion and banish God** from the lips, minds, and hearts of the faithful . . .
. . . remove His holy name from our civil society, even destroying religious symbols and artifacts along the way.
Think about this:
Many churches and synagogues have been forced into lockdown for nearly a year — and yet you can still go to Walmart or your favorite grocery stores where throngs of people are shopping, side by side. Thousands and thousands of football fans could attend the Super Bowl and flood the streets in one big party afterwards.
And the media was so proud of tens of thousands of BLM protesters last year who rampaged through our cities . . .
And yet, in San Francisco the Roman Catholic archdiocese was slapped with a cease-and-desist order saying some churches violated a local ban on large outdoor gatherings.
Oh, but it gets worse . . .
This is the war on Christianity, and this is exactly what the left has dreamed about for decades. Everything you need to know is exposed inside David Horowitz's runaway bestseller, **Dark Agenda**. First you should know, David Horowitz is not a Christian. He is a Jew.
But he calls it like he sees it. And he's deeply troubled by what he sees . . .
Horowitz names names — Obama, Hillary, and the big media pushing this secular agenda.
There are new ones now: **Joe Biden, Kamala Harris, Alexandria Ocasio-Cortez, Andrew Cuomo, and more. They want a Godless society.**
They're totally cool if thousands want to riot in protest against Trump, breaking all COVID-19 rules. But if you want to go to church or synagogue — with social distancing — they want you arrested!
As Horowitz explains, **President Trump has been at the very epicenter** of this battle between the forces of good and evil right here in America.
And Horowitz says President Trump, out of office, will actually be a bigger threat — and a bigger target — for the far left.
We must fight back, or our children and generations to come will live in fear of expressing their faith. Find out why Mike Huckabee, Tucker Carlson and Mark Levin say you must read **Dark Agenda**, read more below or [Go Here Now](#).

US Border Patrol (BP) recently arrested gang members, sex offenders, and over a hundred individuals involved in human smuggling, also seeing sharp increases in the number of arrests and apprehensions necessary to protect the US border under the Biden administration.

Border Patrol agents in the Rio Grande Valley Sector (RGV) arrested four criminal migrants this week. On June 21, one of a group of 39 apprehended migrants was a 23-year-old El Salvadoran national and active member of the Mara Salvatrucha (MS-13) street gang. The gang member “has a lengthy criminal record involving multiple arrests for aggravated assaults, criminal trespass, and domestic violence,” and had been removed from the US in 2018.

So-called "reporters" have been sending threatening messages to people, demanding they invent fake stories about Congressman Matt Gaetz in exchange for their names being kept out of the news.

The office of Rep. Gaetz (FL-1) released the messages to [John Solomon's Just The News on Tuesday](#), appearing on the veteran reporter's [podcast](#) on the same day. "[T]ime and time again, what a reporter will do is contact someone that maybe I've had a relationship with, maybe I haven't had any relationship with, maybe I've only been in the same room with one time," Gaetz told the John Solomon Reports podcast. "But they'll say to a person, 'You know, look, we are going to write your name into a story that will have sex trafficking and Matt Gaetz in the headline, unless you provide us some bad information, some embarrassing conduct about Gaetz. And if you do that, well then your name will be protected, your reputation will be protected.'"

One stunning example is that of Mother Jones reporter Matthew Phelan, who has harassed a number of Gaetz-world figures demanding they invent narratives to keep themselves out of the news and out of trouble with law enforcement.

Phelan contacted a young woman from Gaetz's district, who after their conversation sent Phelan an email reiterating how she had "never been harassed by Matt Gaetz... Any interaction with him or his

office has always been respectful and kind. You stated someone told you I received some kind of death threat and that's just a false accusation."
But reporter Phelan wasn't interested in that.

We need to take on the failing policies of the left on a variety of fronts. And so last week, I authored a piece featured in The Hill. The Biden Administration and the Left are destroying real opportunities to earn wages, start careers, gain skills, climb the ladder, and live the American Dream. Our economy will grow and prosper when the Biden Administration and Congress get out of the way. Read more of my thoughts on the back door to universal basic income here.

I spoke further about this piece and the issues with Biden's economic policies with Milwaukee radio show host Dan O'Donnell. You can listen to that interview here. I also spoke to the David Webb show and to the True Story with Mike Slater on this topic - please give a listen when you have a chance. We, as conservatives, need to point out the fact that the Left is destroying opportunity for the people they claim they aim to help.

Finally, it's time for another podcast episode! We're launching another new episode of The Right Idea Podcast today. June is National Dairy Month, and today's episode features a conversation with the LaClare Family Creamery – a goat farm and creamery operated by Larry and Clara Hedrich. What started as a hobby and a valuable life lesson for their children has grown into a successful Wisconsin business. Our conversation ranged from business challenges and regulatory issues to favorite goat products (we even learned about goat yoga!). We hope you'll take some time to listen here.

Our No Better Friend Team continues to travel the state. We were in Rochester for the 155th Annual Memorial Day Parade and Observance (the nation's oldest continuously running celebration!), we were in Madison last weekend for the 2nd Congressional District Caucus, and we were in Muskego for a 'Back the Badge' event that benefitted the Muskego Police Department K-9 Unit and the Muskego Food Pantry. We look forward to seeing more of you around the state in the weeks to come!

New York City is in decay under Mayor Bill de Blasio and likely seeing its final days, journalist Seth Barron told Fox News’ Tucker Carlson Friday night.

Barron discussed his new book, “The Last Days of New York: A Reporter’s True Tale” (Humanix Books), detailing how America’s once most noted city has seen crime and homelessness soar as thousands of taxpayers have fled.

“It’s a grim story,” Barron told Carlson. “De Blasio and his progressive tendency have essentially hollowed out what was a prosperous and safe city. They did this by spreading an ideology of division, class hatred, racial hatred, racial resentment, and frankly, they neutered the police and handcuffed them.”

Barron added that New York City, under de Blasio, has lacked fiscal responsibility, ruined its school system and let political corruption run rampant. Barron noted that a potential new mayor will have a difficult time rolling back many of de Blasio’s programs, since many were enacted by legislation, such as bail reform and criminal justice reform.

When asked whether any new mayor would deal with the city’s rampant homelessness and vagrancy problems, Barron said that no one really wants to deal with the problems of “clearing people out.”

He noted that a new mayor would face multiple problems, including “dealing with the mentally ill.”

He suggested officials would rather impose unsustainable fixes to the problems, such as insisting that developers have to give 25% of new units to the homeless, or use hotels or empty commercial spaces as housing.

On Day 111, the Colonial Pipeline shutdown draws attention to just how pipelines work—but that’s not the “prism” we’re using, White House says.

White House: Pipelines Are “The Best Way To Go”.

The White House was forced Tuesday to [beg](#) Americans in states affected by the Colonial Pipeline shutdown not to hoard gasoline, with energy secretary Jennifer Granholm [calling](#) the situation a “supply crunch,” but not a “gasoline shortage.” Governors throughout the southeast [declared](#) states of emergency and took measures to facilitate fuel delivery and protect customers from price gouging. Virginia, North and South Carolina, and Georgia were especially hard-hit, reporting 42 to 65 percent of each states’ gas stations depleted. Gas prices are also soaring, reaching a national average of \$3.00 per gallon as of this writing. The White House [issued](#) a one-week waiver allowing certain states to use noncompliant fuel to ease shortages and a temporary hours of service exemption.

Asked whether the White House is “rethinking their opposition to new pipeline projects since one really important one goes offline and gas stations start running dry,” press secretary Jen Psaki replied, “I wouldn’t say we look at it through that prism... We look at it we analyze both the economic impact as well as the environmental impact. And that will certainly remain the case, but we look at each pipeline project individually.”

Cybersecurity Is “On The Mind of The President”

In light of the attack on Colonial Pipeline, Psaki was asked Tuesday what cybersecurity measures the president intends to add to his infrastructure proposal, since there currently are none. Answer: “It’s on the mind of the President.”

“As we work and have discussions with Congress and as we finalize details of the American Jobs Plan, we are talking about investing in critical infrastructure. And, you know, we’ve looked at, for example, what we saw in Texas and the need to better protect and better prepare for even events like that—

weather events—where infrastructure could have been better protected. And certainly, ensuring that cybersecurity is a part of that conversation is on the mind of the President and one he'll look forward to his team having with members and with staff on the Hill moving forward.”

RMLC Answer to your questions:

I was asked, why we've gone undercover.

Drug lords and human traffickers, gang leaders, wife beaters and dictators all use threats and intimidation to keep drug addicts, hostages, gang members, and victims of rape, extortion, child abuse, wife beating and voter fraud in line.

Biden is now flying plane loads of undocumented unaccompanied minors north away from his crisis at the border and into his sanctuary cities and the homes of unsuspecting faith based organizations in the Midwest.

Many are carrying the Facebook pages, website addresses, school enrollment forms and employment applications of known Trump hating Biden supporter's who'll offer them a safe haven and place to hide out.

Embedded homegrown terrorist cells, street gangs and drug houses are gearing up and waiting for Biden's open border' "catch and release" policies to kick into high gear.

In less than 120 days, Biden has taken over the main street media, demoralized and demonized our police and threatened anyone who dares stand in his way.

Biden's relentless attack on President Trump, is nothing more than a diversion from the reality, while he turns our country from free market capitalism into a socialist welfare state. We're now living the nightmare created by those who voted him back into the Washington swamp.

Thousands, soon to be millions of unaccompanied minors and once fiercely independent Americans are now convinced, if they step out of line their lives will be ruined forever.

Even though we've proven, beyond any reasonable doubt the election was stolen, the odds are slim we'll be able to overturn the election.

Biden has succeeded in turning our country over to the Chinese and intimidated just about every judge, including our supreme court into running for cover. He's eroded our energy independence and paid ransom to hackers just to keep the oil flowing.

Remember, it was Obama/Biden who sold guns to Mexican drug lords, paid ransom to release their hostages and gave billions of laundered currency to our enemies while they beheaded our soldiers and chanted "Death to America."

So why have we gone undercover? It just another Risk Management strategy "We the People" will be using to root out those who've brought our country to its knees. It's an RM strategy to give a voice to those who've been driven into hiding.

It's just another RM strategy we'll use to regain our freedom, assert our independence and take our country back to where we were just a few months ago.

RMLC Update: PLEASE READ!

As of last night, we rapped up our investigation into voter irregularities reported in Wisconsin's 8th Congressional District.

I want to make it perfectly clear, we found no evidence that any county clerk in the 8th district knew of or was directly involved in what may prove, when all evidence is reviewed in its entirety to be voter/election fraud.

As I said in a prior post. Every time a thief is caught, many of their closest friends, family and fellow employees will wonder why they were so blind as to trust them.

While we did find contracts that forbid onsite access to voting machines and software, we also found evidence that voting machines could be and it appears were accessed and monitored from remote locations outside the building, which means they could be accessed and monitored from anywhere in the world.

What we found that's most revealing was a history of well orchestrated pressure brought on counties to purchase the Dominion voting machines and software dating back to the Clinton/Gore administration. An indirect link was also made between the Clinton's, the Biden's and the less then reputable owners/investors in voting machines used around the world.

That's it. Let the chips fall where they may. Our focus will now turn to rebuilding our veteran organizations across the state and rebuilding the "Public to Private" partnership mobilized after the 9-11-01 terrorist attacks in NYC.

It's estimated close to two thousand unaccompanied minors are already in Wisconsin. FYI, 17% of the MS13 gang members arrested in Wisconsin came into our country as unaccompanied minors during the Obama/Biden administration.

Faith based organizations, who've opened their doors to "undocumented" unaccompanied minors are going to be providing a petri dish for violent gangs and homegrown terrorist organizations.

RMLC point of order:

We're about to come to the end of the investigation into the voting irregularities in Wisconsin, so I want to make it very clear the vast majority of County Clerks and pole watchers across the state had no idea who they were dealing with nor the hot water they were getting into, when the Biden' campaign convinced them they could be trusted.

I can tell you from first hand experience, the toughest night in any investigation, is the night before you have to layout all the evidence and confront the guilty party.

Not, because you'll be confronting someone who deserves to be locked up, but because so many trusting, good and honest fellow employees are going to be caught up in the guilt they'll feel, knowing they should have seen it coming, the fear they'll have wondering what's coming next and a sense their future might be spinning out of control.

While some may make light of the voting irregularities and pass them off as business as usual, the loss of our faith and confidence in our elections could very well destroy our democracy.

Please remember, for the sake of those who've been duped by the Biden campaign, the vast majority of our elected officials had nothing to do with whatever level of voter irregularities come to light over the next few months.

RMLC "Words of Wisdom"

Your reputation is your most valuable asset. Without it, you're not going to climb the corporate ladder, get the better job, or afford the lifestyle most only dream about.

I've learned over 50 plus years teaching Risk Management that few have implemented the internal controls or audit controls I recommended to safeguard against the loss of someone else's money, but convince them, it's their reputation that'll be on the line if something goes wrong and they'll do everything you recommend.

Unfortunately, now every time we catch a thief, many totally innocent personnel up and down the food chain suffer some humiliation and one heck of a lot of guilt the moment the case breaks wide open.

That's exactly what's going to happen the moment the Biden campaign and election irregularities turn into full blown campaign and election fraud.

Expect the Biden camp to come out swinging to divert our attention away from his latest scandal. Mark my word, he's going to accuse President Trump of everything from again colluding with the Russians to cheating on his taxes. That's what crooks do when they're pinned down.

The saddest part of all this is so, so many good and honest frontline government employees are going to be caught up in the Biden finger pointing.

We'll do everything we can to support, protect and defend the government employees up and down the chain of command who Biden will falsely accuse of culpability to save his mangy hide.

Going forward, we'll be focusing on the internal controls and audit controls needed to sure every voice is heard and every vote is counted during the next election.

We're also going to be looking into the national security risks created by our out of control national football, baseball and basketball leagues.

RMLC "Words of Wisdom"!

In over 50 year teaching Risk Management internal and audit control procedures, I found not one person who'd listen to, let alone implement the recommendations I made.

That is, not until I convinced them doing what I recommended would protect their most valuable asset, their reputation.

Unfortunately, now that we've benchmarks Biden over his first 107 plus days in office and thousands of terrorists, drug pushers and human traffickers have crossed the county line, and worse yet, we now can prove he stole the election, so, so many good and honest Biden voters are going to lose their reputation.

While our workshops will continue to investigate the crime and corruption in the Biden/Harris administration, our focus is going to be on putting you the voter in a position to always be able to defend your reputation.

Talk about a lost reputation. Who would ever have thought they'd have to pass a law requiring the NFL and NBA, etc. to come out of the locker room and stand for our National Anthem? Curley Lambeau was my neighbor grown up. Knowing Curley, he'd fire the lot of them and start over from scratch.

Maybe this link will shed some light on how far these so called national leagues have fallen and will only fall farther under the Biden administration.

Day 106: Press Secretary admits she baby sits Biden to prevent him from speaking to the Press: <https://thenationalpulse.com/analysis/on-day-106-jen-psaki-admitted-she-babysits-biden-to-stop-him-speaking-to-the-press/> On Day 106, Jen Psaki Admitted She Babysits Biden To Stop Him Speaking To The Press.

On Day 106, Biden's press secretary admitted they don't actually "recommend" their boss often take questions from the press.

Can We Get *Another* Fact Check On That?

President Joe Biden made stops Thursday in New Orleans and Lake Charles, Louisiana, as part of his "Getting America Back On Track" tour. The White House didn't learn its lesson from the "19 million jobs" flub, and the president falsely **claimed** that his infrastructure plan would create 16 million jobs.

"All the economists, including the liberal as well as conservative think tanks, point out what we'll create when we pass this Jobs Plan — we'll create up to 16 million good-paying jobs," Biden said. Biden **inverted** the error made earlier by administration officials including Secretary of Transportation Pete Buttigieg, misquoting a Moody Analytics study that found the U.S. economy would add 19 million jobs total through 2030. 16.3 million of those are already expected *without* an extra boost from the infrastructure plan.

Biden also misstated the name of his own coronavirus relief package, calling it the "American Recovery Act."

DHS Progress Pics Don't Tell The Whole Story.

Texas Democratic Rep. Henry Cuellar doesn't **buy** the Biden administration's photo evidence that the critical influx of unaccompanied migrant minors is being swiftly resolved. Biden's Department of Homeland Security (DHS) released photos May 3 showing that the soft-sided compartments that were recently **overpacked** with young arrivals are now vacant.

"All they're doing is they're moving kids from one tent to the other tent and saying, 'Oh, they're not in the Border Patrol [custody],' but they're right next door," Cuellar said.

In a statement and photo release, DHS **announced** that "These photos demonstrate the tremendous progress that DHS and its partners have made to safely and efficiently transfer unaccompanied children out of CBP custody and into the care of the Department of Health and Human Services."

While the Biden Administration may have met the legal obligation that children be moved swiftly out of CBP custody, it is **rushing** to open emergency shelters to hold the 22,000+ children who are now in HHS custody.

Psaki: We Try To Stop Him From Taking Questions.

Press Secretary Jen Psaki appeared on the May 6 episode of "The Axe Files" with David Axelrod and provided insight to the inner workings of the White House press shop under Biden. We're receiving reports from long time democrats, who now realize they got caught up in the "let's hate President Trump at all cost" movement. They worry they'll now be held accountable.

An appropriate RM recommendation at this point is:

Refer to everything you're reporting as "an observed irregularity". Be specific in your facts. For example:

Report: I went to vote at the polling station at 123 North 10th street, Anytown USA, at 5:30 p.m. on November 3, 2020. George, one of the pole takers, told me I had already voted by absentee ballot. I had not. I didn't request an absentee ballot, nor did they have any evidence that I had sent one in. If in doubt, just email either thesting@RMLearningCenter.com or thenightstalker@RMLearningCenter.com.

Don't worry! We all make mistakes. We all get caught up when campaigning for the candidate of our choice. We know there were many pole takers who got intimidated by those overseeing their polling location.

I assure you, we're receiving reports from concerned voters on both sides of the aisle.

Remember! This is not democrats vs. republicans. It's Trump hating Biden jockeys against the rest of the free world.

Reports of the voting fraud and irregularities in Wisconsin just keep rolling in.

We now can connect the local BLM group who cut up and painted over the Trump 4'X8" signs in Door County, as well as those who attacked the Republican headquarters in Sturgeon Bay to BLM members out of Illinois and Ohio.

We've also tied down how they diverted the Google searches for the republican headquarters in Sturgeon Bay to their democrat headquarters in Sturgeon Bay.

More important, we now have irrefutable evidence that most if not all the dominion voting machines in Wisconsin, specifically in Door County were being monitored in real time by a Chinese national located in Canada, who was linked to a number of locations overseas.

We also have growing evidence that voters voting at some voting locations in Door County were told they had already voted. At some locations they were told they had already voted by absentee mail-in ballots, but there was no evidence, meaning retained envelopes to back up the claim.

Again! We are NOT dealing with the democrat party of old. We're now being scammed by a small group of Trump hating "Biden jockeys" who saw fit to do everything they could to ride Joe back into the swamp. Why? They just hated living in a free and independent "United States of America."

Remember: If you have evidence of voter fraud or "irregularities" in Door County, email your concerns to thesting@RMLearningCenter.com

RMLC Update: My Risk Management Learning Center is going undercover. It's too damn dangerous to criticize the Biden jockeys (those who rode the most corrupt politicians in American history back into the Washington swamps, or point out the crisis at Mexican border.

Biden is now confiscating's cell phones from republican Congressman visiting the borders, so they can't record what's really going on. The only way you're going to learn the truth is to listen to FOX News. If you still doubt the Biden's own the main street media, compare what you here on CNN to what everyone knows is going on at the border.

We've launched a "Sting Operation" in Wisconsin and so far in Door County alone we've uncovered voter irregularities at polling locations in Door, where voters coming in to vote on November 6th were told they had already voted and absentee ballots recorded, with no evidence a ballot was ever requested, let alone mailed back.

Again! All I can say is God forgive those who voted for Biden/Harris. You and you alone are now going to be held accountable for the thousands of drug pushers, human traffickers and terrorists coming across your doorstep.

Trump has launched “From the Desk of Donald Trump” as a place where his media communications are hosted. The clean and minimalist new platform will allow ordinary Americans access, once again, to the man who shook the political establishment in 2016. Former President Trump on Tuesday launched a communications platform, which will eventually give him the ability to communicate directly with his followers, after months of being banned from sites like Twitter and Facebook.**

The platform, “From the Desk of Donald J. Trump” appears on www.DonaldJTrump.com/desk. The space will allow Trump to post comments, images, and videos.

Unfortunately, the technology appears to be run by the man who [significantly damaged](#) President Trump’s image during the 2020 campaign: Brad Parscale.

Parscale was put in charge of the campaign by Jared Kushner, before being removed after a [glaring embarrassment in Tulsa, Oklahoma](#), where Parscale was fooled about the number of people registered to attend a Trump rally.

At the time, Parscale [claimed he had over one million ticket requests for the rally](#). Most of these turned out to be a left-wing hoax and caused humiliation to the campaign.

He was quickly replaced, and had a very public meltdown, [but not before amassing a fortune at a cost to ordinary Trump donors](#).

Parscale is also now [pushing transgender candidates for public office](#).

Fox News continues:

The technology appears to be powered by Campaign Nucleus— the “digital ecosystem made for efficiently managing political campaigns and organizations,” created by his former campaign manager, Brad Parscale.

The space allows Trump to post, and allows followers to share the former president’s posts to Twitter and Facebook, however, the new platform does not have a feature to allow users to “reply” or engage with Trump’s posts.

“This is just a one-way communication,” one source familiar with the space told Fox News. “This system allows Trump to communicate with his followers.”

Trump's new platform surfaced Tuesday, after advisers had told Fox News that the former president planned to "move forward" to create a social media platform of his own after being banned from Facebook, Twitter, Instagram, YouTube, and Snapchat after the Capitol riot. It unclear, at this point, if this platform is part of those plans, or if there is a separate project underway.

The first Risk Management question on your final exam is going to be: How did the Biden Jockeys in Door County succeed in registering 100.6 % of the adult (over 18) population?

Houston! We have more than a problem, now that Biden is back in the Washington swamp.

I was born and raised in Door County Wisconsin, graduated from Gibraltar High and the University of Wisconsin, Madison campus, one of the most liberal campuses in the country. I was a staunch democrat when I enlisted in the Army and a staunch republican when I returned from Vietnam.

Consequently, your focus is on rooting the election fraud first out of Door County, then out of the 8th Congressional District and then out of Wisconsin.

I've launched Operation "Drain the Wisconsin swamps." This operation will be run "Undercover" so that every "Red-blooded Wisconsinite" will be free from being intimidated, a proven Biden jockey strategy used to suppress voter participation before, during and after each election.

For now, if you voted in Door County and experienced any voter irregularities, such as showing up to vote and being told you had already voted, that happened more than once in Door during the last election, or being recorded as having submitted an absentee ballot, but there is no evidence, or having someone offer to complete your absentee ballot after it was signed. All of the above have been reported to have occurred in Door County.

If you experience any voter irregularities during the 2020 presidential election, email your concerns to: thesting@RMLearningCenter.com. If you experienced any voter irregularities while voting in Wisconsin's 8th District, email your concerns to: thenightstalker@RMLearningCenter.com. Throughout each of the eight presidential campaigns (2004 Bush/Cheney, 2008 Clinton/Gore, 2016 Trump/Pence and 2020 Biden/Harris) we worked to uncover the corruption on both sides of the aisle and deep within the Washington swamps.

Throughout the past four years, we watched the Trump/Pence administration rebuild our Navy fleet that had been allowed during the Clinton administration and sequestration to rust away as military strength

During the first 100 days of the Biden/Harris administration (January 20, 2021 through April 30, 2021, we tracked and systematically benchmarked the Biden jockeys as they

RMLC Update: April 30, 2021 marked the end of our benchmarking the first 100 days of the Biden/Harris administration. I'll soon post a comparison between the first 100 days of the Biden/Harris compared to the first 100 days of the TrumpPence administrations.

There is no doubt, within a short 100 days, thanks to the Biden/Harris time in office, we've already lost our freedom of speech, not to mention our freedom of religion and many of the rights guaranteed by the 2nd Amendment.

There is no doubt, thanks to the Biden/Harris failure to secure our borders, thousands upon thousands of drug lords, human traffickers and terrorists are now streaming into our country and heading north into the heartland of America.

In an ever increasing pace, those who voted for Biden Harris have laid our country wide-open to the next Al Qaida terrorist attack. It's only a matter of time.

We're about half way measuring the depth of the corruption not only at the state, but county and school board level or government.

House Democrats introduced a bill to study "inequity" among LGBTQ servicemembers and veterans, creating a commission to advise the government on how to best "apologize" and "educate the American public about institutionalized and government-sanctioned discrimination."

Letter to the editors: How inept and ignorant are the Biden Jockeys? It they're allowed to burry our next generation in trillions of dollars of debt, we'll be subservient to corrupt union bosses for the rest of our existence. We were freed by Walker back in 2016, when finally after years of battle, We the People were freed by the "Right to Work", a bill that allowed, in a free market economy to work where, when and for whom we chose.

If we allow the Biden jockeys to dig us back into debt, we'll be slaves to that debt forever. It's rule # 6 in the Obama/Biden/Clinton/Gore and Alinsky's 8 rules for the radical take-over of our country. God forgive the Biden Jockeys who rode the Trojan horse of slavery back into the swamp.

RMLC Red Alert! : To my fellow Vietnam vets: Do you remember John Kerry, during the Vietnam War? We considered him to be “Hanoi Jane with a kick-stand.” He appeared in front of a joint session of Congress accusing our front-line troops of beheading captured Vietnamese after wiring their testicles with electrodes, not to mention he accused us of raping and killing innocent civilians. During the Clinton/Gore administration he supported sequestration and the defunding of our Central Intelligence Agency (CIA). While Secretary of State during the Obama/Biden administration he orchestrated the laundering of billions to Iranian terrorists, while they beheaded our troops, kidnapped our students and chanted death to America. Read the Wall Street Journal! Throughout the Trump/Pence administration, he’s been leaking Israel’s covert operations to the Iranian’s, not to mention working with Biden as the unmasked the identity of our operatives behind enemy lines. RMLC Update: April 20, 2021

FYI: I'm on the mend and I don't need sympathy! All I need is for every red-blooded American to stand up and fight back.

It wasn't a heart attack. Monday morning 2 a.m., I was rushed to the Stoughton ER, convinced I was having a heart attack. You know the chest pains, aching jaw, night sweats and chills, shaking you can't control and sick to my stomach.

After all the tests it was decided, I was suffering from a Panic Attack, brought on by the reality that terrorists are streaming across our open borders and soon will be well positioned to launch an endless series of Oklahoma City and 9-11-01 type terrorist attacks, not to mention an endless series of ever more threatening chemical and biological attacks, keeping the world masked-up and hiding in their basements for generations to come.

In less than 100 days Biden has degraded our energy independence and eliminated millions of jobs, sold us out to the Chinese and is fast destroying our economy. He in every way possible is fast turning us into a socialist-welfare state. He's taken away the First and Second Amendments and will soon pack the courts so only his perverted justice will prevail. Did you see Maxine Waters call for riots in the streets, if they don't get a conviction.

Tomorrow is my 76th birthday, after which I'll complete the final 10 days of our "Benchmarking" the Biden's first 100 days in office.

And then, over the summer, I'll put together a series of RM workshop similar to those we offered after the Oklahoma City and Boston Marathon bombings as well as the 9-11-01 attacks in NYC.

In the meantime, I'll be writing a series of RM articles titled "The Trojan Horse" laying out how those who voted for Biden/Harris were able to ride him back into the Washington swamp and how we must now hold them accountable for destroying our American dreams.

For now, God forgive them for what they've done. The rest of the free world must never. Again! I don't need any sympathy, we just need to wake up and vote everyone of them out of office in the next election.

RMLC Update: Twelve more days and we'll have completed the first 100 day Risk Management' benchmarking of the Biden/Harris administration. Thank God!

292

But first! We're all going to get through the COVID – 19 pandemic together, getting through the Biden/Harris administration in the Oval Office may prove to be the biggest Risk Management challenge in our history.

But, with God's help, a little luck and one hell of a lot of "Risk Management savvy," I assure you, we will win our country back and over the next four years, we'll grow to be an even stronger nation, a freer people and an even more fiercely independent role model for the rest of the world to follow.

Remember! England's Prime Minister Margaret Thatcher warned, *"The problem with European Socialism is eventually you run out of other people's money."*

Per God's plan, we're all living on the proverbial "Three Legged Stool. The first leg represents our relationship with our God and family, the second the stability of our family budget and strength of our national economy and the third, our physical health and emotional wellbeing.

Enter the socialists from far left! With the help of the main-street media, they commandeered the democrat party platform, quickly drove God out of our schools, public squares and family lives, weakening our first leg, all the while making a mockery out of anyone, who believes life begins at the moment of conception.

They're now fast burring every man, women and child in America deep in debt so as to weaken the second leg; so deep it'll take generations yet to be born to see the light of day; all by design to weaken our second leg.

Finally, slowly, but surely, they've shipped our healthcare industries overseas, leaving us like drowning rats waiting for a government' handout or raft to die on.

The lawn signs: "Faith over Fear" are springing up on both sides of the aisle. While both sides acknowledge a need to place our in God, only in a free market, capitalist society, do we also acknowledge a fundamental need to have faith in ourselves and the talents given to us by God.

RM Recommendation: To get around the Biden/Harris block of link posted on Facebook, just copy the first part of the link, which should still get you to the author of the post. For example, while they blocked my link to a post pointing out the fake news on cops killing BLM members

Risk Management (RM) Update: In less than 100 days, Russia is poised to move into Ukraine, China is ramping up their manufacturing of chemical/biological weapons, Little Rocket man now has missiles that can wipe out our west coast and terrorists are streaming across Biden's open borders.

Is it too real to say, the blood of our US troops, the blood of our police and the blood of our allies that'll again be called on to fight around the world is going to be on their hands.

Remember the yard signs that said: "Trust us, the Biden/Harris administration will be the party of peace peace and justice.

My RM questions for April 18, 2021 are : "Why didn't they listen" and "why did they hate Trump so much they had to steal away his second term focused on making America strong again, making America proud again, and last but not least, making America secure and energy independent again.

On July 4th, 2021, our traditional democrats will unite with republicans across the country and county by county drive the Biden/Harris socialists out of office.

Remember what he said when asked: "Should America expect another 9/11/01 type terrorist attack?"

His response: "Why take down a tiger when the "Shepherd" (referring to Obama) is so willing to lead his flock to slaughter." Remember! The Obama/Biden pulled the US out of Iraq, which did nothing more than hand Iraq back to the terrorists.

Biden's commitment pull the US out of Afghanistan on the twentieth anniversary of 9-11-01 is nothing more than Shepherd leading his flock to slaughter.

I assure you, those who voted the Shepherd back into the swamp, will point out Trump was going to have us out of Afghanistan by the first of May. What's the difference?

Biden/Obama and Harris now have our borders wide open and thousands of suicide bombers from ever corners of the globe and ready to join forces with embedded home-grown terrorist waiting in Biden's sanctuary cities.

RMLC "Heads up"! Dig out the handouts on "Managing Terrorist' Risks and Suicide Attacks " we published after the Oklahoma City bombing and the 9-11-01 attacks on at the NYC World Trade Center. Unless you're only listening to the main-street media and refusing to listen to FOX News, you have to know thousands of armed gang members, human traffickers, drug pushers and terrorists are heading into the Midwest, many already arriving at popular tourist' destinations in Wisconsin. While most will seek honest employment, the human traffickers and drug smugglers will be following the money, while seasoned terrorists will be targeting summer festivals. Why summer festivals? They offer the top five target characteristics: The ability to inflict mass casualties, attract world-wide media attention, disrupt and/or destroy the local economy, traumatize surrounding communities and undermine our sense of being in control of our own personal safety and security. This is exactly what the Biden/Harris, Trump-hating socialists, soon to be Chinese Communist have in store for everyone in our country. God forgive those who voted them into office. Wake up America. Biden has already taken away our freedom of speech, they've taken over control of Twitter, YouTube and Facebook. He's disarming and demonizing our police and now has launched a full-out attack on the 2nd amendment. PS: If you can't dig out our handouts, Read "Preventing Terrorist Suicide Attacks". I'll follow this post with excerpts from this book. We're 81 days into the Biden/Harris administration and they refuse to even visit our troops on the front-lines, let alone acknowledge they're destroying our country one day at a time. Click on the following link: Again, God forgive those who voted Biden/Harris into the White House. The world will never forgive you for what you've done.

Voting Bill: Dem want HR1 to nationalize voting system to gain federal control over our elections. Read my white paper on the electoral college. They want eliminate signature verification for absentee ballots, eliminate all voter ID which 80% of America including black people support, they want to allow other people to vote in other presincs not just their own, require registration of 16 and 17 year olds, and require same day registration making it impossible to verify who's eligible to vote, talk about individual voting not citizen voting which allows illegal immigrants to vote, they will not allow states to go over their voting records to correct them in order to remove people who are registered in multiple counties in multiple states, the states are forbidden to do it. And there are other things: Joe Biden doesn't give a damn about this country he only want to gain power for his family.

If you had an ounce of compassion you wouldn't allow children to be raped. All about party. Chain migration. They don't care about the country.

RMLC Alert: Heads up to our Credit Union Risk Managers (CURM). Dig out our “Managing Terrorist Risks” publications handed out after the Oklahoma City bombing and the 9-11-01 NYC bombing.

Like it or not, the Biden’ Jockey Facebook posts coupled with those suffering from Trump Derangement Syndrome (TDS) and Social-media Trump Disorder (STD) are leading thousands of seasoned terrorists streaming across the border, not only to their front door but to world class tourist destinations across the country.

Thousands of criminals, human traffickers, drug lords, gangs and terrorists now streaming across Biden’s open borders are heading north into tourist’ destinations across the Midwest. While most will be seeking honest employment, the human traffickers and drug smugglers will simply be following the money, while seasoned terrorists will be casing summer festivals with the following target characteristics: The ability to inflict mass casualties, attract world-wide main-street media attention, disrupt and destroy the local economy, all while escalating the fear in the community and undermining the public sense of individual freedom and personal security.

Wake up America. Biden has already taken away our freedom of speech. He's disarming and demonizing our police and now has launched a full out attack on the 2nd amendment.

God forgive those who voted him back into the swamp.

Day 72 – April 2 – 28 days to go: Biden Refuses to blame Isrial for attack:

<https://thenationalpulse.com/news/on-day-72-biden-refused-to-blame-the-nation-of-islam-for-the-nation-of-islam-inspired-attack-on-the-capitol/> **On the third Jobs Day of the Biden-Harris presidency, the White House was juggling economic messages in order to make the case for Biden's next gigantic legislative package.**

The third Jobs Day of the Biden presidency *saw* a dramatically different tone than the report that *preceded* the passage of President Joe Biden's American Rescue Plan.

"Assuming the current pace of job growth holds, employment could be back to pre-pandemic levels around the end of this year," Council of Economic Advisers chair Cecilia Rouse *wrote*. Unemployment has edged down from February, when the Biden Administration warned that at the February rate of growth, without the passage of Biden's stimulus package, "it would take an additional 25 months to get back to the number of jobs we had before the pandemic took hold."

In remarks on the March employment situation, Biden *juggled* the message that his American Rescue Plan is working with the message that it's "temporary by design"—and rebuilding the economy will require investing trillions more through his American Jobs Plan.

"On the economic front, the benefits and the impacts of the American Rescue Plan are temporary by design. It was a— it is a rescue plan," Biden said. "But as we get the economy back on its feet, we need to do the hard work of building back better for good, for—not just for a while, but for good; not just the short term, but for good. That's why I proposed the American Jobs Plan on Wednesday in Pittsburgh."

Psaki Scolds Reporter For Asking About Beijing Olympics.

Press secretary Jen Psaki did not *take* kindly to a question Friday on United States' participation in the 2022 Winter Olympics in Beijing in light of Biden's statement that he would "strongly *support*" Major League Baseball's (MLB) decision to *relocate* the All-Star Game from Georgia in response to the new voting law.

Q: The President had voiced his support for MLB making a decision about the All-Star Game in Georgia. I'm wondering, when can we expect a final determination from the President about the United States participating in the Beijing Olympics, given that he said the Chinese President doesn't have a democratic bone in his body?

MS. PSAKI: Well, I think the U.S. Olympic Committee would play a big role in —

Q: But he's weighed in on Major League Baseball here in United States.

MS. PSAKI: He actually didn't — I think — I don't know if you heard the—the answer—the question and the answer that happened a few minutes ago where we addressed this, and I answered the question. So—and I gave you a little more context, but maybe you weren't paying attention to that part.

Psaki had earlier clarified that the president “was not dictating that Major League Baseball move their game out of Georgia. He was conveying that if that was a decision that was made, that he would certainly support that.”

From Ron Hoyer: To All:

This is what we have been working towards for the past two months, a filing against the Wisconsin Elections Commission (WEC) concerning their activity surrounding the voting irregularities that occurred in Green Bay during the November election. I won’t go into all the details as they are in the 33 page complaint that is here [Wisconsin Election Commissions Complaint](#).

This complaint is not about voting machine irregularities, nor is it about voter fraud, but instead it deals with a government approving acceptance of private money and along with the money came conditions on how to run the election. You ask well what is the proof of that. Follow this link [Evidence](#) to see some 400 pages of emails that all substantiate the complaint. WE HAVE THE EVIDENCE!

So after all the various drafts of this document, we had a well-attended press conference in Green Bay today where we laid our case for the press. After Biden Gets Four Pinocchios, Psaki Tries For More.

In a press briefing Thursday, press secretary Jen Psaki [defended](#) a line of attack by her boss that had [received](#) “four Pinocchios” from *The Washington Post*.

Biden has [accused](#) new Georgia election reform laws of “[ending] voting hours early” and “[making] it a crime to provide water to voters while they wait in line.” The law simply standardizes the vague “normal business hours” standard to mean specifically 9:00 a.m.-5:00 p.m. on early voting days, including two mandatory Saturdays and two optional Sundays, with options to extend the hours. It also allows poll workers to set up a self-service water stand while prohibiting outside groups from distributing refreshments to those in line.

Asked if the White House would change its tone given that its earlier statements were not correct, Psaki [replied](#):

“No, our tone is not changing. We have concerns about the specific components of the package, including the fact that it makes it harder and more difficult for people to vote by limiting absentee options; by making it not viable, not possible for people to provide water to people who are in line; by not standardizing longer hours. So, if you’re making it harder to vote, no, we don’t support that.”

Biden Says Getting Vaccinated Is The “Godly Thing To Do.”

After musing that theology and comparative religion are among his “avocations” in a call with faith leaders, Biden [urged](#) those in church leadership to mobilize their congregations to get vaccinated.

“You know—and I don’t, you know—some people think that’s an imposition on people’s freedom. **I think it’s the—a godly thing to do.** Protect your brother and sister. That’s what this is about. It’s about protecting people. It’s a patriotic duty I think we have,” the president said. “They’re going to listen to your words more than they are me as President of the United States. When they’re in your sanctuaries, you can talk to them about what we have to do, what’s available, and not to be fearful—not to be fearful getting the vaccine.”

In addition to “the godly thing to do,” Biden added, “**I think [getting vaccinated is] more than a patriotic duty; I think it’s a moral duty.**”

Last week a far-left “doctor” claimed on television that freedoms were a “carrot” to be dangled in front of Americans and not returned until they got vaccinated.

April 6, 2021: Convicted murderers cross border: <https://thenationalpulse.com/breaking/cbp-intercepts-murderers-and-rapists/> **Border Patrol Intercepts Convicted Murders, Child Rapists Crossing US Border.**

U.S. Border Patrol has arrested convicted child rapists and murderers attempting to cross the U.S. border.

On April 4th in the San Diego sector of the border, agents intercepted a "5-year-old El Salvadorian national, had been convicted in 2009 for aggravated sexual battery of a child under 13 in Virginia." "He was sentenced to 20 years in prison. The man was subsequently removed to El Salvador in 2014 after having a portion of his criminal sentence suspended," Customs and Border Protection (CBP) adds.

CBP also *notes* a dramatic increase in sex offenders crossing the U.S. border, adding "in fiscal year 2021, which began October 1, SDC's Border Patrol agents have arrested 31 sex offenders exceeding the 25 sex offenders arrested in San Diego Sector during fiscal year 2020."

On April 2nd, CBP officials encountered two illegal aliens, who, when a records check was complete, revealed "that one of the men, a 45-year-old Mexican national, had been convicted of second-degree murder in California in 2003."

"At that time, he had been tried, convicted, and sentenced to 15 years to life in prison. The man now faces new charges for illegal entry after being previously deported," the press release *adds*.

Day 75 Posted April 5, 2021: RMLC Heads up: When you report voter fraud through any of our RMLC website' email links, know your emails are patched directly through our websites, to our fraud investigating team and the appropriate state and federal authorities.

Also, please know all relevant attachments are uploaded to external thumb drives, which allow us to better track the "chain-of-custody." That brings up other important RM recommendations we covered in our workshops on how to secure the forensic evidence you collect.

If and when you take pictures using your cell phone, as soon as possible, move all relevant pictures off your phone, to an external thumb drive. Also, if there is a chance your cell phone will be subpoenaed, remove all personal pictures before turning it over to authorities. Why? The defense attorneys will have a hay-day in court, with your family pictures, no matter how innocent you may think they might be.

At some point, you'll be able to upload other RM tips for identifying, documenting, measuring and controlling voter fraud in your county, off our www.rmlearningcenter.com home page.

Now get out and vote tomorrow for anyone other than a candidate endorsed by one of the Biden/Harris supporters. Why? Take a look at what's happening at the border, the rising gas prices, their efforts to take away our guns and defund the police, not to mention their efforts to steal the next election.

YouTube is deleting "dislikes" to artificially bolster the approval ratings of nearly all of the videos on the official YouTube channel of the Biden White House. Below are the receipts that prove it.

Once a new Biden White House video is about 6-12 hours old, YouTube begins deleting dislikes from the video. They continue to delete additional dislikes at fairly regular intervals after that. The end result is that Biden regime videos appear to be much more popular than they really are, though they are still almost entirely upside down. In contrast, [YouTube videos from the Trump White House](#) usually had net positive approval ratios

Attack on Capital by Nation of Islam: <https://thenationalpulse.com/analysis/gop-leader-mccarthy-cant-be-bothered-to-condemn-left-extremism/> **Kevin McCarthy styles himself as the “GOP Leader,” but never shows any leadership. On the back of an attack on the U.S. Capitol by a Nation of Islam follower, McCarthy chose to send prayers instead of taking the fight to the radical left who encouraged this attack. If it was a right-wing attacker, he’d have been condemning it by now.**

McCarthy is routinely comfortable attacking his own side. Whether it's unproven or unsubstantiated attacked on Marjorie Taylor-Greene or Matt Gaetz, Kevin McCarthy is there for it. But when it's an attack by an extremist and foreign ideology, McCarthy simply offers his prayers, as he did when a Nation of Islam-affiliated terrorist attacked America's Capitol on April 2nd. A reminder: McCarthy [back-channeled anti-Trump rhetoric to the press](#), via his Republican in Name Only (RINO) colleagues, after January 6th. Of course, it turns out Trump had nothing to do with January 6th, and [the timeline of events proves it](#). But that didn't stop McCarthy laying blame at Trump's door immediately, and shamefully for Trump, the former President hosted McCarthy at Mar-a-Lago just a few weeks later. But on the back of a radical left-inspired Nation of Islam attack on the U.S. Capitol, McCarthy had basically nothing to say. Why is McCarthy simply eulogizing a policeman, instead of attributing blame for the attack? What would Pelosi have done? Blame the right, of course, and embarked upon a media and political strategy that would put Republicans in a corner. What's McCarthy doing? Sunning himself at a beach house in California, no doubt. The truth is McCarthy has been found wanting on a number of issues: on Hunter Biden's hard drive proving his family's links to foreign governments, on the Chinese Communist Party's influence in U.S. affairs, on the oppression of Republican voters since January 6th, and of course on a number of policy problems the left is lumping the country with including a \$10 trillion new "green" investment plan that would impoverish future generations. The self-styled "GOP Leader" is actually a Democrat accomplice, and it's time for him to resign. If he doesn't, someone within the GOP needs to publicly oppose him. And if that doesn't happen, the wider GOP voter base needs to recognize this party no longer represents them and therefore act accordingly. Don't turn out. Don't vote. Don't donate. Don't bother. *Readers can contact McCarthy's office [here](#).*

Four days out to the April 6th election and Wisconsin is getting ready to vote. My best Risk Management (RM) advice takes advantage of the "Benchmarking" we've been doing on the Biden/Harris administration, as well as takes into account the mistakes far too many made, listening to the Biden/Harris jockeys who stole the last election.

Gas up the car, if you can still afford the Biden/Harris' prices at the pump.

Kidnap grandma and grandpa out of assisted living, latch them to the running-boards of the car and head for the nearest polling station. If you've already voted by absentee ballots, look for them dumped in the ditch down by the river.

At least for now you'll still need a valid government ID to cast your ballot, but even now, if the Biden jockeys are manning the polls, there's a better than even chance one of your long-past relatives have already stolen your voice along with your vote. That, my fellow Americans is exactly what happened more than the Biden Jockeys in November would allow us to count.

So, who should you vote for?

You still have a few days to drive through your voting district and remember who told you to vote for Joe and Hunter Biden, along with Kamila Harris. Take note of who the Biden Jockeys recommend and then, only if you're a damn fool, take their advice a second time.

But, stop the car! Take their advice only if you want to pay more at the pump and higher taxes. Take their advice only if you want more open borders and the guarantee of another terrorist attack, more taxpayer funding of abortions and more laundering of billions to our enemies, while they behead our soldiers, rape our women, kidnap our students, burn our flag and chant "Death to America."

And, take their advice, only if you want Biden to continue selling our country out to the Chinese.

Breaking News: It took less than 24 hours for the Biden jockeys in Sturgeon Bay to take down all the Gill/Kerr and Kelly signs at the round-a-bout outside of town. It took less than an hour for me to put them back.

God forgive anyone who rode Biden/Harris back into the Washington swamp.

PS: Go to www.rmlearningcenter.com, pass it on and get out and vote on April 6th.

RM request to vote: For those just joining our Facebook friends, were now reaching into the hundreds, we call them the "Biden Jockeys" because they rode one of the most corrupt politicians in our nation's history back into the Washington swamp.

We're now coming up to the April 6th election and just as expected, the faster we put up signs for our conservative Republican candidates, the Biden Jockeys either cut them up or steal them.

I'll be posting pictures and videos of the Biden Jockeys work over the past five elections in Wisconsin, but for now, we're down to placing most of our candidates signs off the round-a-bout

in Sturgeon Bay, putting them far enough off the highway and placing cameras on them so we can at least add to our upcoming videos.

So far, of the 250 Gill and Kerr yard signs put out, there are few left standing. In that the election is days away, please forward the following pictures of our Sturgeon Bay display to your friends and family and get out the vote for Gill, Kerr and Kelly. Note, Kelly is running in Brown County.

From a Risk Management standpoint, you'd be wise to vote for anyone other than those being promoted by the Biden Jockeys, no matter where you're voting going forward. Please remember, Gill and Kerr will both be on the ballot in Door County.

In an [email](#) between Rep. Gaetz's father's lawyer and Goldberg, the Assistant U.S. Attorney confirms the Federal Bureau of Investigation's (FBI) involvement:

"I can confirm that your client is working with my office as well as the FBI at the government's request in order to determine if a federal crime has been committed. This has been discussed with, and approved by, the FBI as well as the leadership of my office and components of Main Justice."

The response followed a Gaetz family lawyer sending the following in a March 25th email:

"My client, Don Gaetz, was approached by two individuals to make a sizable payment in what I would call a scheme to defraud. The FBI is not asking Don to voluntarily and proactively assist in their investigation, which Don is willing to do. Please confirm that your Office and the FBI would like Don's assistance in this matter and that he will be working at the Government's request."

TO Post: Risk Management Alert: Parents who oppose the forced BLM teaching of "Critical Race Theory" in our public schools are being targeted by BLM school board members in California, Illinois and Virginia, etc. This underscores the need for all parents in Door County, democrats and republicans alike, to challenge what's going on in the Southern Door School District. I understand the teacher involved has been fired. I know very little about what's going on in our high schools. On the same day the World Health Organization's (WHO) highly **controversial** was released, Daszak appeared on China Global Television Network (CGTN), a **state-run** outlet that has **aired** forced confessions, to hype the findings.

Daszak, who has repeatedly **praised** Chinese state-run media outlets, admitted to having collaborated with the Chinese Communist Party and its scientific groups in the interview.

"Everybody knows that I have strong collaboration with the Wuhan Institute of Virology for many years," he noted after attempting to explain why the lab leak theory was improbable:
"When it came to the lab leak hypothesis, we just didn't see significant information that suggests that that happened. I mean as a scientist you can only deal with the evidence you see in front of your eyes and if it's not there then you can only come to the conclusion that it's extremely unlikely."
"Of course, I have collaborations with many, many Chinese organizations and institutes because we all work on these viruses, and let's not forget SARS, the original important coronavirus emerged in Guangdong. And that's why we're working in China collaboratively with China CDC, Wuhan Institute of Virology, and many, many other organizations because we want to stop this from happening," he added again.
The CGTN interviewer also pressed Daszak on ties fellow WHO researchers had with China, referencing a National Pulse report on [Marion Koopmans](#):
"I know that some Western media also talked about your association with the Wuhan Institute of Virology and they also referred to Madam Marion Koopmans who had really good cooperation with Chinese institutes."
The interviewer concludes by saying he "hopes that next time when you are visiting Wuhan or visiting China I could be around," to which Daszak replies: "I look forward to that."
The interview follows extensive National Pulse reporting highlighting Daszak's financial ties to the Chinese Communist Party, including [authoring](#) studies funded by the regime and hosting conferences [alongside](#) state-run entities.

 - NATALIE WINTERS

An audit of mail-in ballots cast in Montana for the 2020 presidential election reveals a host of irregularities including evidence that "one or several persons may have filled out and submitted

multiple ballots” and the failure of a county elections office to provide video footage of vote-counting.

“The story at hand begins during the pandemic summer of 2020, when the then-governor, Democrat Steve Bullock, issued a [directive](#) permitting counties to conduct the general election fully by mail,” John Lott, a [noted](#) crime and gun researcher, [begins](#).

Lott, also a Senior Adviser for Research and Statistics at the Office of Justice Programs in the Trump administration, outlines the “troubling” conclusion of the state’s audit:

Its conclusions were troubling: 4,592 out of the 72,491 mail-in ballots lacked envelopes—6.33% of all votes. Without an officially printed envelope with registration information, a voter’s signature, and a postmark indicating whether it was cast on time, election officials cannot verify that a ballot is legitimate. It is against the law to count such votes. What’s more, according to auditors, county employees claimed that during the post-election audit, some of the envelopes may have been double-counted, possibly indicating an even higher number of missing envelopes.

The audit also tested a sample of 15,455 mail-in envelopes for defects.

“Of these, 55 lacked postmark dates and 53 never had their signatures checked—for a total of 0.7% of all ballots in the sample. No envelope had more than one irregularity. Extrapolating from the sub-sample, that would make more than 5,000 of Missoula County’s votes—roughly 7%—with unexplained irregularities,” Lott explains.

The audit also uncovered dozens of ballot envelopes that “bore strikingly similar, distinctive handwriting styles in the signatures, suggesting that one or several persons may have filled out and submitted multiple ballots, an act of fraud”:

One auditor asserted that of 28 envelopes reviewed from the same address, a nursing home, all 28 signatures looked “exactly the same” stylistically. Another auditor reported that among the envelopes she reviewed, two very unique signatures appeared dozens of times, describing one such signature as starting out flat, moving to a peak, and tapering out, and another as consisting of numerous circles—a “bubble signature.”

The probe also concerned auditors, as the county elections office “did not provide access to video footage it claimed to have recorded of vote-counting activities.”

The only problem? The comic was discontinued in 2018, The National Pulse can reveal. Comical Psaki.**

On Monday, press secretary Jen Psaki **assured** reporters that the Biden White House is doing everything possible to address the crisis at the border—such as running radio ads, supporting “creative” efforts, and pouring money into countries whose citizens are escaping cartel violence. “We’ve placed an estimated 17,118 radio ads in Brazil, El Salvador, Guatemala, and Honduras since January 21st in Spanish, Portuguese, and six indigenous languages,” she said. Psaki also **reported** that America is also backing more “creative” approaches, such as comic books that discourage violence.

“We’re also taking creative approaches in different countries to make sure we’re reaching people . . . As an example, Embassy San Salvador—“Oscuro” comic book and animated show seeks to deter irregular migration by addressing violence as a driver. Content focused on [violence] reduction reached 240,000 young Salvadorans in the targeted audience. The two animated episodes in this past year have been viewed by 3.6 million individuals.”

“Oscuro,” however, was censored and removed from circulation in 2018 by El Salvador’s National Civil Police.

“The Police censored the comic because it did not tolerate the character’s gang past, but also because it denounced an extrajudicial execution committed by the policemen in the comic, a metaphor that evokes human rights violations committed by real police officers,” **reads** an English translation of an article from elfaro.net. “After the comic was seized, the Police tried to analyze [‘Oscuro’] and even made a psychological profile of the characters that appear in it, to try to justify why it was not a valid violence prevention tool.”

VP Has Been To The Border... Before.

Vice President Kamala Harris **responded** with laughter when asked if she had any plans to visit the border.

We must change the laws that enable discrimination in our country, and we must change our hearts . . . We must recognize the ways that racism, gender discrimination, and other forms of marginalization intersect with and compound one another. Ever's nursing home scandal widens: [Evers' nursing home COVID death scandal worsens – Empower Wisconsin](#)

Risk Management Facts: Beijing is running the White House while Biden refuses to admit thousands of COVID 19 infected children, many under 3 years old, are huddled like cord-wood, soiled in their own poop, while older unaccompanied children are traveling north into the Midwest with MS-13 members, terrorists and the Mexican cartels, now well positioned to make billions in human trafficking, thanks to, you got it, the Biden/Harris jockeys who stole the 2020 election and rode them both back into the swamp.

And what are the Biden Jockeys suffering from Trump Derangement Syndrome (TDS) and Social-media Trump Disorder (STD) have to say for themselves?

"Don't blame us! We just asked you to trust us! It's Trumps fault! You didn't have to believe us!" Once again! God forgive anyone who voted Biden back into the swamp.

Fact: Thousands of unaccompanied COVID infected and untested children are heading toward Wisconsin thanks to the Biden Jockeys who stole Wisconsin's election both in 2018 and 2020.

And, now thanks to the totally inept Evers, (Remember Caleb Frostman -(<https://www.wpr.org/latest-caleb-frostmans-ouster-workforce-development-secretary>), we're dealing with another Evers screw up.

As God is our witness, anyone who votes for Evers in the next election has to have their head examined. The following ten people perished in the recent shooting in Boulder, Colorado carried out by Ahmad Al-Issa. All of them appear to be white, but neither the media nor politicians have bothered to resurrect their anti-race-hate campaign that ensues when Black Lives Matter riot, or when Asians are murdered in Atlanta.
The victims include grocery store workers, local college graduates, medicare agents, a police officer, and an Orthodox Christian. Today, The National Pulse calls on the political left and their media

counterparts to stop the racial hatred they continue to perpetuate against white people, which doubtlessly led to these murders in Colorado.

RM Heads Up: It’s time for Spring Break! What the hell, Biden has now stopped testing the bus loads of immigrants coming across the border at taxpayer expense.

I too am burning out benchmarking Biden’s first 100 days in the Oval Office, but it’s something we all have to do, if “We-the-People”, democrats and republicans alike, are going to better manage the risks we take, every time we step into the polling booth, pull the curtain and cast our ballots.

But for today, it’s time we all head for the beaches in Florida. “What the Hell”, what do we got to lose? Biden has already got his jockeys masked up and hiding in their basement, prime targets for the next terrorist attack. He’s already taken away our freedom of speech and our 2nd Amendment and we’re all back to the taxpayer funding of abortions, just in case somebody gets knocked-up fighting for their right to assemble on the beaches of Florida.

God! If I still can mention his name on Facebook, how America has changed in less than fifty days.

When you get back, we’ll be shifting in to high gear, and moving past benchmarking the first 100 days in hell, to charting an “academic” Risk Management path to the polls in 2022 and 2024.

Future posts, starting soon than you think, will focus on the “The Risk Management’ Facts – Only the Facts.” I’ll be recommending a books to read, such as Martha Mac Donanld’s book: “The Diversity Delusion – How Race and Gender Pandering Corrupt the University and Undermine Our Culture.”

My future posts will focus on what public schools in democrat controlled states, like Wisconsin, are teaching students as early as K-5. You’ll be introduced to our Risk Management Learning Center (RMLC) affiliates and frequent contributors, who’ll help guide us down the proverbial Risk Management path to the polls in 2022 and 2024.

God speed! Have fun on Spring Break! You only have a few days to have as much fun as I had back in ’63, ’64, ’65, ’66, ’67 and ’68, before heading off to Vietnam.

My best advice? Take Martha’s book along and be ready to offer a book report to your local school board when you return.

at the polling booth during the next election. we're going to it's been a royal pain in the ass, and I don't mean a pain in the "Trojan-donkey" their riding back into the swamp. So, let's all head for Florida on "Spring-Break." The last time six of us, five six craved make room for .

Biden illegally holding 1,000: <https://thenationalpulse.com/breaking/biden-holding-1000-migrant-kids-illegally/> **Biden Is Illegally Holding 1,000 Migrant Kids In Detention Centers. Leaked Department of Homeland Security figures reveal 823 unaccompanied migrant children being held in border patrol custody for more than 10 days.**

Under federal law, border patrol can detain children for a maximum of 72 hours, but as of March 20th, "3,314 unaccompanied children had been in custody longer, with 2,226 for more than five days and 823 for more than 10 days," the outlet continues. President Biden, therefore, is illegally holding these children, and staunch critics of Donald Trump's immigration policy such as Rep. Alexandria Ocasio-Cortez have failed to criticize the move.

The numbers also represent over a fourfold increase from the past week.

"The trend is accelerating. On last Monday, only 185 migrant children were being held in border patrol custody for more than 10 days," Axios notes.

USE this as a letter to the Pulse!

RM Question: Do the Biden' Jockeys, those who road Biden/Harris back into the swamp really think we believe their open borders, the shutting down the pipeline and selling out to China has nothing to do with the skyrocketing prices at the pumps?

"We the People" literally begged everyone with a "Trust us - vote Democratic - vote for Biden/Harris" sign on their lawn, to please, please don't sell our truckers down the Yangtze River, but they would not listen.

Sadly, they're not going to listen when Evers comes up to bat, in 2022. I'm warning you to keep an eye on Evers just incase you haven't been tracking what he's been doing to Foxconn in Wisconsin. I have!

The concern is they will drive to D.C., get hotel rooms, grab their free breakfast, then strike at dawn with fire extinguishers or anything that counts under the present hysteria as an armament; *i.e.*, shoes, purses or bear spray.

The attack was expected on March 4 but never materialized. Federal law enforcement recalibrated, shifting the anticipated *coup de main* to March 20. That never happened either.

Notably, the federal government failed to similarly protect the capital in 1814, when the Brits burned down the White House, and in 1861, when the Army of Northern Virginia encamped at what is now a shopping mall in Manassas, Virginia.

On Biden's 53 day in office Putin challenges Biden to a debate and China openly mocks his "how can America bow to your wishes" delegation in Alaska.

Want a bet, we're going back to bowing to our enemies, while they behead our soldiers, rape our women, kidnap our students, burn our flag and chant "Death to America."

My RM message to the veterans who voted Biden back into the swamp? God forgive you for what you've done to our troops. God forgive you for the blood we're going to shed thanks to your willingness to give up our guns, defund our police and open our borders to the next terrorist attack. It's only a matter of time.

To Post:

RM Heads Up: We'll continue to "benchmark" Biden's first 100 days, of what's now considered his "first 100 days of destruction." We'll then be launching RM workshops to highlight how Trump's US capitalism made America stronger, safer, and more proud, everyday of his administration.

After Biden's first 100 days, we'll be launching a county by county mission across the country to call out the Biden/Harris Jockeys, who rode two of the most corrupt politicians in our nations history back into the Washington swamp.

The first workshops will focus on identifying those responsible for the loss of our freedom and independence and subsequent workshops will explain step by step how county by county they were able to first launder and then harvest enough votes to steal the election.

In only 50 plus days, Biden has taken away our freedom of speech and in the next few weeks he'll have taken away the 2 amendment and our right to bear arms. And, once he launches his tax plan, there's a better than even chance we'll have lost the ability to compete in the world economy.

But rest assured. We are strong and we all are Americans, some democrats, some republicans and all independent. We will rise up and drive the Trump hating socialist out of government, out of our schools and once and for all out of our country.

Our future may look bleak at the moment with the Trump hating Biden Jockeys in control, but our American will to win back the White House in 2024 has never been stronger.

God forgive those who voted him into office and God bless those, both democrats and republicans who'll drive him back out of the swamp.

Biden humiliated in Moscow: <https://thenationalpulse.com/analysis/putin-humiliated-biden-in-moscow-meeting/> **Joe Biden is lying about his 2011 dealings with Vladimir Putin in Moscow, and the Russian president isn't putting up with it.** I know this because I was an eyewitness to the events of that day. Events that Washington, D.C.'s media have failed to press Biden on – and that give an extraordinary insight into how our now-president was humiliated by his Russian counterparts. Vladimir Putin and his staff sought the almost ritualistic humiliation of then-Vice President Joe Biden, who commanded very little respect on the world stage during his tenure as veep. If it can be believed, he commands even less, now. Ever since that moment I witnessed, Joe Biden and his staffers – with the help of Washington's press corps – have been spinning the story 180 degrees away from how it actually happened.

RM Update March 15: During the campaign, the Biden/Harris jockeys claimed only they could be trusted as they promised: your taxes will not rise, while we're in office, we're the only ones you can trust.

Wake up America. They've already proposing a "Gun Tax" an "Ammo Tax" along with a "Millage Tax" and a "Carbon Tax".

We had it right! They're using COVID 19 to transform our free-market economy into a socialist state, already ending Trump's tariffs on China that funded our farmers while he leveled the markets shared with Canada and Mexico. Markets that now they're fast going to destroy. Every agreement Trump put into place has to be taken down to appease the Trump haters who elected them into office.

The democrats now in control have already laid the groundwork for raising inheritance taxes so hard earned family fortunes can't be handed down to future generations without first getting the Biden/Harris government, which is the same thing as China's approval.

Oh yes! The first thing Biden signed was an executive order requiring all auto parts manufactured overseas to first get his approval.

God forgive the Trump haters who voted the socialists back into the swamp. Again, they are not the democrats we once could trust.

Below are two visuals that'll help remind you the damage the Trump hating democrats have already done to our free-market capitalist economy.

When it comes to Biden/Harris selling us out to the Chinese, this is only the beginning; only the tip of the iceberg. They've now put a fork in our energy independence, have you notice the rise in gas prices, they've put a fork in our first Amendment by taking over the main-street media and now if they can't take away the 2nd, they'll drive up the cost of our guns and ammo until only the drug pushers and human trafficker they're busing north as we speak, will be able to afford the guns they don't trust us to handle.

Did you ever think they could hate our country so much they'd wall off the capital trying to convince the world, only they're the party the world can trust.

It's an all-out Democrat Party's attack on free and fair elections. Remember how those who voted for Biden/Harris stole the last election? Remember the mass mailing out of ballots to dead addresses, them going around to nursing homes, collecting signed ballots, filling them in to vote for Biden/Harris and adding resident's addresses under their control? Remember how they first laundered and than harvested mailed-in ballots in Wisconsin in both 2016 and 2020 and how they accepted fake voter' identification from anyone showing up at the polls? Again! We're not dealing with the Democrat Party to which I once belonged. We need two strong and independent political party's in America representing the voice of "We the People." RM Update: To our Credit Union Risk Managers in the US: Please review the fraud and scams launched after Obamacare, the largest tax increase in US history, was passed. Read my handouts titled "Obamacare fraud - One Big Academic Mistake for America."

The same fraud and scams that skyrocketed after Obamacare kicked in, to include fake ID's offered via the internet and through the mail, the lapping of deposits and laundering for funds, the creation of bogus new accounts and the increase in unauthorized and fictitious loans, as well as the changing of mailing addresses and the redirecting of recipient's mail will only mark the tip of the iceberg that's lays straight ahead.

Those who voted Biden back into the swamp will soon realize just how deep the scam artists are swimming with Hunter in the swamp.

Go back and read Trump's briefing dated March 18, 2020, which underscores the need to distribute checks directly to those in most need. Senators question Capital need for guard: <https://thenationalpulse.com/breaking/senators-blast-capitol-police/> **Senators Blast Capitol Police For Failing To Provide Credible Threat Intel To Justify DC Fence.**

Republican senators wrote to the acting Chief of U.S. Capitol police questioning the presence of the National Guard and extensive fencing around the Capitol.

“Since the events of January 6th, Capitol Police has repeatedly failed to provide specific credible threat intelligence to adequately justify the current Capitol security posture, which remains

disproportionate to the available intelligence,” the letter signed by five Republican senators notes.

“As it relates to fencing, it is entirely unclear to us why the fencing around the complex remains, given the absence of any current specific threat to the Capitol and given the ability to rapidly re-deploy fencing should that threat posture change,” it continues before raising similar concerns over the extended presence of National Guard troops.

The senators outline seven key questions, including how the events of January 6th unfolded, what the explicit justification for fencing is, and if National Guard troops could be replaced by more modern forms of surveillance.

Risk Management Questions: For the white farmers in the “Opportunity Wisconsin” ads. The ads in which Jessica K from Horicon condemns Ron Johnson for making the Senate read the bill before they voted?

Click on this link (<https://www.opportunitywisconsin.org/steering-committee>) so you know who I’m asking the question.

Do you poor white farmers paying for those ads realize the bill you just got through congress sends a \$1,400 stimulus check to the illegal farmhand milking your cows and forgives not just 100% but 120% of the millionaire farmer’s loan, just because he’s black, Hispanic or a little bit Asian?

Ron Johnson made the democrats read the bill out-loud so poor white farmers, of which I was one, would be smart enough to realize they were excluded from the loan forgiveness.

Bye-the-way, that’s money your kids are going to have to pay back. It’s estimated, that bill that you bozos with “Opportunity Wisconsin” got passed adds \$15,000 of debt to every man, woman and child in America.

Also: You bozos have to realize, much of the money goes to specifically bailout poorly managed democrat states and municipalities.

For example, Pelosi's San Francisco, gets \$600,000 to pay-off their \$650,000 pension fund shortage, while federal employees now will get \$21,000 in paid leaves, if they're ever laid off and California's state employees now will get their \$25,000 bonuses.

It's time someone calls not Ron Johnson's office, but calls each member of the "Opportunity Wisconsin" steering committee and ask them for a loan. I'll bet, black or white, you'll have to pay it back.

It's time we vote every democrat and the one republican who voted for that bill, OUT OF OFFICE!

Edit and post this below tomorrow.

It time the Trump haters tune into FOX and watch the migrants, thousands, an estimated 30,000 in the last few weeks alone, of high school age, mostly uneducated miners coming through the sections of the wall Biden left open transporting literally tons of heroin, the drug of choice by students in the Midwest.

Most have yellow arm bands indicating to which cartel they owe their future. Many have been sold to human traffickers, all have a price they’ll have to pay selling drugs or their body on the street in downtown Chicago, Milwaukee, Green Bay and north. If they don’t succeed or try to escape, their family left behind will be executed.

Who’s to blame? We all are, for allowing the Trump haters to steal the last election. Who’s going to stop it? We all are the next time we go to vote. But then, they’ve just moved bills forward which will allow them to launder and harvest votes just like they did in Wisconsin in 2016 and across the country in 2020.

Doubt it? Just wait!

Europe's Migrant Crisis, Still Yielding Terror, Foretells the Effects of Biden's Border-Crossing Boom. March 9, 2021 · Todd Bensman ...

With the flash of knife, the latest border-jumping, migrant asylum seeker has wrought yet another trail of blood, hospitalizations, shots fired, and street memorials in a European nation. This time, a 22-year-old Afghan migrant asylum allegedly **slashed seven pedestrians in the Swedish town of Vetlanda before police could disable and arrest him.**

Although reporting is developing, the Afghan undoubtedly crossed the European Union's external borders among several thousand young Afghan asylum applicants who traveled to Sweden in recent years via an Iran-Iraq-Turkey-Greece-Italy route and who are now being repatriated as ineligible.

Attention: Credit Union Risk Managers in Europe: "We have your back!" If you still have our handouts, go back and read the links we identified between the funding of Obamacare and the homegrown terrorists embedded in our US healthcare system.

How and why border-crossing migrants from Muslim-majority nations keep conducting such attacks pose lessons applicable to the American southern border, where thousands from the same Muslim-majority nations annually cross.

Jihad at the Border.

As discussed at length in *[America's Covert Border War, The Untold Story of the Nation's Struggle to Prevent Jihadist Infiltration](#)*, Europe's experience showcases a new terrorism travel phenomenon on the world stage: that malevolent long-haul migrants from countries rife with Islamist terrorist organizations now routinely cross land borders of western nations and do so far less noticeably when high volumes of benevolent economic migrants have overwhelmed border management systems.

Security officials first realized the new terrorist border proliferation method after ISIS deployed operatives camouflaged among massive migrant caravans to attack Paris in November 2015 and Brussels in March 2016. Lone offender migrants and small cells have since neatly exploited the inability of western security services to vet hearts and minds as border control and asylum systems stagger under high volumes.

Now that record volumes plague the U.S.-Mexico border, American leaders should know that stressed receiving nations waved through people like the Afghan knife slasher of Vetlanda, the Tunisian who in October 2020 [slashed three people](#) in a Nice, France church, the Iraqi who in August 2020 [purposefully hunted](#) and killed German motorcyclists in an Opel Astra sedan, Europe's [most-wanted jihadist](#) (captured in Italy in May 2020), the Sudanese migrant who in April 2020 killed two and wounded five more during [a knife-slashing spree](#) in the south of France, the [five Tajik migrants](#) caught planning to murder American military personnel in Germany, and many others besides.

Indeed, the best available data by researcher Sam Mullins in his book [Jihadist Infiltration of Migrant Flows to Europe](#) shows that at least 140 border-crossing refugees and migrants—likely an undercount—gamed asylum systems and killed and maimed over a thousand Europeans from 2011 to 2018. My research for “America’s Covert Border War” identified a likely undercounted 104 border-crossing migrant terrorists from 2014 to 2018. The numbers have since moved only higher.

Opening Europe to Catastrophe.

RM Heads up! Democrat Congressmen profiting for Communist China bank: Click on the following link (<https://thenationalpulse.com/breaking/dem-congressman-profiting-from-boc/>).

Three of the most recent financial disclosures from Democratic Congressman Vicente Gonzalez reveal he has a bank account housed with the state-run Bank of China he has received interest from while in Congress.

A filing approved in 2018 lists an account with the Bank of China worth, between \$100,001 to \$250,000 and also reveals Gonzalez received income from the account worth \$2,501 and \$5,000.

Bill Gates Advised the Communist China Party on propaganda:

<https://thenationalpulse.com/news/bill-gates-ccp-united-front-ties/>

Bill Gates has advised and addressed various groups within the Chinese Communist Party's United Front, the country's top propaganda effort that the U.S. government identifies as seeking to influence the West to "take actions or adopt positions supportive of Beijing's preferred policies."

Gates has served on a Steering Committee for the China-United States Exchange Foundation (CUSEF), founded by the Chairman of the "highest-ranking entity overseeing" within China's United Work Front, [according](#) to the U.S.-China Security and Economic Review Commission. March 8, 2021

RM Update: While Biden/Harris demand taxpayers pay \$billion to guard the capital against "We the People", Mexican drug cartels are escorting caravans of criminals and unaccompanied children across the border heading for sanctuary cities in states run by democrat governors.

Doubt it? Many carry propaganda highlighting statements made by Trump hating democrat' politicians.

FYI: Those are the same Mexican drug cartels to which Obama/Biden sold guns during "Fast and Furious." If you don't remember Fast and Furious, click on this link: <https://www.forbes.com/sites/realspin/2011/09/28/fast-and-furious-just-might-be-president-obamas-watergate/?sh=6576626b752a>. I say it again! God forgive the Trump haters who voted for Biden/Harris.

Many of the women rapped in the caravans carry Facebook posts of Trump haters who posted Spanish speaking family members in their profiles or know employers, who have bilingual personnel on staff.

Doubt it? Wait! They'll be knocking on the doors of every Trump hating Biden voter and every Trump hating employer in the country before the end of summer.

So what are Biden/Harris doing about it? Click on this link <https://www.foxnews.com/politics/bidens-administration-lied-american-border-crisis> and you be the judge.

Again! We had our border secured and we had Mexico halting and housing let alone medically testing and verifying the background of those in the caravans. Why? Please tell us why we allowed the Trump haters to destroy our American dreams.

Myths about global warming:

Newsmax https://w3.newsmax.com/News-Financial/Global-Warming?dkt_nbr=6F1212qf0t2u

Powerful agendas pushed by the left, members of the renewable energy industry, and climate alarmists in Hollywood are ramming so-called "facts" about global warming into Americans' everyday lives.

President Joe Biden has said his \$2 trillion environmental plan will drive the country's domestic and foreign policies. But some climate experts warn that science doesn't necessarily back up the global warming claims being pushed by "climate scientists" and politicians. "Climate is changing for whatever reason," founder of JunkScience.com Steve Milloy told Newsmax. "How do you know it's for the worse? How do you know it's not for the better?"

RM Update: I've resisted going the "RM Alerts" as if I do, the Biden Jockey's will block my posts, but and it's a big "BUT"; as Pelosi begs for \$billion trying to convince the world conservative Trump supporters are poised to attack the capital, as congressional democrats vote to disarm our police and take away our guns, the same Mexican cartels to which Obama Biden sold guns (Fast and Furious)

<https://www.forbes.com/sites/realspin/2011/09/28/fast-and-furious-just-might-be-president-obamas-watergate/?sh=6576626b752a>

RM Update: According to HHS 100% of the unaccompanied minors reaching the borders are being not only allowed in, but plans are to airlift them north, if not into government housing, such as a variety of military bases at least into the already waiting sanctuary trailer parks across the country. The vast majority of families are also given the Biden welcome and have already arrived in the Midwest.

At the same time Pelosi is asking for \$Billions to wall off our capital in order to safeguard our elected officials from God only knows who. They keep pushing the date up as to when they'll be attacked.

What does this mean from a Risk Management standpoint? Thanks to the Trump haters who voted Biden back into the swamp, the government run main-street media has, not everyone, only those dumb enough to listen to CNN, convinced the world it's, "We the People" who are the enemy."

So far the Biden Jockeys (that's what we're now calling those who voted the Trojan Horse for communism into the Oval Office) have disarmed our police and made them into our enemy.

So far, they've made great strides in getting rid of the 2nd Amendment, they've got most of America masked up and hiding in their basements, they've destroyed our economy and now soon, very soon, thanks to their catch and release program, which is now law in 9 out of 23 democrat run states, they'll have the most vicious criminal along with seasoned drug lords, human traffickers and homegrown terrorists knocking at your door.

God forgive the Trump hating Biden Jockeys for what they've done to our freedom to assemble and worship, our right to bear arms and in no small way; to our American dreams.

God willing, and I know he's on our side. We will vote every Trump hating democrat out of office at the next election.

Again! We're not dealing with the democrats who lead us through WWII and out of the Great Depression and who stand during the national anthem. We're dealing with the Trump hating socialists, who've commandeered their once highly respected Democrat Party.

It won't be hard for you to recognized the Biden' migrants. It will be next to impossible to recognize those carrying the Biden/Harris plague.

RM Update: I'm going to try hard going forward to offer a positive path for those who've been misguided by those who voted for Biden/Harris. More than tuning into FOX News, more than listening to conservative talk shows, for our youth, I suggest they tune into Prager University at least once or twice a week. Go to: <https://www.prageru.com/> and give them a chance to rescue your schools. And now my update: The Biden jockeys are getting crazier by the day. They're actually now saying on CNN that there were no violent BLM riots last summer and on MSNBC they're refusing to admit Pelosi structured a three hour delay in bringing in the National Guard on January 6th. First they said all 50 state capitals would be attacked on inauguration day then the capital would be attacked again on the 6th of March and now it's going to happen on the 20th. All I can say is who cuts the meet for these people. It's estimated it'll cost billions to guard the capital against those angered by them stealing the election. Want to be angry? Late last night the House passed bills that'll open the door to mailed in ballots while making it against the law to ask for identification at the polls. All I can say is someday both sides of the aisle will wake up and kick their communist asses out of congress. Bye the way, who do you think is paying for all those Jessica K. from Horicon, Wi ads condemning Senator Johnson for doing his job. They're very expensive and they're running at least five every hour in Wisconsin condemning a man who's doing all he can to stop the passage of a bill full, or at least 90% full of Nancy Pelosi pork. I wonder if Jessica has ever seen the bill she's telling us is too good not to be passed? Like John the guy the veterans ran out of La Crosse, I feel sorry for Jessica. Not only is she making a fool of herself, but once her friends find out why she got bought off to make the ads, and she'll be responsible for raising their taxes, let alone driving God out of their schools, she'll be run out of Horicon on the next stage leaving the marsh. God forgive her for what she's doing, but equally important God forgive those who are destined to turn our free market capitalist democracy into a socialist welfare state.

RM Update: Wake up America! Remember our warning about the Biden' corruption as it related to China spreading anti-American propaganda in our schools and universities?

Remember how we begged the Trump haters planning to vote for Biden/Harris to wake-up before it was too late? Too late to rescue our impressionable youth from "one of the most corrupt politicians in our history?"

It's time, unfortunately now that they voted him back into the swamp, it might be too late to not just ask but demand every school board member who voted for Biden/Harris to explain, why they turned a deaf ear to our warnings.

Not one school board member who voted for Biden/Harris will be able to say they didn't know about the Confucius Institute.

The Confucius Institutes, which are hosted at American universities, have been described by Chinese government officials as "an important part of China's overseas propaganda set-up."

Now, President Biden's pick for Undersecretary of State for Political Affairs is defending the Chinese Communist Party-funded Confucius Institutes.

Click on this link and vow to vote every school board member who voted for Biden/Harris off your local school board, before your school, your students, are subjected to the Biden/Harris Chinese propaganda. RM Update: Ronald Reagan said: "When we're buried in a tunnel of debt, democrats dig deeper tunnels, while republicans dig toward daylight.

The steering committee running the “Opportunity Wisconsin” ads that criticize Ron Johnson for being a fiscal conservative is a case that proves his point.

Personally, we should feel sorry for the Jessica K’s in their ads as they get suckered into teaching their children to hate Senator Johnson, not because Ron Johnson is right or wrong, but simply because he represents another political point of view.

Their ads ignore the facts: Out of the 1.9 trillion dollars in the COVID bill (which is roughly 100% of the discretionary spending in our annual federal budget), less than 10% will be used to get us through the COVID pandemic.

\$112 million will go to build a subway in Nancy Pelosi’s district, \$12 billion goes to foreign aid, \$50 million is for “climate justice”, and 95% of what’s earmarked for schools will be held and spent between 2022 and 2028; no doubt to pad already padded union contracts.

Add, 50% of the \$900 billion past last December has yet to be distributed, and what the steering committee needs is a lesson in business ethics.

.It doesn’t take a mental giant to see, Jessica K and Ron Johnson aren’t the culprits in this ad. The culprits are the members of steering committee who are misguiding those waiting for a helping hand that doesn’t bankrupt future generations.

My Risk Management recommendation is: Click on this link

Back in the 1930’s, burglars caught in Wisconsin were given a one-way bus ticket to downtown Chicago, so we didn’t have to feed them. Al Capon was the only one we’d allow across the state line, provided he brought along a bottle of moonshine and tube olio, the olio with the little red dot you’d squeeze to make it eatable?

Now days, thanks to a new crop of corrupt politicians, crooks are simply logged into Cook County and put back on the bus to downtown Milwaukee. I guess it’s only fair, but now to add insult to injury, Biden/Harris are fast defunding our police and disarming our homeowners making us sitting ducks for the next wave of reality.

RM Update: When I post a negative comment about Biden/Harris, I run the risk of having my account blocked again, so some updates will just include links I've been alerted to by others. For example, click on this link reference to Biden/Harris efforts to rename schools in California. <https://www.aol.com/lifestyle/san-francisco-school-board-sparks-163435787.html> They blocked one of the last links reference to the democrats efforts to remove Biden from having control over our nuclear weapons. My best RM advice before they block any more of my posts is: "Remember who the Trump hating democrats were, who brought our country to it's knees in less than two months. Make damn sure they never steal another election."

XXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXX

RM Update: Nearly three dozen House Democrats signed a letter calling for President Biden to relinquish his control over nuclear weapons. "Vesting one person with this authority entails real risks," states the 2-page letter from an effort fronted by Rep. Jimmy Panetta and Rep. Ted Lieu.
All I can say is we warned the "Trump-hating" democrats that voted for Biden/Harris about the risks they were creating voting him back into the swamp.
Remember their yard signs saying: "TRUST us, we're the only party you can trust to ensure "PEACE" and "JUSTIC." They first tried to impeach President Trump over a phone call, while now Biden has sold us out to the Chinese then for calling them out for stealing the election and now they say: "Oh damn, we must have made a mistake."

God forgive them for not listening, the rest of the free world will never forgive them for what they've done.

Click on this link and please realize how important it's going to be to vote every Biden/Harris endorsed candidate out of office at every polling booth, in every local, state and federal election going forward. If we don't, we'll never get our freedom and independence back, not to mention liberate our country from the long-time known and now obvious communist takeover of the Oval Office.

RM Update: Two Democratic members of Congress from Silicon Valley have written official letters to cable and satellite carriers urging them to shut down conservative TV channels. These letters are reminiscent of those written by Sen. Joseph McCarthy and his henchmen back in the early 1950s urging television networks and Hollywood studios to drop suspected Communists or leftists. (Remember the movie "The Front"). Thus, the shoe is now on the other foot — It's the left that is trying to censor the right — but it's causing just as many callouses on our First Amendment. All decent people who care about freedom of speech, without regard to right or left political viewpoints, must stand strongly in opposition to the censorial pressures being exerted by these benighted members of Congress. Following are a few of the Risk Management (RM) questions we'll be asking at our Risk Management Learning Center (RMLC) workshops this summer with some hints to the answers:

Question #1: Who are they who voted Biden/Harris back into the Washington swamps?

They are the Christians willing to pay for the thousands of after-birth abortions that'll now be done here in the US and overseas.

They're the veterans, who'll now again applaud the release of known terrorists out of Guantanamo back to the battlefield and turn a blind eye, while they'll once again behead our soldiers, rape our women, kidnap our students and burn our flag.

They're the veterans who'll kneel during the national anthem and applaud those who now even refuse to play our National Anthem before the game.

They're the the school boards who'll take God out of our schools and our history out of the classroom and the teachers who'll be willing to teach the merits of communism and the corruption found in capitalism.

They are not the democrats who lead us through WWII and out of the Great Depression nor the democrats who fought to rescue Jews out of the Nazi prison camps. They are the democrats, who now refuse to admit the holocaust ever happened. Hard to believe? They said it on CNN.

Simply? They are those, who hated our winning and winning and winning so much they were willing to sacrifice their family's future, just to get rid of President Trump.

Again! They are not the democrats with whom we all grew up, but they are the democrats who have let us all down during the last election.

God forgive them for what they did, it's going to be a tough fight back to where we were.

I'll be posting links to some of the reading materials we'll be using during our workshops. Here is an example:

February 17, 2021

It's only a matter of time before I get blocked off Facebook, now controlled by Biden/Harris, so please know that Parler is back online, and most of America's freedom fighters can be found there and have moved over to "Telegram" and "Clout Hub."

Between now and when I roll out our new Risk Management websites (Biden/Harris have farmed most of those still up and running) I'll be using this Facebook page to post primarily Risk Management updates and "Best Practices."

In case you've missed them, the latest "Best Practice to fight COVID-19 included, neighbors calling utility companies and paying utility bills for those in their neighborhood who are in need of a helping hand. They kept it within their neighborhood to send a message they were all in this fight together. We covered this in our "Trauma Management" workshops.

Parents across the country are calling out, not teachers, but public sector school boards and union leaders to explain why Catholic schools and most private sector schools are back in class while public school teachers and school boards are demanding raises for their teachers, before they'll go back to work.

They're also wondering why, out of the \$1.9 trillion Biden/Harris budget, only \$6 billion will be distributed during 2021, holding \$32 billion for 2022 and \$90 billion for 2023. BTW, there is \$50 billion already approved that hasn't been distributed.

Remember under the Obama/Biden/Alinsky 8 rules for radicals, rule # 6) Education – Take control of what people read and listen to – take control of what children learn in school.

All they're doing funding long-term pension obligations. Remember when Walker took over in Wisconsin and Wisconsin, like Illinois was buried in unfunded pension liabilities? Remember how he cleared that up with offering "School Choice". Biden was in Milwaukee last night scheming with Evers in how they can get back in control over Wisconsin's public schools.

God forgive those who voted Biden back into the Washington swamps.

February 17, 2021

Biden over his 42 years in the swamp, has often called first term presidents "dictators" for issuing executive orders focused on destroying the legacy of the prior administration.

Click on this link and please, please read the first 42 of his 56 executive orders Biden has already issued and you be the judge. Here's the link:

On cue, CNN and Politico insisted that yesterday, February 15th, was the real first day of the Biden regime. The claim is made as a result of Congress' decision to waste a month (and millions of dollars) trying to impeach and remove President Trump (again).

The number of executive orders issued by President Biden in the first week – who once decried the legislative move as undemocratic and used by "dictators" – is more double the amount of the past seven presidents combined.

Feb 16: Biden in Milwaukee:

To be fair, you have to feel sorry for Joe when he speaks off-the-cuff. Listen to Joe in Milwaukee last night. This was recorded by CNN so it should be Joe at his finest. You be the judge.

WHEREAS, the grassroots in good faith via County, District Caucus and State convention work to write resolutions; and

WHEREAS, these resolutions should be woven into a platform which the voters expect their elected officials will work to fulfill; and

WHEREAS, there is no process in place that requires elected representatives to outline their support for grassroots resolutions; and

WHEREAS, the grassroots require verifiable and tangible evidence that the elected representatives are working to pass legislation supporting approved grassroots resolutions; and

WHEREAS, there is no process that requires elected officials to substantiate that they are working to legislatively support resolutions into which the grassroots put hard work and good faith;

NOW, THEREFORE, BE IT RESOLVED, that the Republican Party of Wisconsin's Eighth Congressional District, in Caucus Assembled, recommends that once each year at a District meeting each resolution passed by the District and also those passed by the Republican Party of Wisconsin at Convention, be addressed by state and federal representatives articulating how they are working to support District resolutions. Republican National Committee platform issues are to be addressed in the same manner by federal representatives.

RESOLUTION 5-2022

CHANGE THE LAW FOR MAIL-IN BALLOTS TO CREATE TRANSPARENCY

WHEREAS, the State of Wisconsin has several types of mail-in ballots, one being indefinitely confined; and

WHEREAS, there currently exists no adequately transparent means to determine how many mail-in ballots are in circulation and, specifically, how many have been mailed out, received and remain in circulation as of the day before an election; and

WHEREAS, 7.52 (1) (a) Wis. Stats¹ prevents the clerks from processing and voting these ballots prior to election day;

NOW, THEREFORE, BE IT RESOLVED, that the Republican Party of Wisconsin's Eighth Congressional District, in caucus assembled, in order to achieve transparency of mail-in ballots, directs the Wisconsin legislature to amend election statutes so as to make available to the public, each municipal clerk's records of all mail-in ballots beginning seven calendar days prior to and on election day. This shall include all information relating to Absentee Voter Requests and the total number of ballots mailed out, received to-date, outstanding, military, or determined uncertified.

¹ 7.52 Canvassing of absentee ballots.

(1)

(a) The governing body of any municipality may provide by ordinance that, in lieu of canvassing absentee ballots at polling places under s. 6.88, the municipal board of absentee ballot canvassers designated under s. 7.53 (2m) shall, at each election held in the municipality, canvass all absentee ballots received by the municipal clerk by 8 p.m. on election day. Prior to enacting an ordinance under this subsection, the municipal clerk or board of election commissioners of the municipality shall notify the elections commission in writing of the proposed enactment and shall consult with the elections commission concerning administration of this section. At every election held in the municipality following enactment of an ordinance under this subsection, the board of absentee ballot canvassers shall, any time after the opening of the polls and before 10 p.m. on election day, publicly convene to count the absentee ballots for the municipality. The municipal clerk shall give at least 48 hours' notice of any meeting under this subsection. Any member of the public has the same right of access to a meeting of the municipal board of absentee ballot canvassers under this subsection that the individual would have under s. 7.41 to observe the proceedings at a polling place. The board of absentee ballot canvassers may order the removal of any individual exercising the right to observe the proceedings if the individual disrupts the meeting.

WOMANS' PRIVACY PROTECTIONS IN PUBLIC EDUCATION AND RIGHTS IN SPORTS

WHEREAS, the vast majority of men and women identify with their birth gender; and

WHEREAS, current federal guidance pertaining to "trans-gender rights" diminishes the privacy rights of the majority; and

WHEREAS, these diminished privacy rights negatively impact the mental and physical well-being and security of our youth, and especially of young women, stripping them of basic rights that should be assured in bathrooms, showers, and locker rooms; and

WHEREAS, biologic males who identify as female are now competing in female sport competitions; and

WHEREAS, current federal guidance pertaining to "trans-gender rights in sports" ignores that biologic males, even after transitioning to a female identity, still have higher testosterone levels and more muscle mass than biologic females; and

WHEREAS, these physical differences engender an unfair advantage in favor of those biologic males;

NOW, THEREFORE, BE IT RESOLVED, that the Republican Party of Wisconsin's Eighth Congressional District, in caucus assembled, calls on our state legislature to enact K-12 student protection legislation that prohibits the presence of persons whose identified gender differs from their genetic gender in K-12 locales where single-sex privacy rights have traditionally been assured (such as in bathrooms, showers, and locker rooms); and

BE IT FURTHER RESOLVED, that the Republican Party of Wisconsin's Eighth Congressional District, in caucus assembled, calls on our state legislature to enact legislation that prohibits biologic males from competing in female sporting events sponsored by any state K-12 or post-secondary schools, or by their athletic conferences.

5 **RESOLUTION 1-2022**

6 **CHANGE WISCONSIN ELECTION DATES**

7 **WHEREAS**, the State of Wisconsin will hold a non-partisan election primary in February and
8 the general election in April; and
9 **WHEREAS**, the State of Wisconsin will hold a partisan election primary in August and a
10 general election in November; and
11 **WHEREAS**, there tends to be less publicity leading to a lack of voter awareness and generally
12 seasonal bad weather which can result in reduced voter participation; and
13 **WHEREAS**, The August partisan primary does not allow time for a candidate to build a
14 coalition of support before the November general election, and
15 **WHEREAS**, the August election happens months after the state party convention; and
16 **WHEREAS**, moving the non-partisan and partisan primary to April allows the party to get
17 behind the primary winners at convention where the candidates can better build a coalition;
18 and
19 **WHEREAS**, combining the partisan and non-partisan primary in April increases voter
20 awareness and participation, and
21 **WHEREAS**, all state wide non-partisan candidates (*DPI – Supreme Court*) should be moved to
22 the November elections which has the largest representation of the state voting; and
23 **WHEREAS**, there is a need to seat local non-partisan officials earlier than November, the non-
24 partisan election should be established as June; and
25 **WHEREAS**, when there are more than two candidates running for a partisan office, if a single
candidate does not receive 50% or more of the vote the two top vote-getters should have a
runoff election in June eliminating the need for party endorsement;

1 **RESOLUTION 2-2022**

2
3 **AMEND THE ENDORSEMENT PROCESS**

4

5 **WHEREAS**, almost 1.3 million Wisconsin residents voted Republican in past elections,
6 many voting Republican for the first time; and

7 **WHEREAS**, many Wisconsin voters were divided over the endorsement of the U. S.
8 2018 Senatorial candidate in the last election; and

9 **WHEREAS**, Wisconsin is historically a "swing state"; and

10 **WHEREAS**, the loyal voters of Wisconsin are made to feel irrelevant when the
11 Republican Party endorses a candidate before the voters exercise their voice; and

12 **WHEREAS**, our purpose is to respect the will of each voter in the primary, and when
13 more than one Republican enters a primary, it should be the grassroots of the party that
14 determines the winner by and through their individual votes on the day of the primary so
15 that Republicans may prevail in state and national elections; and

16 **WHEREAS**, in a Republican primary, there is expected to be approximately 500,000
17 voters, but only a condensed number of an estimated 1,000 people at a state
18 convention will vote proxy for these 500,000 voters;

19 **NOW, THEREFORE, BE IT RESOLVED**, that the Republican Party of Outagamie
20 County, in caucus assembled, believes that when more than one Republican candidate
21 enters a primary, the Republican Party of Wisconsin should have an option to not
22 endorse a candidate prior to the primary election, giving the voters of Wisconsin the
23 ability to properly vet all candidates in the primary and the liberty to decide their choice
24 in the primary election.

RESOLUTION 3-2022

ESTABLISH AND PASS A NEW CONTRACT WITH AMERICA

WHEREAS, Republican grassroots voters are frustrated with Federal Republican representatives because they do not present a focused effort; and

WHEREAS, Republicans brag about a big tent of ideas which is evident by diverse points of view represented by Mitt Romney, Liz Cheney and Marjorie Taylor Greene; and

WHEREAS, the most recent representation of a failure of purpose or focused ideas was January 2017 when the Republican leadership demonstrated that it was not ready to govern; and

WHEREAS, Republicans failed to repeal legislation by Democrats such as Obama Care resulting in Democrats continuing to push America further into Socialism; and

WHEREAS, the last time Republicans demonstrated a focused effort was 1994 when then Speaker Newt Gingrich presented The Contract With America; and

WHEREAS, grassroots Republicans believe there needs to be a contract with America which includes both the House and Senate; and

THEREFORE, BE IT RESOLVED, that the Republican Party of Wisconsin's Eighth Congressional District, in caucus assembled, recommends the establishment of a Contract With America; and

BE IT FURTHER RESOLVED, that the Republican Party of Wisconsin's Eighth Congressional District, in caucus assembled, recommends the establishment of a joint Contract With America between the House of Representatives and the US Senate;

NOW, THEREFORE BE IT RESOLVED, that the Republican Party of Wisconsin's Eighth Congressional District, in caucus assembled, recommends the established contract have written legislation ready for the next President to sign into law during the first 90 days demonstrating that the Republicans made a commitment and promise to America which they kept.

Documents taken from prior election' voter-fraud audits.

The 2012 Walker Recall:

Walker: "Not enough time!"

2/28/12: Today's Wisconsin's headlines disappointed the 14000 volunteers who worked so hard on the "True the Vote" and "Verify the Recall" projects. **Most thought the irregularities they uncovered would be used by the Government Accountability Board (GAB).**

Unfortunately, for the moment that can't happen. All challenges need to come from Scott Walker's office; not from any third party, and Scott Walker's staff just didn't have enough time to adequately inspect the 819, 233 signatures turned over to the GAB. We now know there were not over one million signatures gathered but, at last count, the total was holding at 819,233 which included 55,608 considered to be ineligible and another 228,940 signatures that needed further investigation.

While current technology may not be the silver bullet needed to stop fraudulent recalls, when given enough time we now have the ability to uncover the vast majority of fraud buried in up-loaded data. What's exciting from a forensic standpoint is now that all the fraud is part of a permanent data base, it will only be a matter of time before those who are responsible for any fraud are held accountable. Thanks to volunteers we're now able to identify obvious fraud, investigate suspected fraud, and help those who are innocent defend themselves against false accusations.

New laws are needed to better define fraud and regulations to better establish the consequences for perpetrating fraud during the recall process. New performance guidelines and standards are needed to protect the honest and innocent participants who are enticed or intimidated into taking part. We need to better protect those who choose to be politically active. Go to www.RMLearningCenter.com to learn more.

Correction however: Door County has spent \$50,000, not \$80,000. Gary had great question: where is Joel Kitchen's investigation?

It's very important to get the conservatives elected so please remember to vote and encourage other conservatives to vote. This is generally a very low voter turnout election so all the more reason to get out the conservative vote!!

Wisconsin-Door County Voter Fraud

-Update: the two flyers were changed to the jpg format as some could not open them-

At the election Central Count in Milwaukee this week photos were taken of vans from out of state. See attached photos, taken around noon time. This is while the April 5th voting was taking place (absentee). The vans were probably rental vans...by people from out of our state. When the drivers of the vans saw the photos being taken they fled. We made serious attempts to show the State GOP the election frauds (before these photos were taken), but they sloughed it off. Pass onto your GOP county chairperson and candidates running for office. Can't think of a single reason as to why they would need to rent large vans, and not just passenger cars.

Bonus round: two days ago a restaurant in Green Bay was rented out. FREE food and drinks for people to come in and register to vote. See the two attached flyers. The focus was on registering Democrats. \$30,000 spent! This was completely illegal. The young women heading it up: from Brooklyn New York. Yep, we-have-our-head-in-the-sand-GOP-leaders there is nothing to see here. The young woman said (paraphrasing) "I'll be here all of September and October".

Here is where the money came from:

<https://wisconsinspotlight.com/battle-for-green-bay/>

Here are other events, many

free: <https://www.greenbaypressgazette.com/story/entertainment/music/2022/03/29/justin-vernon-bon-iver-brings-wisconsin-voting-initiative-pop-up-green-bay/7203624001/>

Please get to your Representative, to your State Senator and to your GOP county chairperson. It is 2020 all over again.

This time the target for election fraud is Ron Johnson. The above shows how wrong Robin Vos has been, just dumb not to fix 2020 first.

Threating Claims April 6, 2022

WEC denied my four civil complaints filed to, and also against, them. This was expected. The complaints were asking for all the errors and shenanigans occurring in our statewide voter list/database WisVote to be corrected. WEC is now attempting to intimidate me by fining me \$2,400, claiming the filings were frivolous. Frivolous such as people actually voting using the 9999 zip code, or missing an APT number, or registered to the year 1918 which is impossible, or the 2,033 voters who sent their ballots back in via email. Email is not legal for voters classified as "Regular", it can

be for overseas and military if they go through a pre-process. The fine is a nice loud signal they want me (us) to go away. No worries, gave me a good chuckle. I'll be filing more complaints with them soon.

The law requires a complaint be filed first to WEC, even if it is WEC's doing the violations, even if it is one or more of the 6 Board of Commissioners who violated. Sidenote: one can file with the municipal clerk for a specific violation or illegal act pertaining to an election. It is right here:

Wis. Stat. 7.15(1) (g) In the manner prescribed by the commission [definition here is the local election commission, not WEC], report suspected election frauds, irregularities, or violations of which the clerk has knowledge to the district attorney for the county where the suspected activity occurs and to the commission. The commission shall annually report the information obtained under this paragraph to the legislature under s. [13.172 \(2\)](#).

Whitehat attorneys are here, working with them, will be filing a suit against WEC pertaining to the above. But also other suits will be filed to "fix" other glaring problems. Such as the unconstitutional limitation of Wis. Stat. 6.48(a) where you can only challenge a voter in your own municipality. 5 miles over you can't do it, no matter if you have solid proof. Yet 7.15(1) is available to use.

Lots happening behind the scenes. We disclose information as soon as possible, however we have to take into account strategic timing. We will disclose there is a John Doe proceeding (on our side, targeting the bad guys), to bring criminal charges. This is permitted per Wis. Stats. 968.26. There are numerous criminal complaints filed. And God Bless him Attorney Kaardal has served all of the 5 mayors and 5 clerks of the zuckerberg cabal election bribery complaints. Lindell's lawsuit seeking an injunction against the ES&S and Dominion voting machines is going to be filed very soon. Much of it is based on the findings of the three Tina Peters' reports. The reports are stunning. Found here:

[Election Reports - Tina Peters for Colorado — Tina Peters for Colorado](#)

Also encourage you to read the 108 page report of True The Vote - much more information in it than what they said at the hearing.

Sure looks like several election frauds took place yesterday: Sheboygan county yesterday with much more coming out on what happened - but votes were taken

away from a candidate who was wining; Claire in Milwaukee doing this over and over - accepting 3-4 ballots from one person and that person did not have to show a photo ID; funny business up in Green Bay (need more details); and....observer of ours sitting watching voting taking place. Normal/expected Wifi signals on the person's phone. Then when walking within 10 feet of the machines, a new signal popped up.

Gun Control Debate

Dec. 17, 2012: Protesters rally against the National Rifle Association on Capitol Hill in Washington. (AP)

Amid the tidal wave of shock and grief that followed the mass murder at Sandy Hook Elementary School in Newtown, Conn., the gun-control lobby immediately launched a well-coordinated campaign to pressure Congress and the Obama administration into enacting stricter regulation of guns and rifles.

These forces -- led by New York Mayor Michael Bloomberg, Rep. Carolyn McCarthy, D-N.Y., and Sen. Dianne Feinstein, D-Calif. -- had the playing field largely to themselves.

That is soon to change.

Sources close to the issue tell Fox News that the National Rifle Association -- which has remained silent since the shooting, chiefly to allow for a proper period for mourning -- will soon start to "push back" against the gun-control lobby.

"If we're going to have a conversation, then let's have a comprehensive conversation," said one industry source. "If we're going to talk about the Second Amendment, then let's also talk about the First Amendment, and Hollywood, and the video games that teach young kids how to shoot heads.

"If you really want to stop incidents like this," the source continued, "passing one more law is not going to do a damn thing. Columbine happened when? In 1999. Smack in the middle of the original assault-weapons ban."

Norman Mattoon Thomas
(November 20, 1884 - December 19, 1968)
was a leading American socialist, pacifist,
and six-time presidential candidate for the
Socialist Party of America.

The Socialist Party candidate for President
of the US, Norman Thomas, said this in a
1944 speech:

The American people will never knowingly adopt socialism.
But, under the name of "liberalism," they will adopt every fragment of
the socialist program, until one day America will be a socialist nation,
without knowing how it happened.
He went on to say: "I no longer need to run as a Presidential Candidate
for the Socialist Party.
The Democrat Party has adopted our platform."

Quotes:

Winston Churchill said,

"The only thing we have to fear is fear itself"

Abraham Lincoln said,

"America will never be destroyed from the outside. If we falter and lose our freedoms, it will be because we destroyed ourselves."

England's Prime Minister Margaret Thatcher warned,

"The problem with European Socialism is eventually you run out of other people's money."

Winston Churchill told Presidents Truman and FDR,

"Socialism is the philosophy of failure, the creed of ignorance and the gospel of envy, its inherent virtue is the equal sharing of misery"

Ronald Reagan said,

"Government exists to protect us from each other. Where government has gone beyond its limits is in deciding to protect us from ourselves."

Ronald Reagan also said,

"Socialists teach their children how to follow, while capitalists teach their children how to think, defend their freedom and value the liberty they need to pursue the American dream."

and good ole Abraham Lincoln said,

"America will never be destroyed from the outside. If we falter and lose our freedoms, it will be because we destroyed ourselves."

Thomas Jefferson said,

"My reading of history convinces me that most bad government results from too much government."

Thomas Jefferson also said,

"To compel a man to furnish funds for the propagation of ideas he disbelieves and abhors is sinful and tyrannical."

Barack Obama said:

"I can make a firm pledge, under my plan, no family making less than \$250,000 a year will see any form of tax increase. Not your income tax, not your payroll tax, not your capital gains taxes, not any of your taxes."

"I will cut taxes - cut taxes - for 95 percent of all working families, because, in an economy like this, the last thing we should do is raise taxes on the middle class." **FACT:** Obamacare was not passed as a healthcare law, but only passed after the Supreme Court ruled it, by one vote, to be a tax. The largest tax in US history.

.Ronald Reagan said,

"Government exists to protect us from each other. Where government has gone beyond its limits is in deciding to protect us from ourselves."

.Ronald Reagan also said,

"Freedom is never more than one generation away from extinctions."

.Ronald Reagan also said,

"The only difference between democrats and republicans, is when republicans are buried in a tunnel of debt, they dig toward daylight while democrats dig longer tunnels" **Fact:** Check out the rise in our national debt while Obama/Biden were in the White House, and check out Wisconsin's debt structure under Doyle compared to Walker. Wisconsinites only wish we could have Walker back in Madison.

"In God we trust!! If we have to go through hell to drain the socialists out of the swamps, we'll do it"

MARATHON
COUNTY SUMMARY.c

Peter Sting: Specific to Door County:

Door County registration list run through new software - which compares WEC data to US Postal Service verified data. Will have to go through all the error codes, but lots of good stuff in here. 81 moved out of the county two or more months before the election, yet voted Nov.3rd. Nine of those 81 moved out of state in fact (found in NOT CNTY moved B4 election voted file below). 2,760 have junk addresses. Found in File Processing Summary (that report is directly from the US Postal Service), and in DPV FTNTS (footnotes) combined file, and in BLANK file. DPV means the "Delivery Point Validation", which is a physical address given a number/name by the Postal Service. Duplicates exact shows 450. Duplicates very close show 720. The footnote file shows 576 with one problem or

another. Lots of stuff wrong here. This falls on the municipal clerks, WEC and ERIC. List below include both Active and Inactive registrants. That total I believe is 38,500 or close to.

1. From new software, customizing its filters: stunning what we are finding. One example of a "run" is shown below of Ashland County. Each file either shows illegally cast ballots or, incorrectly/illegally registered voters. There are over a hundred codes to decipher that give great insight into each. When you open a file it is in PDF, but if you download it the file converts to excel. See further below for LaCrosse County numbers, and much more.

2. LaCrosse County Figures:

- A 306 moved out of the county well before the election, yet voted Nov. 3rd, 2020.
Of those 18 moved out of state well before the election, yet voted.
- B 3,078 address is not a valid delivery point
- C 1,301 street name is invalid
- D 820 a directional is either missing or invalid on the primary address
- E 235 address line matches at least two zip codes, indicates flaw in USPS data
- F 9 commercial addresses
- G 2,770 exact duplicates
- H 5,107 High rise (apartment building) is missing a secondary address. Example: 123 Oak St is shown, but it is an apartment complex. It should be "123 Oak St. APT #3". Statute

requires this

I The list total for La Crosse County is 200,503, Active and Inactive registrants. There are even more findings also to this list.

3. Have run eleven counties now for the 'moved two or more months before the election, yet voted Nov. 3rd'. That total right now stands at 11,810. This does not include the voters who moved within the county to a new municipality, two or more months before Nov.3rd, yet still voted using the old address. These numbers just blow WEC and ERIC out of the water. You have to laugh, WEC Commissioner Knudson just said last week on camera "our voter rolls are the cleanest they have ever been".

4. We are/have been working to raise funds to hire a full-time person to work on cleaning up these lists statewide. Will need to buy some new lists also. Wis Stats 7.15(1)(g), 6.48(1) and 6.50(3) can be used to do it. The person can use our new Mequon office of the nonprofit. www.wisconsinselectionjustice.org The August primary is just 71 days away. We can start with cleaning District 63 to help Adam Steen beat Robin Vos. And jump on the five Zuckerberg counties also. Kenosha County numbers are unbelievably bad. We are in discussions with an attorney about filing some sort of injunction on this also.

5. Kicking myself for not buying the software package sooner. We are using it to compare WEC's data to verified US Postal Service data. The latter is updated weekly. The city of Appleton had 143 people move out of the city two or more months before the election, yet voted Nov.3rd, 2020. Brown County 758. Ozaukee County 367. Marathon County 538. Rock County 2,904. Dane County 1,610 (lower than first reported due to an error on our part). Sheboygan County 79. La Crosse, as said 306. Fond du lac County 173. Milwaukee County 1,785. Walworth County 38. Kenosha County 760. Green County 8. Running all counties, Door County is next.

Peter

1. Tina Peters - the movie. <https://selectioncode.com/>

2. Have been meeting with many attorneys. Things are progressing. We can see the light Meagan Wolfe will not have a job. If not via lawsuit(s), then when we take Evers out of office this coming November.

3. Robin Vos told us on the phone he is NOT picking Kathy Bernier to replace Knudson. Referring to Dean Knudson's resignation this week as a WEC Commissioner. Knudson resigned due to all of us, i.e. grassroots pressure. Word is he got bombarded, then Johnson called him pretty much telling Knudson he was not supported to be Chair of WEC. It all worked. Last, Vos feels our pressure, keep it on him, please. Call, fax, email, snail mail all asking him to appoint a true conservative. June 10th is the next meeting when they take the vote, so need your help in communicating to Vos now.

Bernegger: Request

We need all fellow conservatives to contact Robin Vos and keep on him. WEC Commissioner Dean Knudson resigned last night. It is Vos now who appoints the replacement Commissioner. It was learned State Senator RHINO Kathy Bernier was seen in Vos' office many times yesterday afternoon - she repeatedly was in Vos' office as soon as it was learned Knudson was resigning (he disclosed his resignation several hours before last night's meeting). Demand he not choose a RHINO, especially Bernier. Bernier was the one feeding Democrats questions when numerous people were testifying before the State Assembly Committee on Elections. Feel free to send letters to his Rock Ridge Rd address as he conducts politics, and campaigning, out of that office also. Point out he will lose the August primary for sure if he appoints Bernier or some other RHINO.

MARATHON COUNTY SUMMARY
 May 24, 2022

We ran the WEC list of August 19, 2021, against the current (May 13th) US Postal Service verified database. Used new computer programming. The results are surprising, more than we thought in that county.

All Registrants (Active and Inactive)	147,334
"Active" Voters Marathon County Only	80,394
Moved Voters: moved before July 2020, Yet voted in the Nov.3 rd election	534
DPV_Vacant Marathon County Only	178
DPV_CMRA Marathon County Only	3
DPV_FTNTS Combined	895
895 number includes:	
AACC – Incorrect Secondary	462
AANI – Missing Secondary	264
AAM3 – Primary Invalid	169
Questionable Voters	1,610

-DPV = Delivery Point Validation. Delivery Point is a physical location to which the US Postal Service assigned an address at some time in history.

-Vacant: address that was active in the past but is not currently occupied (usually over 90 days) and is not receiving mail. Does not apply to seasonal addresses. This particular report would mean vacant from May 13th 2022 and back for ~90 days.

-CMRA: indicates whether or not the presented address is a Commercial Mail Receiving Agency.

-Incorrect Secondary means it was reported, for example, as APT #3 when it is APT #14. Although perhaps a scrivener error, it is illegal as it is not the registrant's legal address.

-Missing Secondary means, for example, a person who lives and reported the physical street address at an apartment complex yet failed to include the "APT #28". That is illegal.

-Note: our US Postal Data is updated weekly now, however, we are working off WEC's list we purchased on Aug. 19, 2021. Pls, consider that when conducting further analysis.

-Primary Invalid means the first part of the address is missing, or, incorrect.

-Moved voters means someone who moved out of the county either in July 2020 or earlier (going back decades). Of interest a good portion of these were out of state. And about 40% of those, living out of Wisconsin, voted "At Polls".

-We've been running several counties, big numbers are racking up! Planning to run all counties in our state then submit to each Gubernatorial Candidate, to ask them what they are going to do about it.

Please remember to contact Vos - he nominates a Bernier, or another RHINO tell him he will lose the August primary. We know he is panicked about that upcoming race. There are groups by the way organizing to go door knocking on weekends in District 63. Sry, I don't have contact right now.

Highest county in the entire state...by far.	
17) Likely Illegal Ballots Cast.....	6,823

NOTES:

- Used Wisconsin Election Commission data of August 19, 2021 compared to US Postal Service data of May 13, 2022. Used custom queries and filters.
- Duplicates Very Close include Nicknames such as Jim rather than James, or first initial only.
- Duplicates Exact includes only those matching exactly. Duplicates are results of WEC's abhorrent record-keeping policies. Due to WEC's decisions at some point in time there will be more deceased people on the statewide voter list than people who live in Wisconsin.
- The a-c breakdown under DPV_FTNTS is more detailed information as to how the combined count was calculated. FTNTS = footnotes; has error codes.
- Delivery Point Validation means a physical address the US Postal Service at some point in history assigned an address to.

5. New postings continue at the website: www.wisconsinselectionjustice.org

6. Interesting findings: many believe people vote in Wisconsin from out of state. Not the prevalent election fraud, however. In this arena it is people who move out of state, then have their names used to cast a ballot without their knowledge. We are just over 12,000 right now (includes ones who moved to another county in Wis.). Have dates they moved, names, addresses, vote ID numbers, voting histories, and the new move to addresses.

7. Preparing for a visit to a Sheriff.

Peter

We knew it! WEC moved the election for their new Chairman up a month. These people are just rotten to the core. The election is supposed to be held in June, and here they tried to sneak it past us citizens. Please: contact all board members and push for Bob Spindell. Ask why they moved the election up a month. Ask Knudson if he is going to vote for Spindell. As Knudson had his turn already just recently, he had the Chair before the current Ann Jacobs. We smell a rotten Robin Vos behind this - he is behind Knudson.

Door County June 6, 2022

Door County registration list run through new software - which compares WEC data to US Postal Service verified data. Will have to go through all the error codes, but lots of good stuff in here. 81 moved out of the county two or more months before the election, yet voted Nov.3rd. Nine of those 81 moved out of state in fact (found in NOT CNTY moved B4 election voted file below). 2,760 have junk addresses. Found in File Processing Summary (that report is directly from the US Postal Service), and in DPV FTNTS (footnotes) combined file, and in BLANK file. DPV means the "Delivery Point Validation", which is a physical address given a number/name by the Postal Service. Duplicates exact shows 450. Duplicates very close show 720. The footnote file shows 576 with one problem or another. Lots of stuff wrong here. This falls on the municipal clerks, WEC and ERIC. List below include both Active and Inactive registrants. That total I believe is 38,500 or close to.

Election fraud involving military absentee ballots

1. Number of ballots cast using the "permanently overseas status":

- a. In the 2008 election 298 voted
- b. In the 2012 election 610 voted
- c. In the 2016 election 778 voted
- d. In the 2020 election **5,751** voted, a 639% increase

2. Number of ballots cast using the voter status of "military":

- a. 2008 election: 516
- b. 2012 election: 1,511
- c. 2016 election: 1,518
- d. 2020 election: **8,880**, a 485% increase.

Someone is using these people's names without their knowledge to cast a ballot. It is election fraud by 1,000 cuts.

Here you go, add up the taxpayers' monies fighting me for access to public records. The case is still going on. One specific note: it took Jill Lau ONE YEAR to get to me the cost of obtaining the electronic ballot images and tabulator tape prints. Which was \$100. Think of that, and she has spent \$50,000+ fighting me (us really).
Fine with me to make this public.

Here's an RMLC reminder for "the "8th Congressional District Democrat Socialists," putting up the signs begging anyone still dumb enough to vote for a democrat.

The signs say: "Vote Democrat -- they vote for us." Their signs in 2020 said: "Trust us, we're the party of peace and prosperity."

FYI: After putting a fork in our oil industry, Biden is going to Venezuela begging for oil, thanks to the 8th Congressional District democrats.

They said it themselves: If we don't impeach Trump, there's no way we'll beat him at the polls". Now, if they can't convict him of something he did that's criminal on January 6th, there's no way they'll beat him in 2024.

July 10, 2022 Milwaukee Wards

1. City of Milwaukee Team: we obtained the voter reg. applications for wards 6 and 55. Claire refused to provide them for us to inspect in person. So i) we accepted them electronically, ii) our public records lawsuit against was amended to include to inspect them in person for the reason a little bird told us the absentee applications looked brand spanking new, no folds, crips out of the box. So, we found 7 of the voter registration applications we were looking for. That is enough to invoke jurisdiction. Have found them in numerous counties across the state. They are illegal as they are missing ~8 mandatory requirements. One, in particular, is no clerk or other approved election official signed/dated them. WEC is in on this scam.

2. Presenting evidence of election fraud to St Croix County Sheriff mid-July. Date has been set.

3. We have found on average there are 6.5% address error rates for ACTIVES on the statewide voter list. This was determined scanning two small lists we purchased within the last 10 days. We are obtaining a new statewide list soon and will be scanning it against all our databases looking for errors. If the 6.5% rate holds that means there are ~225,387 addresses on the list of Actives that are wrong in one way or another. Of course, with up to 74% voting via absentee by US Mail this is a huge problem. We'll challenge them all before the August primary.

4. Challenge went into City of Beloit, clerk claimed it was a public records request - it was not. We are resubmitting pronto.

5. We were fortunate enough to have the judge removed in the public records lawsuit against Claire Woodall-Vogg. Case is still going.

6. Door County case is still going, we file a response due July 15th. They spent over \$55,000 (we have the invoices) with the two Milwaukee attorneys. Now their local counsel has taken over the case, taking that as a win where they are feeling the heat of spending such large sums of money - all to prevent us, citizens, from seeing OUR documents.

7. We are developing a proactive system to challenge ballots well before election day. Where challenges will go into clerks even before the ballot gets back into the system.

8. Going to Waukesha County Sheriff and DA soon. They are very receptive so far.

9. The big lawsuit is coming - we know we sound like a broken record on this - but it is true, it is coming.

10. Saw that President Trump endorsed Assemblywoman Janel Brandtjen! She also "won" her legal argument with WEC: it has been determined by Legislative Counsel she gets all the documents she requested from WEC, for free to boot (WEC wanted to charge \$12,500 for the list, \$100,000 for the other info).

11. Check out the website, www.wisconsinelectionjustice.org we keep adding more and more findings.

Peter

Our side won at the WIS Supreme Court just now - drop boxes are illegal. The court affirmed the lower court's findings! No more massive drop boxes are permitted in our elections!

Link to the opinion:

<https://www.wicourts.gov/sc/opinion/DisplayDocument.pdf?content=pdf&seqNo=542617>

Note, there is an exception in the statute whereby a dropbox can be used if staffed by two people designated by the clerk of the respective municipality. But otherwise must be locked. For the clerks who take this approach, we'll gear up to send in daily public records requests for the log books for those boxes then run the names/addresses in our system to verify them the best we can.

Processing Summary i

As we've been suspecting for upwards to 8 months now it is the applications. The applications were the gateway to committing the election fraud. They used fake, phony, unauthorized, illegal applications. To get people onto WisVote, to get voter ID's, to get absentee ballots, to get in-person ballots on election day.

1. Voter registration applications
2. Absentee ballot applications
3. Indefinitely confined applications
4. Along with absentee envelopes

185,000 of them, likely upwards to 250,000, in MKE and Dane Counties alone. In other counties across the state also. Nonprofits printed the applications (several different styles) and mailed directly to targeted households. Pre-printing in names and addresses to boot. Mailings to those targeted households as many as 10 times. \$\$\$\$ was spent. Trump won bigly.

If there is any way to preserve and obtain all the applications used/accepted in the Nov.3rd 2020 election that is what we need to do. Particularly in liberal enclaves. The applications are where your election fraud is my friends. Of course along with zuckerbucks, CTCL, some crooked clerks, Meagan Wolfe playing cover, human mules, whatever the voting machines' role was, drop boxes, padding WisVote (or using real people off of WisVote without their knowledge). Given the limited time and resources pretty much forget about the ballots, focus on the applications.

Claire twisted and turned several times during the deposition, for once being under sworn oath and not in front of a friendly liberal media person who lobs softball questions.

Above, in a nutshell, is how Biden cheated in Wisconsin. Most of this "system" is still in place heading into the midterms.

July 19, 2022 From Peter:

Extremely important: I wrote about this a year ago in numerous emails to people across the state. The place to decertify is at the county level. Each of the government election officials below signed Certifications under oath as to the number of votes cast in the Nov.3rd, 2020 election:

- municipal clerks first,
- then county clerks,
- then Meagan Wolfe and Ann Jacobs,
- last Governor Evers and Sec. of State Lafollette

After all these Certifications were signed, the state's ten electors cast their votes for Biden. All of this is required per Wis Stats 7.51-7.70. But now, all those Certifications are null and void for the express reasons found in the recent WIS Supreme Court Opinion. Rightfully so, based on state statute, for this reason: all ballots placed in the drop boxes during the Nov 2020 election were null and void the second they were placed in those boxes. AG candidate Attorney Karen Mueller stated this succinctly at the news conference two days ago.

There is a way to challenge all this per statute. A written challenge would be submitted to the County Board of Canvassing. This Board is typically composed of the County Clerk and two other people. If this Board declines to decertify its own Certification for the 2020 election, the statute states one can bring the same challenge to the County Board of Supervisors. If the County Board of Supervisors declines to decertify, the law says a lawsuit can be filed in the county seeking said relief. One could also file a challenge to your local municipal clerk asking him/her to decertify their Certification (as long as they used dropboxes). It is all laid out in Chapter 7 of our statutes.

Decertify from the bottom up, not the top down. It takes it out of the hands of corrupt Robin Vos, Meagan Wolfe and Tony Evers.

The good news keeps rolling in:

Ruby Freeman out of Fulton County Georgia, part of the lovely mother/daughter team who pulled suitcases out from under the tables and fed ballots through the tabulators, has been caught on camera admitting they did it. . For those who have not seen this yet, please watch the attached 65-second video. It is a vast interim win for Mike Lindell against the voting machines in Arizona. This is the injunction lawsuit we told you about a while ago. Clarifying: we were told Wisconsin would be first, of where it would be filed. That was true then, so we passed it on to you. Then Wisconsin was moved to second, then (and now) fourth. It has been filed in AZ, AL, and NE, so they have easier State Attorney Generals to deal with instead of our communist Josh Kaul. So that is what happened. Now they are short of attorneys, for now, to file in additional states. However, the video shows a massive win in the ongoing lawsuit. We'll have to wait for the final judgment.

2. WEC is once again making up their law, using "guidance" memos:

Saint Croux Drop Boxes

St Croix County Drop
Box Status July 30th 21

August 1, 2022

Grassroot teams through the Wisconsin Center for Election Justice (WCEJ) found multitudes of ballot drop boxes across the state that are unlocked and unmanned. Some drop boxes have locks; others don't. These were in Dane, Racine and St Croix counties. Wisconsin state law requires two people, approved by the local clerk, to be present if these boxes are open. The Wisconsin Supreme Court recently confirmed this ruling "¶3 The circuit court granted summary judgment in favor of the Wisconsin voters.¹⁴ The court declared the documents were administrative rules, which had not been properly promulgated, and, among other things, "the use of [ballot] drop boxes, as described in the [documents], is not permitted under Wisconsin law unless the drop box is staffed by the [municipal] clerk and located at the office of the clerk or a properly designated alternate site under Wis. Stat. § 6.855". Teigen v Wisconsin Elections Commission, 2022 WI 64 - Wis: Supreme Court 2022. And "... the use of (ballot) drop boxes... is not permitted under Wisconsin law unless the drop box is staffed by the (municipal) clerk and located at the office of the clerk or a properly designated site under Wis. stat. 6.855."

Although some drop boxes contain a note attachment that absentee ballots cannot be deposited in the box, a ballot can still be deposited into these unlocked boxes. The drop box signs, if any, are only in English which is problematic in diverse communities. Furthermore, the teams of volunteers did not see one camera on any of the drop boxes. Various persons inside the municipalities had assorted answers as to what they do if someone deposits a ballot - from issuing 'oh, we'll just issue the voter another ballot' to, 'no - they don't have a drop box' when they do. Or they promulgated the excuse of "no one puts a ballot in the box because of the sign". Then why are some drop boxes unlocked?

One, in particular, is concerning where the City of Hudson Clerk, Vicky Eggens, just placed a dirty old tarp over the ballot dropbox and a bunch of duct tape. This is from a City Clerk being paid \$120,000 in salary per year plus benefits. The city only has an adult population of just 11,900. Yet they can't seem to afford a \$20 lock.

Wisconsin early absentee voting began this past Tuesday for the upcoming August 9th primary. These photos prove there are still problems with drop boxes in Wisconsin. Enforcement of the law is needed immediately. The investigation by WCFEJ is still ongoing. Their website is:
www.wisconsinselectionjustice.org

August 10, 2022

A. 76,265 are Active on the voter registration list but never voted. Never voted ever. Somewhere in these are Phantom Donors.

B. Phantom Donors: people who register to vote, giving them the appearance of being legitimate. These profiles are then used to donate to Democrats in the respective states. A few Republicans also. This method keeps them under the donation limits. We've found one guy (not in WIS) with over 3,086 registrations across various states. Many times a valid address is used but with a fake name. We start by looking at the donation paperwork. These might include IRS 990s, SEC filings, and others, then work backward towards the voter registration lists.

C. Found 406 to date across the USA working with another group. Money source: we don't know yet. However, millions of campaign donations are being laundered.

D. In performing these queries we found something else. Going back four years, to the end of December 2017, there are 1,257 who are i) Active, ii) have not voted - ever. They should have been removed under the Administrative Action process. (admitting not sure what date to start counting back 4 years so the 1,257 number could go up or down some). More evidence of WEC's failure to do their job.

Will be running the more detailed query of the process for Wisconsin to ferret out the Phantom Donors. Bottom line: our election systems are horrible.

1. City of Milwaukee Team: we obtained the voter reg. applications for wards 6 and 55. Claire refused to provide them for us to inspect in person. So i) we accepted them electronically, ii) our public records lawsuit against was amended to include to inspect them in person for the reason a little bird told us the absentee applications looked brand spanking new, no folds, crips out of the box. So, we found 7 of the voter registration applications we were looking for. That is enough to invoke jurisdiction. Have found them in numerous counties across the state. They are illegal as they are missing ~8 mandatory requirements. One, in particular, is no clerk or other approved election official signed/dated them. WEC is in on this scam.

2. Presenting evidence of election fraud to St Croix County Sheriff mid-July. Date has been set.

3. We have found on average there are 6.5% address error rates for ACTIVES on the statewide voter list. This was determined scanning two small lists we purchased within the last 10 days. We are obtaining a new statewide list soon and will be scanning it against all our databases looking for errors. If the 6.5% rate holds that means there are ~225,387 addresses on the list of Actives that are wrong in one way or another. Of course, with up to 74% voting via absentee by US Mail this is a huge problem. We'll challenge them all before the August primary.

4. Challenge went into City of Beloit, clerk claimed it was a public records request - it was not. We are resubmitting pronto.

5. We were fortunate enough to have the judge removed in the public records lawsuit against Claire Woodall-Vogg. Case is still going.

6. Door County case is still going, we file a response due July 15th. They spent over \$55,000 (we have the invoices) with the two Milwaukee attorneys. Now their local counsel has taken over the case, taking that as a win where they are feeling the heat of spending such large sums of money - all to prevent us, citizens, from seeing OUR documents.

7. We are developing a proactive system to challenge ballots well before election day. Where challenges will go into clerks even before the ballot gets back into the system.

8. Going to Waukesha County Sheriff and DA soon. They are very receptive so far.

9. The big lawsuit is coming - we know we sound like a broken record on this - but it is true, it is coming.

10. Saw that President Trump endorsed Assemblywoman Janel Brandtjen! She also "won" her legal argument with WEC: it has been determined by Legislative Counsel she gets all the documents she

requested from WEC, for free to boot (WEC wanted to charge \$12,500 for the list, \$100,000 for the other info).

11. Check out the website, www.wisconsinelectionjustice.org we keep adding more and more findings.

Peter

For Immediate Release:

Grassroot teams through the Wisconsin Center for Election Justice (WCEJ) found multitudes of ballot drop boxes across the state that are unlocked and unmanned. Some drop boxes have locks; others don't. These were in Dane, Racine and St Croix counties. Wisconsin state law requires two people, approved by the local clerk, to be present if these boxes are open. The Wisconsin Supreme Court recently confirmed this ruling "¶3 The circuit court granted summary judgment in favor of the Wisconsin voters.^[3] The court declared the documents were administrative rules, which had not been properly promulgated, and, among other things, "the use of [ballot] drop boxes, as described in the [documents], is not permitted under Wisconsin law unless the drop box is staffed by the [municipal] clerk and located at the office of the clerk or a properly designated alternate site under Wis. Stat. § 6.855". Teigen v Wisconsin Elections Commission, 2022 WI 64 - Wis: Supreme Court 2022. And "... the use of (ballot) drop boxes... is not permitted under Wisconsin law unless the drop box is staffed by the (municipal) clerk and located at the office of the clerk or a properly designated site under Wis. stat. 6.855."

Although some drop boxes contain a note attachment that absentee ballots cannot be deposited in the box, a ballot can still be deposited into these unlocked boxes. The drop box signs, if any, are only in English which is problematic in diverse communities. Furthermore, the teams of volunteers did not see one camera on any of the drop boxes. Various persons inside the municipalities had assorted answers as to what they do if someone deposits a ballot - from issuing 'oh, we'll just issue the voter another ballot' to, 'no - they don't have a drop box' when they do. Or they promulgated the excuse of "no one puts a ballot in the box because of the sign". Then why are some drop boxes unlocked?

One, in particular, is concerning where the City of Hudson Clerk, Vicky Eggens, just placed a dirty old tarp over the ballot dropbox and a bunch of duct tape. This is from a City Clerk being paid \$120,000 in salary per year plus benefits. The city only has an adult population of just 11,900. Yet they can't seem to afford a \$20 lock.

Wisconsin early absentee voting began this past Tuesday for the upcoming August 9th primary. These photos prove there are still problems with drop boxes in Wisconsin. Enforcement of the law is needed

immediately. The investigation by WCFEJ is still ongoing. Their website is:

What follows below has been sent to the municipal clerks of Racine County. Please no emails back, have a different project to finish today. Peter

Dear Racine County Municipal Clerk,

July 31, 2022

A. This is a legal challenge to alleged election frauds, irregularities and/or violations in your municipality. There are over 4,643 of them throughout Racine County. Please see your Wards, if any, on each sheet. I hope you agree the voter registration list needs to be accurate.

The findings here however show that ERIC (the Electronic Registration Information Center Washington DC-based private company) wholly failed all Wisconsin citizens in the job we pay them to do. And Democrat Meagan Wolfe at WEC has issued "guidance memos" that have consistently been struck down by courts across the state, including the Wisconsin Supreme Court, as being illegal. And not forgetting Republican Robin Vos. He is the one who created the Wisconsin Election Commission back in 2015, which has since created all this mess. Wolfe and Vos have created a Rube Goldberg machine. She denies anything is wrong and he closed down the state legislature for the year so he can campaign. Thus, please help us citizens clean up the voter registration list.

B. These challenges are brought under Wis. Stats. 7.15(1)(g), 6.33(1), 6.32, 6.325, 6.48(1), 6.50(3), 6.92, 6.925, 6.93, 6.94, 7.52(5), and 12.13 et al. Per the first one, it requires a municipal clerk to report these suspect ones I'm challenging here to the County District Attorney:

7.15(1)(g) *In the manner prescribed by the commission, report suspected election frauds, irregularities, or violations of which the clerk has knowledge to the district attorney for the county where the suspected activity occurs and to the commission. The commission shall annually report the information obtained under this paragraph to the legislature under s. 13.172 (2).*

Furthermore, "Wisconsin Stat. § 6.50(3) directs 'the municipal clerk or board of election commissioners to act when they receive 'reliable information that a registered elector has changed his or her residence to a location outside of the municipality.' State v. Wisconsin Elections Commission, 957 NW 2d 208 @ ¶12 - Wisconsin Supreme Court 2021. In addition to the above statutes § 6.36(1)(c) gives you the legal authority to make changes to the voter registration list. Also, under the federal law of HAVA you are to maintain the voter registration list. See 52 U.S.C. § 21083(a)(1)(A). Maintain here means accurate, in good condition and repair. In 2002, Congress enacted HAVA, which was in part created "to ensure that voter registration records in the State are accurate and updated regularly." 52 U.S.C. § 21083(a)(4). Additionally, under HAVA, states not subject to the National Voter Registration Act—and Wisconsin is not - The State "shall remove the names of ineligible voters from the computerized list in accordance with State law." 52 U.S.C. § 21083(a)(2)(A)(iii). As Wisconsin Supreme Court Justice Rebecca Grassl Bradley eloquently wrote:

"Indeed, retaining thousands of potentially illegitimate registrations on Wisconsin's voter lists substantially harms the integrity of elections and dilutes or even cancels votes of validly registered citizens. Removing ineligible voters from this state's registration list is paramount if Wisconsin takes seriously its obligation to ensure fair and honest elections."

From the case of State v. Wisconsin Elections Commission, 957 NW 2d 208 @ ¶154- Wis: Supreme Court 2021. If our lists are not accurate it threatens the integrity of our elections. This is why I am filing the challenges.

C. The origins of the data provided to you here are from the Wisconsin Election Commission, the US Postal Service verified database, and the US Postal Service's national change of address service. See attached Affidavit.

D. The primary focus of this data analysis is the November 2020 election, which was the last (large) Presidential election. Secondly, it is significantly concerning that we are heading into two elections in our state with such defective registrations. The overall picture tells the story that there are more Inactives, at 136,482, on the Racine County list than Actives at 111,665. WEC tells us the two lists are separated. But what they omit is the two lists are connected to each other. Where even "Inactives" have been changed to Actives, voted, all with the exact same voter ID number. Then there are still 24,890 deceased on the Racine County registration list. With 632,599 statewide. There is even one elector with the registration number "Q". This is not the way to maintain our registration lists.

E. There may be duplicate records across the various worksheets as these records fit multiple categories that are being challenged (see below). Each of the 12 spreadsheets attached focuses on a specific issue or topic. I would be happy to help you and your staff with this critically important effort to protect our elections. There are local volunteers in Racine County willing to help also.

F. The 12 spreadsheets attached have the following file names from 1-12 below. Then each has the allegations below it, providing more details. Each sheet is typically sorted by Ward. Overwhelmingly it was Active registrants as of July 2022 who were processed. The number at the end of the file name is how many there are on the sheet.

1. RacineFPusps3

a. These 3 electors registered and voted using a US Post Office box. This is illegal.

2. RacineWIS4footnotes220

a. sorted by Ward, see column AF

b. address error code found in column CG

c. all 220 have the address problem of the ZIP _ 4 not matching, per the USPS

3. RacineWIS4notVALIDdeliveryADDRESS147

a. not a valid delivery address, see column BQ where the "N" is from the USPS

b. sorted by Ward column AF

c. these electors are illegally registered

4. RacineWIS4upsPACKnSHIP1

a. Elector registered and voted from a UPS pack n ship store. This is illegal as it is not the elector's legal residence. It is not where she normally would sleep at night.

5. RacineWIS4movedYETvoted531

a. these electors moved out of your county two or more months before the Nov. 3rd, 2020 election – yet voted using the old address. This is illegal as they did not cast a ballot where their legal residence was.

- b. sort by Ward, see column AF
- c. county they moved – see column BM
- d. the move date per the USPS is shown in column CC

6. RacineWIS4vacants636

- a. these electors are at a vacant address, per the USPS
- b. column BP shows a “Y”, meaning per the USPS “Address is a vacant”. Its an address that was active in the past but is not currently occupied (usually over 90 days) and is not receiving mail may be flagged as vacant. The address could receive delivery again. This does not apply to seasonal addresses.
- c. sorted by Ward, see column AF
- d. based on the above information of WEC and the USPS the addresses are not valid; hence the electors are illegally registered

7. RacineWIS4stdERRORcodes351

- a. sorted by Ward, see column AF
- b. address error codes are shown in column BT
- c. Error Codes:
 - i. 412 – The street name is invalid one way or another
 - ii. 421 – the primary address does not contain a number which falls within the ranges available for that street or road. Example: “1802 Smith St” however Smith St only has the range from 100 up to 1200.
 - iii. 422 – a pre-directional is required to validate the primary address. It is either missing or invalid. Example: “123 Smith St” should be “123 N Smith St”.
 - iv. 601 – the address is not a valid delivery point and a ZIP4 was removed from the record during verification.
- d. these electors are registered illegally.

8. RacineWIS4nofirstname13

- a. Per WEC’s own data these electors are illegally registered as they have provided no first name. It shows that WEC’s software programming is amateurish. If there is no first name the system shouldn’t accept the registration.
- b. sorted by Ward

9. RacineWIS4incompetents29

- a. WEC moved to an electronic voter registration list in 2006. Since then hundreds of thousands of people have registered in your county. WEC shows 248,147 in fact. Out of those, there would be a fair number deemed incompetent by a court. However, since 2006 and after 248,147 have been entered into the registration list for Racine County WEC wants us all to believe only 29 have been declared incompetent (to the level they were no longer allowed to vote). The 29 number is abysmally low. It is Meagan Wolfe who gave the order to not process the Register of Probate forms being sent in from all 72 counties. She is violating the law. There are upwards of 25,000 which should appear on the list statewide. Yet there are only 1,238.
- b. I ask you to contact your county’s Register in Probate official and obtain copies of all incompetent forms they sent to WEC for the last five years. Then for you to process them to turn the legally declared incompetents to Inactive. As you – not WEC – run our elections. See Wis Stat 7.15:

7.15 Municipal clerks.

(1) Supervise registration and elections. Each municipal clerk has charge and supervision of elections and registration in the municipality. The clerk shall perform the following duties and any others which may be necessary to properly conduct elections or registration:

10. RacineWIS4regstrants1918quantity1504

a. It is mandatory that electors are registered with the correct information. Wis Stats 6.27 thru 6.35. In particular, see 6.33(1). Here there are 1,504 in your county registered in the year "1918", and Active. This is impossible as these Electors would be over 125 years old.

b. they are illegally registered and I ask each be contacted to see 1) if they are real people or have not moved, 2) to re-registration with all the correct information.

11. RacineINDEFconfinedNOidentificationVOTED1236

a. A list was purchased from WEC of all the Electors who 1) voted in the Nov. 3rd, 2020 election, 2) never showed any photo ID.

b. These Electors cast illegal ballots as they failed to be properly verified before voting

12. RacineFPnoVOTERidNUMBER1

a. Elector has no voter ID number. This is illegal. Wis Stat 6.36(1)(a)(4). It shows terrible software programming by WEC allowing this to even be possible.

13. Ballots Placed In Drop Boxes

a. There is no spreadsheet for this, however I challenge each ballot ever placed in a drop box in your municipality. State statute never permitted ballots to be cast this way. Wis Stat 6.87(4)(b)1. Now the Wisconsin Supreme confirmed it, ruling ballots placed in drop boxes were illegal. The ballots placed in those boxes are null and void, of no legal effect. "¶4 We hold the documents are invalid because ballot drop boxes are illegal under Wisconsin statutes. An absentee ballot must be returned by mail or the voter must personally deliver it to the municipal clerk at the clerk's office or a designated alternate site." See Teigen v Wisconsin Election Commission, 2022 WI 64 – Wis: Supreme Court 2022. Pointing out Meagan Wolfe on her own issued a "guidance" memo to all of you alleging drop boxes were permitted. However, the WEC's six commissioners never voted on this issue. Teigen @ ¶6.

b. I challenge all the ballots placed in unmanned drop boxes in your municipality. I further challenge the Certifications you signed for each election such ballots were cast in. The vote totals on those Certifications are wrong, and incorrect.

Last, one more list will be sent to you when finished. Please feel free to contact me. I ask you to provide feedback on what action you take for each of the challenges in your jurisdiction. An Affidavit follows.

Thank you,

1. For those who have not seen this yet, please watch the attached 65-second video. It is a vast interim win for Mike Lindell against the voting machines in Arizona. This is the injunction lawsuit we told you about a while ago. Clarifying: we were told Wisconsin would be first, of where it would be filed. That was true then, so we passed it on to you. Then Wisconsin was moved to second, then (and now) fourth. It has been filed in AZ, AL, and NE, so they have easier State Attorney Generals to deal with instead of our communist Josh Kaul. So that is what happened. Now they are short of attorneys, for now, to file in additional states. However, the video shows a massive win in the ongoing lawsuit. We'll have to wait for the final judgment.

2. WEC is once again making up their law, using "guidance" memos:

<https://www.wizmnews.com/2022/07/20/wisconsin-gop-blocks-clerks-from-fixing-ballot-addresses/>

3. Late last night Assemblywoman Janel Brandtjen, and we believe State Senator Nass filed in Waukesha County Court seeking a temporary restraining order. Nass' attached press release nails it. They are seeking to stop WEC's lawlessness.

4. For another election fraud conviction, see the link below. More coming -

Please listen very carefully to the details of how they committed voter fraud in Philly back in 2020 and other elections. We have an eye witness and other circumstantial evidence this is how it happened here in Wisconsin, along with other election and voter frauds:

If you haven't heard about Konnech yet, Google or use another search engine for: "Konnech CEO arrested in LA"

A Chinese connection to election fraud. It goes deeper than what has been announced so far. The City of Milwaukee is the only one who entered into a contract with Konnech in Wisconsin...that we are aware of. That contract is attached.

Peter

KONNECHcityOFmilw

If you haven't heard, a Judge ruled in this Waukesha County case against WEC. People cannot change their ballots after they have cast them. This was a wide-open door to committing voter fraud.

The bigger story here however is Meagan Wolfe, top Administrator of WEC, got hammered by a court again! The Judge ruled her "guidance memo" to the clerks was unlawful, and illegal. This has been a core problem of our election system. Wolfe and her cronies would just issue "guidance memos" to their liking. Of

course always in support of Democrats, almost always opening the door to election fraud of one sort or another.

<https://thefederalist.com/2022/10/06/wisconsin-judge-rules-that-electors-cannot-change-ballots-after-voting/>

Other: an amended complaint plus a motion for a Temporary Restraining Order has been filed as of last night in the Ozaukee County lawsuit. It is believed a person can register to vote using MyVote without providing any photo ID or social security number. This is illegal per state statute and per the federal HAVA act section III.

We are winning. We'll disclose now: more lawsuits are forthcoming. 😊

Drop Box Laws

There is nothing more valuable, than your having your voice heard and your vote counted. In a free county, your voice and vote are far more valuable than any night deposit you might drop off at your local bank or credit union, during non-business hours.

That being said, both bank and credit union regulations, require all "night deposit" boxes to be UL list, making sure they are not only burglary resistant, but also "fish and trap" resistant and "duel-locking," requiring two authorized, trained and bonded employees present to count and verify the box contents.

As part of our Wisconsin voter-fraud audit, we found drop boxes have been "fished," meaning ballots dropped we're removed, as well as fire-bombs were used to destroy ballots already in the box. Also, many boxes were opened and sorted before being counted.

Remember! We caught the Biden campaign actively "laundering" and "harvesting" votes in five of the largest democrat controlled municipalities in Wisconsin.

[If legislation is passed, it must include regulations that require all drop boxes are UL listed and approved. Here's a link to pass on to those preparing such regulations. Click here:](#)

Sting update:

1. Please, see attached.
2. Vote in person! Tell all you know this, and post it on social media. A human mule out of Philly confessed: besides filling out fake ballots, US Postal Workers took absentee ballots coming back from voters heading to the clerks' offices - from high-percentage republican areas - and threw them in the trash. He said they also would take absentee ballots from the US Post Office central sorts, steam open the envelopes, take out the Republican votes and insert Democrat-voted ballots.

Do not vote using the US Mail.

Peter

Bernegger Update:

Via public records requests to WEC, I have learned Badger ePolling Books are not certified. Badger

Books were a creation of WEC. The Books are just ipads with software on them. Badger Books are used to check people in when they vote on election day. They are also used to register people. And they are also used to process absentee ballots. Active registrations of voters are loaded onto them before election days. The poll book registrations on the Badger Books come from the WisVote registration database. That data is loaded into the ipads via a USB stick or a local intranet wifi connection. Per WEC's policy, state law, federal law, and regulation, these Badger Books must be certified. WEC has not produced any certification at all. They attempted to deceive us by claiming that the Six Commissioners voting to spend money to develop the Badger Books is the certification. It is not. WEC has not certified Badger Books. The Federal Govt. has not. The EAC has not. No independent testing lab has either.

In addition, Badger Books are, by definition, critical infrastructure per the federal government. This mandates that Badger Books comply with FISMA requirements. WEC never even ran Badger Books through the FISMA compliance requirements. Homeland Security Presidential Directive 7, issued in 2003, established a national policy for the operational security of the critical infrastructure. Paragraph 24 of this directive provides that such infrastructure must comply with the Federal Information Security Modernization Act of 2002 or FISMA. FISMA, as updated in 2014, states that all critical infrastructure must be assessed periodically, "with a frequency depending on risk, but no less than annually". In January 2017, the Department of Homeland Security Secretary ("DHSS") designated election infrastructure to be critical infrastructure. For this reason, election equipment and its surrounding processes, procedures, and documentation must undergo a FISMA-mandated assessment, at least annually. Upon information and belief, and contrary to the DHSS's mandate, Badger Books has not evaluated FISMA in the past year. Not all polling places use Badger Books, but many do. Yet Meagan Wolfe and WEC strongly push all to use the Books. Meagan has lied to the election clerks. She has lied to all of us citizens. Any clerk who uses Badger Books in any election will violate the law. Meagan Wolfe put the Clerks in this precarious position.

On the Election fraud front, the first lawsuit is awaiting the Answer from WEC. Next, we have now raised funds to file a second lawsuit. The subject matter is the voting machines, devices, and systems are not certified by WEC. In particular, the modems, the internet use, IP addresses, the EMS servers, and the Microsoft SQL software used on those servers. This is all in regard to Dominion Voting Systems.

We have it in writing from two municipal clerks; their ES&S systems also use the uncertified items listed above. ES&S will also be covered in the suit. Expecting it to be filed this coming week.

Seeking funds for a third lawsuit - if you know of anyone or you think we could raise it ourselves with all the volunteers - let us know. To get it started would be about \$30,000 for this 3rd suit. It would be on WEC wrongfully charging \$12,500 for the Inactive list. It should be free. We researched this with two attorneys. The statute says WEC can charge for the Active list as it is the official registration list used in elections. They have no authority, however, to charge for the Inactive list. As an example, if we could get 150 people to donate \$200 each, we'd have the 3rd lawsuit against WEC. If we can do this, I'll kick it off with a \$1,000 donation. The new c3 was just set up, thus no website to go to yet. We do have a Treasurer and she could possibly take charge of this.

If you know or not, we (meaning here, our side) have been kicking butt, winning about 12 lawsuits now in Wisconsin. No more drop boxes, curing of ballots, changing a ballot after it has already been cast, and many other wins. [Pointing out Hillary Clinton's nasty attorney Marc Elias has LOST the last 8 of his 9 suits filed.](#) We can't get legislation passed due to Robin Vos and Tony Evers. So lawsuits it is.

Announcing: our new and second nonprofit named Election Watch, LLC. It is a c3 organization, meaning a donor can take a tax write-off. We are keeping our c4 The Wisconsin Center For Election Justice nonprofit, but donations to that one cannot be written off.

Subject: We are far behind

Do you remember when, on Monday, Dec 13th, 2021 GOP State Senator Kathy Bernier, the Chair of the Senate Elections and Campaigns had the press conference featuring CEIR (Center for Election Innovation and Research) Executive Director President David Becker?

The entire purpose of this press conference was for David Becker to announce the formation of an Election Official Legal Defense Network which would provide legal support for any state officials, municipal clerks, or county clerks who might be charged with election wrong-doing.

Keep in mind, CEIR is funded with \$67 million from Zuckerberg. I thought to myself at the time, this must be a joke, Zuckerberg illegally funded GOTV campaigns run by municipal employees in the 2020 election. Now his money is being used by CEIR to defend the election officials in Wisconsin who were involved in the illegal activities that occurred in the 2020 election.

CEIR is in a relationship with ERIC in that, ERIC shares confidential voter information with CEIR. Of course, ERIC has very one-sided contracts with 31 states (they had 33 states, but Louisiana and Alabama have recently dropped them) to allegedly provide more accurate voting roles by keeping track of movers. ERIC's one-sided contracts allow them to have access to private information of voters. The fact that ERIC then shares that confidential information with CEIR (Center for Election Innovation and Research) should be enough to have the ERIC contract with WEC voided. Our database is a mess, and it is proven across America where ERIC is involved the error rate of information in the database has increased by 1.35%.

ERIC uses the WisVote data, combined with data from DMV to create EBU lists (eligible but unregistered lists). These lists are then used by election officials and progressive organizations in registration and GOTV drives. These contracts have provided a systemic election advantage for progressive candidates.

Probably the most obvious place where this is true is on our U of W campuses across the state. I will submit a separate full description of how that entire process works for the progressives. It is quite an amazing revelation. Our publicly funded colleges use our tax dollars to fund voting registrations on campus and ultimately get these same people to vote.

Following is some voting data from the city of Madison. The wards represented here are smack dab in the middle of the U of W Madison campus. I believe this table illustrates the power of BadgersVote utilizing the EBU lists provided by ERIC and CEIR. You perhaps wonder why there are more ballots cast than # of registered voters, answer is, same day registration. But look at the percentage of the votes for the progressive candidates, those are phenomenal.

Ward #	Districts in Heart of U of W Campus	# Registered Voters	Ballots Cast	% Registered Voters	% Evers	% Barr
57	District 14	1236	1402	113.43%	83.78%	83.99
58	District 14	1111	1293	116.38%	83.54%	83.74
60	District 5	613	754	123%	91.16%	91.10
61	District 5	791	1155	146.02%	86.39%	86.09

I am doing a deep dive investigation into the University system and the way voting is influenced and accomplished on campuses. I am learning so much as to how the progressive left have cornered that market and I am truly shocked. I will be sending that information to you in the next few days.

One other piece of business. There is a person by the name of Jefferson Davis that represents himself as being the “spokesperson” for Wisconsin Election Integrity. Just to be clear. He is not a spokesperson for anything the WVA is doing in the election integrity arena.

As always, we look forward to your continued support!

Creating cost effective and affordable campaign signs:

1. Signs are made out of 4’X8’ sheets which means you can get one 4’X8’ or three 32”X48”s or four 24”X48” signs out of each sheet.
2. Most municipalities limit signs to no larger than 12 Square feet, which means the most cost effective size for a medium size sign is the 24”X48” sign. The 24”X48”s are 8 square feet. Being bigger than yard signs they stand out, yet a good size to get the most out of each 4’X8’ sheet. Also, the posts, which are available at Fleet Farm and most hardware stores and the zip ties can be smaller and reusable.

24”	24”	24”	24”
X	X	X	X
48”	48”	48”	48”

3. Our breakeven price point when purchasing signs is between 150 to 250 signs, which means, to make each purchase cost effective and affordable, county parties should combine their orders so the more signs purchased each time the better.
4. That is why we’re placing our “Paid for by the Freedom Hill Patriots PAC” disclaimer on as many signs as possible.
5. Once orders are made the invoice is sent to our PAC and paid after the county party placing the order sends a donation to the PAC.
6. The price-point, most cost effective for yard signs is between 250 – 500 signs.

7. The key is to get orders in ASAP to get into the Que.

Several embalmers across the country have been observing many large, and sometimes very long, “fibrous” and rubbery clots inside the corpses they treat, and are speaking out about their findings.

Numerous embalmers from different states confirmed to The Epoch Times that they have been seeing these strange clots, starting from either 2020 or 2021.

It’s not yet known if the cause of the new clot phenomenon is COVID-19, vaccines, both, or something different.

The Epoch Times received videos and photos of the anomalous clots, but could not upload them due to the level of gore.

Mike Adams, who runs an ISO-17025 accredited lab in Texas, analyzed clots in August and found them to be lacking iron, potassium, magnesium, and zinc.

Adams’s lab uses inductively coupled plasma mass spectrometry (ICP-MS), triple quadrupole mass spectrometer, and liquid chromatography-mass spectrometry, usually testing food for metals, pesticides, and glyphosate.

“We have tested one of the clots from embalmer Richard Hirschman, via ICP-MS. Also tested side by side, live human blood from an unvaccinated person,” Adams told The Epoch Times.

He found that the clots are lacking key elements present in healthy human blood, such as iron, potassium, and magnesium, suggesting that they are formed from something other than blood.

Adams is joining analytic forces with more doctors and plan to invest out of their own pocket in equipment in order to further determine their composition and probable causation.

The string-like structures differ in size, but the longest can be as long as a human leg and the thickest can be as thick as a pinky finger.

Drastic Increase in Clots

Richard Hirschman, a licensed funeral director and embalmer in Alabama, recalled that he has been in the trade since the tragedy of 9/11.

“Prior to 2020, 2021, we probably would see somewhere between 5 to 10 percent of the bodies that we would embalm [having] blood clots,” Hirschman told The Epoch Times.

“We are familiar with what blood clots are, and we’ve had to deal with them over time,” he said.

He says that now, 50 percent to 70 percent of the bodies he sees have clots.

“For me to embalm a body without any clots, kind of like how it was in the day, prior to all of this stuff ... It’s rare,” Hirschman said.

“The *exception* is to embalm a body without clots,” he noted.

Clot Analysis

The chart below shows the differences between the blood of the unvaccinated and the clot tested with ICP-MS, according to Adams’s analysis.

Element	Blood (Unvaccinated)	Clot
Mg (Magnesium)	35 ppm	1.7 ppm
K (Potassium)	1,893 ppm	12.5 ppm
Fe (Iron)	462 ppm	20.6 ppm
Cu (Copper)	1 ppm	0.3 ppm

Zn (Zinc)	7.9 ppm	2.4 ppm
Al (Aluminum)	1.3 ppm	1.6 ppm
Na (Sodium)	1,050 ppm	1,500 ppm
C (Carbon)	137,288 ppm	152,845 ppm
Ca (Calcium)	74 ppm	23.8 ppm
Sn (Tin)	163 ppb	943 ppb
Cl (Chlorine)	930,000 ppm	290,000 ppm
P (Phosphorus)	1,130 ppm	4,900 ppm

“Notice that the key elemental markers of human blood such as iron are missing in the clot (which is just at 4.4 percent of blood). Similar story with magnesium, potassium, and zinc. These are clear markers for human blood. Live human blood will always have high iron, or the person would be dead. These clots have almost no iron, nor magnesium, etc.,” Adams told The Epoch Times.

[Wade Hamilton](#), a cardiologist who is familiar with clots, told The Epoch Times: “The fact that the magnesium, potassium, and iron are very low in the samples could suggest that they are not the usual post-mortem clots, that in fact there was no blood flow in these vessels. These structures raise but do not totally answer some interesting questions.”

“The combination of the low electrolytes and the novel very strong string-like structures suggests that these areas where the string-like structures are seen in the blood vessels did not receive circulation. They are not ‘normal’ post-mortem findings according to experienced embalmers bent on obtaining total body vascular access from one site, which because of the unusual ‘clots,’ they were unable to do,” he added.

“They are not normal post-mortem clots but rather the long tiny strings may have been etiologic in the deaths, preventing circulation to those regions. Others have shown that

the spike protein can and does unfold and form a different configuration, contributing to tight string-like bonded structures with longitudinal twisting as well as cross binding, visible by microscopy, each one measuring angstroms in diameter—it takes 25,400,000 angstroms to make an inch—a typical capillary is around 5 microns, so many strings are needed to occlude a vessel.”

The embalming process has become much more difficult too, causing some embalmers to have to drain the blood via multiple points instead of a single spot.

‘Never Seen’ Before

“In 20 years of embalming, I had never seen these white fibrous structures in the blood, nor have others in my field. In the past year, I have seen these strange clots in many different individuals, and it doesn’t seem to matter what they die of, they often have similar substances in their blood. This makes me very concerned because if something is wrong in the blood, it begs the question: is something causing people to die prematurely?” Hirschman said.

“As the summer [of 2021] went on, COVID deaths were on the decline, but these clots were increasing in number. My suspicion is that the vaccine may be the cause of these strange clots. I realize that I am not a doctor nor am I a scientist, but I do know what blood looks like and I am very familiar with the embalming process that I have been doing for two decades. I do not know 100 percent what causes these clots, but I do know from my experience and through speaking with [several other embalmers](#) and funeral directors none of us had seen this strange clotting before.”

Hirschman sent the clots to a few pathologists and claims that some of them have “overlooked” them, probably due to fear of retaliation.

He has embalmed thousands of bodies and is very familiar with blood, and he feels that the blood of most of the bodies he has seen in the last two years “has changed.”

Hirschman is not afraid to lose his job because he's a trade embalmer and not employed by a funeral home, but is also cautious not to reveal where exactly he works.

"They're not even dead from COVID. They're dying of sudden heart attacks, strokes, cancers. It doesn't seem to matter what these people die of nowadays, so many of them have the same anomalies in their blood."

"The blood is different. Something is causing the blood to change. And the whole purpose of me trying to come out was to try to say: look, something's wrong. Let's figure out what it is so that maybe we can find a way to help break this stuff down and save people's lives," Hirschman said.

"If it's not the vaccine, fine! What is it? Let's figure it out, because something is causing it and it can't be healthy."

Vaccination Status

Hirschman is not always able to talk to the families but has been diligently trying to confirm if the bodies of the people with clots had been vaccinated.

The funeral house sometimes knows the vaccination status of the deceased person and tells him; sometimes it may also be that the person got vaccinated and did not tell the family.

"I had a 49-year-old, was totally healthy getting ready for work, collapses dead. Next thing you know, I'm embalming him, and guess what I'm pulling out of him? The same stuff. *Same stuff!* He was totally fine, totally healthy. Shocked everybody. Find out, oh, yeah. Not only was he vaccinated, he was boosted," Hirschman recalled.

He also stated that he found the "same stuff" in a man who had a stroke while sleeping and who died of cancer.

“I spoke with an embalmer in Louisiana and she said the same thing,” Hirschman said. “Sometimes they’re not huge, there are other varieties of anomalies, some of them were small, sometimes they’re little specks, like pieces of sand or coffee grounds.”

Hirschman annotated the details of bodies he has embalmed in the last few years:

2018 total bodies: 410

1st Quarter 90

2nd Quarter 77

3rd Quarter 110

4th Quarter 133

2019 total bodies: 439

1st Quarter 95

4th Quarter 216

2021 total bodies: 632

1st Quarter 198

2nd Quarter 91

3rd Quarter 164

4th Quarter 179 (Nov. 9/19 Clotted; Dec. 19/40 Clotted)

2022 total bodies so far: 364

1st Quarter 146 (38 not clotted, 67 heavy clots, 20 confirmed vaccinated)

2nd Quarter 90 (11 not clotted, 38 heavy clots, 21 confirmed vaccinated)

3rd Quarter 128 (19 not clotted, 51 heavy clots, 15 confirmed vaccinated)

Other Embalmers

Wallace Hooker is an expert embalmer who lectures on a national level as well as internationally. He has a significant presence on social media, especially on some private embalming websites.

Hooker sees about 300 bodies a year, and has seen numerous clots of the same kind Hirschman has.

He told The Epoch Times that “people are seeing these [clots], it’s just not Richard and me and Anna [Foster],” another embalmer.

“I have people sending me photos almost every week of what they’re seeing,” Hooker said.

After he stated that he suspected the vaccines could have something to do with the clots, he was dismissed by some people who said he wasn’t a qualified doctor who could comment on the cause.

Hooker also suspects that the so-called [Sudden Adult Death Syndrome](#) could have some relation to these clots.

Hooker lives in a conservative, rural area, and from his observation, fewer of the people there have been vaccinated compared to those in big cities.

“At least 25 percent of what I was embalming would display a significant amount of clotting,” Hooker said.

He also noted that some embalmers with lesser skill might not find the clots after draining and that pathologists who do autopsies on the bodies might not do a full check on the vascular system.

“Some embalmers are not being thorough embalmers. Many work for corporate firms that absolutely do not allow a cell phone in the embalming room. They do not allow photos to be taken, and it’s grounds for immediate dismissal. I’ve talked to these people that work for these firms,” he further stated.

Anna Foster, a licensed funeral director from Missouri, explained that she started seeing more frequent and larger clots after the COVID pandemic started.

“I often sit with the families to make the arrangements. Families tend to tell us about the lead-up to the individual’s death, and knowing I embalmed the person the night before led me to keep track of these cases,” Foster told The Epoch Times.

“In the beginning, none had ever been diagnosed with COVID, but they had all been vaccinated. Later, a couple had had COVID but not recently, and they were also vaccinated,” she continued.

“Most of the individuals I embalmed and saw these changes were over the age of 75 and lived in nursing facilities, except for two men in their early fifties. One of these men was a friend of ours, and he had the vaccination, and after his second dose, he began to feel ill. His wife took him to their family doctor, and the doctor immediately sent him to the ER because he was showing signs of a thrown clot or a heart attack. He went into cardiac arrest while transferring, and he died shortly after. He was embalmed right after death, and the clotting was by far unexplainable, and this is when I began to feel very concerned about this vaccination and canceled my thoughts of receiving the vaccination myself,” Foster said.

In one case, she pulled out clots that were 2 feet in length and “several more” that were at least 12 inches—from the same body.

“I know before the vaccination, my embalming cases did not have the amount of clotting I see now, and very rarely would you find many with fibrin attached; now, it is at least ten times the amount, if not more,” she said.

Strange Clots

Larry Mills, a licensed embalmer and funeral director in the state of Alabama, has been in the funeral business since 1968 and has been involved with the embalming procedure since the beginning of his career.

“We as embalmers are seeing some strange clots since the COVID outbreak. These clots are very rubbery feeling and very long as they exit the veins that we use during the embalming procedure. They really appear to be like earthworms. I have never seen this in my career until now,” Mills told The Epoch Times.

Other funeral directors or embalmers wanted to maintain anonymity, because they don’t know how the funeral houses would react.

“I can tell you with certainty that the clots Richard has shown online are a phenomenon that I have not witnessed until probably the middle of last year. That is pretty much all I have to say about it. I have no knowledge as to what is causing the clots, but they did seemingly start showing up around the middle of 2021,” another embalmer, licensed since around 2001, told The Epoch Times.

“You can [be] rest assured that the clots we are seeing are not something we ever saw prior to last year,” he added.

A licensed funeral director and apprentice embalmer who has been in the funeral industry for over 3 years has participated in over 200 embalmings.

“During May of 2021, the embalming process became more difficult. The normal draining of the blood was almost halted by thick, jelly-like blood. Instead, of the blood

flowing normally down the table, it was very vicious. So thick, that it would not wash down the table without assistance,” she told The Epoch Times.

As time has passed since the vaccines were distributed she has seen more of the “thick blood” as well as the “thick, fibrous-like clots.”

The clots are not only clotting the veins but the arteries as well.

She explained that normal embalming usually takes around 2 hours, but now it can take up to 4 hours.

“The distribution of the arterial fluid is being blocked by these clots and making my job more difficult. The clots are so large and thick that with the flow of arterial solution, massage and manipulation of the artery or vein is necessary for removal,” she continued. “I am able to assist some of the large clots with forceps.”

“Many families have reported their loved one’s death as a sudden heart attack, embolisms, and blood clots. Many families have stated, that their family members had no health issues prior to receiving the vaccine. I myself am vaccinated, as well as my parents. My father was vaccinated with the Moderna vaccine, two weeks later he had emergency surgery for blood clots in his popliteal artery. After his second vaccine dose, he was hospitalized with more clots, he had surgery a second time, and the third time he almost died. My father had to have a complete bypass in his leg,” she said.

“During my father’s hospitalization, my best friend’s father was having emergency surgery at the same hospital for a massive heart attack, which he suffered weeks after receiving his vaccine.”

“My father, now suffers from nerve damage and loss of usage in his leg. After my mother received her Moderna vaccine, she has suffered complications of heart valve failure, and surgery for blood clots in her arteries. I have been diagnosed, with pericardial effusion of the tricuspid valve and I also have myocarditis. I started having

sharp chest pain, shortness of breath and it has progressively become worse. I went to the emergency room and followed up with a cardiologist, who diagnosed me. My blood pressure is at an all-time high. I was a very healthy person until I received the Moderna vaccine,” she stated.

The Epoch Times reached out to Moderna for comment.

Three other embalmers also confirmed over the phone having witnessed anomalous clots.

Possible Explanations: Doctors

“The very large blood clots that are being removed before and after death are unlike anything we have ever seen in medicine,” Dr. James Thorp, a maternal-fetal medicine expert who has been [observing anomalies in pregnant women and fetuses](#), told The Epoch Times.

“The COVID-19 vaccine diverts energy away from the physiologic processes in the body towards the production of the toxic spike protein. This directs energy away from the normal process of internal digestion also known as autophagy. This results in protein misfolding and propagation of large intravascular blood clots and also a variety of related diseases including prion disease, Creutzfeldt-Jakob disease, amyloidosis, and dementias including Alzheimer’s and others. While it is possible that COVID-19 illness in itself could potentially contribute to these diseases, it is unlikely and if so the effect of the vaccine would be 100 to a 1,000-fold greater than that of COVID-19 disease.” Thorp said.

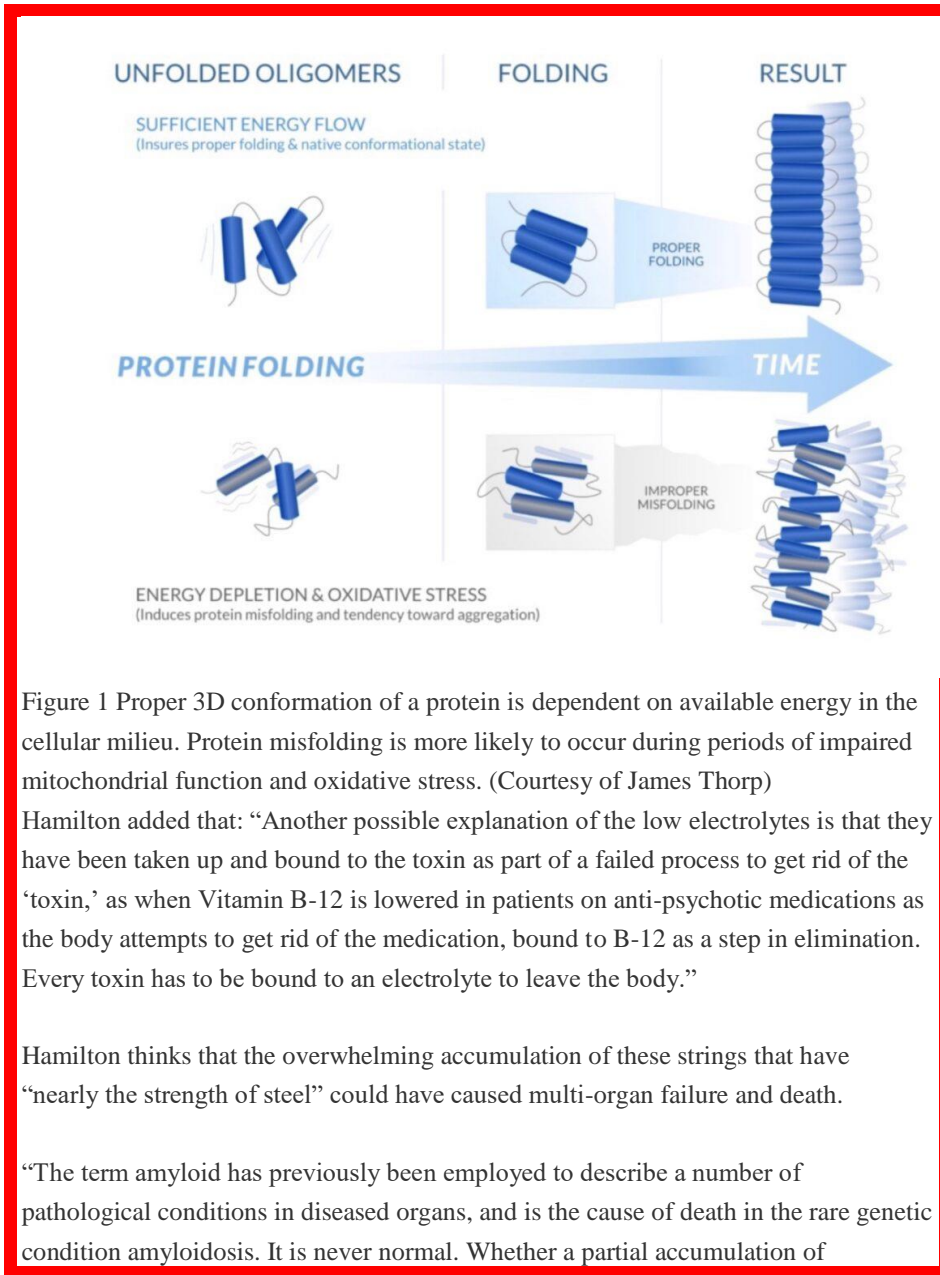

Figure 1 Proper 3D conformation of a protein is dependent on available energy in the cellular milieu. Protein misfolding is more likely to occur during periods of impaired mitochondrial function and oxidative stress. (Courtesy of James Thorp)

Hamilton added that: “Another possible explanation of the low electrolytes is that they have been taken up and bound to the toxin as part of a failed process to get rid of the ‘toxin,’ as when Vitamin B-12 is lowered in patients on anti-psychotic medications as the body attempts to get rid of the medication, bound to B-12 as a step in elimination. Every toxin has to be bound to an electrolyte to leave the body.”

Hamilton thinks that the overwhelming accumulation of these strings that have “nearly the strength of steel” could have caused multi-organ failure and death.

“The term amyloid has previously been employed to describe a number of pathological conditions in diseased organs, and is the cause of death in the rare genetic condition amyloidosis. It is never normal. Whether a partial accumulation of

thousands of the string-like structures can cause fatigue based on decreased blood flow, brain fog, or sudden adult death is speculative, but certainly possible,” Hamilton said.

“The pathologists will need to do more detailed examinations than are routinely done to answer this question. This process for example could lead to an acute myocardial infarction with enzyme elevation in a young soccer player with no gross anatomical findings.”

Dr. Sherri Tenpenny, who has been analyzing vaccine adverse reactions for about three decades, also thinks the clots have to do with amyloid proteins.

“It appears the answer is coming directly through that needle. Spike protein disease, leading to the deposition of amyloid in organs and filling up arteries and veins,” Tenpenny told The Epoch Times.

“The spike protein also interacts with platelets and fibrinogen, interfering with blood flow, also leading directly to hypercoagulation. When the spike protein was mixed with other blood proteins, the combined amyloid-like structure was resistant to the enzymes that would normally break down the clot (called impaired fibrinolysis),” she added.

“This leads to the persistence of a voluminous number of microclots in small blood vessels throughout the body called capillaries. Millions of these tiny clots effectively block the passage of red blood cells into tissues, decreasing oxygen exchange and leading to multiorgan system failure.”

New Year's 2023 From Peter

Learned today in the WILL lawsuit against WEC, referring to it as the 2nd lawsuit - to stop them from sending out phony, illegal, voter registration forms - Hillary Clinton's attorney Marc Elias filed a motion to intervene in the case. Elias would only do such a thing if they worried about this election fraud hole being plugged. His motion was denied!

Even better, WEC knows they are beaten, and they just agreed to expedited court filings. The Wis. DOJ recognizes they do not have an argument. Our side is going to win this case, and relatively soon! Your efforts help bring forth the evidence, convince WILL to take on the case, and we're going to win. God Bless you all.
